The

GRADUATE SCHOOL ANNOUNCEMENTS

1956-1957

UNIVERSITY OF MARYLAND COLLEGE PARK, MARYLAND

HM

IMPORTANT

THE PROVISIONS of this publication are not to be regarded as an irrevocable contract between the student and the University of Maryland. The University reserves the right to change any provision or requirement at any time within the student's term of residence. The University further reserves the right at any time, to ask a student to withdraw when it considers such action to be in the best interests of the University.

GENERAL INFORMATION

For information in reference to the University grounds, buildings, equipment, library facilities, requirements in American Civilization, definition of resident and non-resident, regulation of studies, degrees and certificates, transcripts of records, student health and welfare, living arrangements in the dormitories, off-campus housing, meals, University Counseling Service, scholarships and student aid, athletics and recreation, student government, honors and awards, religious denominational clubs, fraternities, societies and special clubs, the University band, student publications, University Post Office and Supply Store, write to the Director of Publications for the General Information issue of the Catalog.

C. EWING TUTTLE, 1114 St. Paul Street, Baltimore	. 1962
THOMAS R Symons 7410 Columbia Avenue College Park	. 1963

Members of the Board are appointed by the Governor of the State for terms of nine years each, beginning the first Monday in June.

The President of the University of Maryland is, by law, Executive Officer of the Board.

The State law provides that the Board of Regents of the University of Maryland shall constitute the Maryland State Found on Agriculture.

A regular meeting of the Board scheld the last Friday in each month, except during the months of July and American

OFFICERS OF THE ADMINISTRATION

WILSON H. ELKINS, President, University of Maryland. B.A., University of Texas, 1932; M.A., 1932; B.Litt., Oxford University, 1936, D.Phil., 1936.

ALBIN O. KUHN, Assistant to the President of the University. B.S., University of Maryland, 1938; M.S., 1939; Ph.D., 1948.

HARRY C. BYRD, President Emeritus, University of Maryland.
B.S., University of Maryland. 1908; LL.D., Washington College, 1936; LL.D., Dickinson College, 1938; D.Sc., Western Maryland College, 1938.

HAROLD F. COTTERMAN, Dean of the Faculty of the University.

B.S., Ohio State University, 1916; M.A., Columbia University, 1917; Ph.D.,
American University, 1930.

RONALD BAMFORD, Dean of the Graduate School.

B.S., University of Connecticut, 1924; M.S., University of Vermont, 1926; Ph.D., Columbia University, 1931.

GORDON M. CAIRNS, Dean of Agriculture.

B.S., Cornell University, 1936; M.S., 1938; Ph.D., 1940.

PAUL E. NYSTROM, Director, Agricultural Extension Service.

B.S., University of California, 1928; M.S., University of Maryland, 1931;
M.P.A., Harvard University, 1948; D.P.A., 1951.

IRVIN C. HAUT, Director, Agricultural Experiment Station and Head, Department of Horticulture.

B.S., University of Idaho, 1928; M.S., State College of Washington, 1930; Ph.D., University of Maryland, 1933.

LEON P. SMITH, Dean of the College of Arts and Sciences.

B.A., Emory University, 1919; M.A., University of Chicago, 1928; Ph.D., 1930; Diplome le l'Institut de Touraine, 1932.

J. Freeman Pyle, Dean of the College of Business and Public Administration. Ph.B., University of Chicago, 1917; M.A., 1918, Ph.D., 1925.

MYRON S. AISENBERG, Dean of the School of Dentistry. D.D.S., University of Maryland, 1922.

VERNON E. ANDERSON, Dean of the College of Education.

B.S., University of Minnesota, 1930; M.A., 1936; Ph.D., University of Colorado, 1942.

S. Sidney Steinberg, Dean of the College of Engineering.

B.E., Cooper Union School of Engineering, 1910; C.E., 1913; Registered Professional Engineer.

WILBERT J. HUFF, Director, Engineering Experiment Station and Chairman of the Division of Physical Sciences.

B.A., Ohlo Northern University, 1911; B.A., Yale College, 1914; Ph.D., Yale University, 1917; D.Sc. (hon.), Ohlo Northern University, 1927.

M. Marie Mount, Dean of the College of Home Economics.

B.A., University of Indiana, 1916; M.A., Columbia Teachers College, 1924.

ROGER HOWELL, Dean of the School of Law.

B.A., Johns Hopkins University, 1914; Ph.D., 1917; LL.B., University of Maryland, 1917.

WILLIAM S. STONE, Dean of the School of Medicine and Director of Medical Education and Research.

B.S., University of Idaho, 1924; M.S., 1925; M.D., University of Louisville, 1929; Ph.D., (hon.), University of Louisville, 1946.

FLORENCE M. GIPE, Dean of the School of Nursing.

B.S., Catholic University of America, 1937; M.S., University of Pennsylvania, 1940; Ed.D., University of Maryland, 1952.

CLIFFORD G. BLITCH, Director of the University Hospital.
M.D., Vanderbilt University Medical School, 1928.

JOSEPH R. AMBROSE, Dean of the College of Military Science. B.A., University of Denver, 1948; Colonel, U.S. Air Force.

Noel E. Foss, Dean of the School of Pharmacy.

Ph.C., South Dakota State College, 1929; B.S., 1929; M.S., University of Maryland, 1932; Ph.D., 1933.

- LESTER M. FRALEY, Dean of the College of Physical Education, Recreation, and Health.
 - B.A., Randolph Macon College, 1928; M.A., 1937; Ph.D., Peabody College, 1939.
- RAY W. EHRENSBERGER, Dean of the College of Special and Continuation Studies. B.A., Wabash College, 1929; M.A., Butler University, 1930; Ph.D., Syracuse University, 1937.
- CHARLES E. WIIITE, Chairman of the Lower Division.

 B.S., University of Maryland, 1923; M.S., 1924; Ph.D., 1926.
- JOHN E. FABER, JR., Chairman of the Division of Biological Sciences. B.S., University of Maryland, 1926; M.S., 1927; Ph.D., 1937.
- Adolf E. Zucker, Chairman of the Division of Humanities.

 B.A., University of Illinois, 1912; M.A., 1913; Ph.D., University of Pennsylvania, 1917.
- HAROLD C. HOFFSOMMER, Chairman of the Division of Social Sciences.

 B.S., Northwestern University, 1921; M.A., 1923; Ph.D., Cornell University, 1929.
- GEARY F. EPPLEY, Director of Student Welfare and Dean of Men. B.S., Maryland State College, 1920; M.S., University of Maryland, 1926.
- Adele H. Stamp, Dean of Women. B.A., Tulane University, 1921; M.A., University of Maryland, 1924.
- EDGAR F. Long, Dean of Students.

 B.A., Blue Ridge College, 1911; M.A., University of Kansas, 1914; Ph.D., Johns Hopkins University, 1932.
- G. WATSON ALGIRE, Director of Admissions and Registrations. B.A., University of Maryland, 1930; M.S., 1931.
- NORMA J. AZLEIN, Associate Registrar. B.A., University of Chicago, 1940.
- DOROTHY L. POWELL, Associate Director of Admissions. B.A., University of Maryland, 1943.
- DAVID L. BRIGHAM, Alumni Secretary. B.A., University of Maryland, 1938.
- WILLIAM W. COBEY, Director of Athletics.
 A.B., University of Maryland, 1930.
- GEORGE O. Weber, Director and Supervising Engineer, Department of Physical Plant. B.S., University of Maryland, 1933.
- GEORGE W. MORRISON, Associate Director and Supervising Engineer Physical Plant. (Baltimore).
 - B.S., University of Maryland, 1927; E.E., 1931.
- CHARLES L. BENTON, Director of Finance and Business. B.A., University of Maryland, 1938; M.S., 1940; C.P.A., 1940.
- C. WILBUR CISSEL, Comptroller. B.A., University of Maryland, 1932; M.A., 1934; C.P.A., 1939.
- HOWARD ROVELSTAD, Director of Libraries.

 B.A., University of Illinois, 1936; M.A., 1937; B.S.L.S., Columbia University, 1940.
- GEORGE W. Focg, Director of Personnel. B.A., University of Maryland, 1926; M.A., 1928.
- GEORGE W. WARREN, Director of Procurement. B.A., Duke University, 1942.
- HARVEY L. MILLER, Director of Publications and Publicity. Colonel, U.S. Marine Corps, Retired.
- HARRY A. BISHOP, Director of the Student Health Service. M.D., University of Maryland, 1912.
- JOHN P. O'REAGAN, Commandant of Cadets, Air Force R.O.T.C. B.S., Georgetown University, 1950.

GRADUATE SCHOOL SUPPLEMENT TO GENERAL CALENDAR

1956	
October 2Mod	dern language examination for Ph.D. requirement.
	t day to file applications for admission to candidacy for Doctor's degrees on June 8, 1957 and Master's degrees on January 30, 1957.
	t day to file applications for diplomas at the office of the Registrar for degrees on January 30, 1957.
1957	
	t day to deposit theses in the office of the Graduate School for students com- pleting requirements for degrees on January 30, 1957.
February 5TuesdayMod	dern language examination for Ph.D. requirement.
	t day to file applications for admission to candidacy for Master's degrees on June 8, 1957.
	t day to file applications for diplomas at the office of the Registrar for degrees on June 8, 1957.
	t day to deposit theses in the office of the Graduate School for students com- pleting requirements for degrees on June 8, 1957.
June 4TuesdayMod	dern language examination for Ph.D., requirement.
	t day to file applications for admission to candidacy at June meeting of the Graduate Council.
	t day to file applications for diplomas at the office of the Registrar for degrees on August 2, 1957.
	t day to deposit theses in the office of the Graduate School for students completing requirements for degrees on August 2, 1957.

GRADUATE FACULTY

- ARTHUR M. AHALT, Professor and Head of Department of Agricultural Education and Rural Life.
 - B.S., University of Maryland, 1931; M.S., Pennsylvania State University, 1937
- WILLIAM R. AHRENDT, Lecturer in Electrical Engineering.
 S.B., Massachusetts Institute of Technology, 1941; S.M., 1942.
- MYRON S. AISENBERG, Professor of General and Oral Pathology and Dean of School of Dentistry.
 - D.D.S., University of Maryland, 1922.
- ALFRED O. ALDRIDGE, Professor of English.
 B.S., Indiana University, 1937; M.A., University of Georgia, 1938; Ph.D., Duke University, 1942.
- BENJAMIN F. ALLEN, Associate Professor of Pharmacy, School of Pharmacy, B.S., University of Maryland, 1937; Ph.D., 1949.
- J. FRANCES ALLEN, Assistant Professor of Zoology.
 B.S., Radford College, 1938; M.S., University of Maryland, 1948; Ph.D., 1952.
- REDFIELD W. ALLEN, Associate Professor of Mechanical Engineering. B.S., University of Maryland, 1943; M.S., 1949.
- Russell B. Allen, Professor of Civil Engineering. B.S., Yale University, 1923.
- WILLIAM R. AMBERSON, Professor and Head of Department of Physiology, School of Medicine.
 - Ph.B., Lafayette College, 1915; Ph.D., Princeton University, 1922.
- GEORGE ANASTOS, Associate Professor of Zoology.

 B.S., University of Akron, 1942; M.A., Harvard University, 1947; Ph.D., 1949.
- JAMES L. ANDERSON, Research Associate of Physics.
 B.S., University of Chicago, 1946; M.S., 1949; Ph.D., Syracuse University, 1951.
- ROY S. ANDERSON, Assistant Professor of Physics.
 A.B., Clark University, 1943; A.M., Dartmouth College, 1948; Ph.D., Duke University, 1951.
- Vernon E. Anderson, Professor and Dean of the College of Education. B.S., University of Minnesota, 1930; M.A., 1936; Ph.D., University of Colorado, 1942.
- THORNTON H. ANDERSON, Assistant Professor of Government and Politics.

 A.B., University of Kentucky, 1937; M.A., 1938; Ph.D., University of Wisconsin, 1948.
- THOMAS G. Andrews, Professor and Head of Department of Psychology. B.A., University of Southern California, 1937; M.A., University of Nebraska, 1939; Ph.D., 1941.
- WENDELL S. Arbuckle, Professor of Dairy.

 B.S.A., Purdue University, 1933; A.M., University of Missouri, 1937; Ph.D., 1940.
- JOHN P. AUGELLI, Associate Professor of Geography. B.A., Clark University, 1943; M.A., Harvard University, 1949; Ph.D., 1951.

- John H. Axley, Associate Professor of Agronomy. B.A., University of Wisconsin, 1937; Ph.D., 1945.
- WILLIAM T. AVERY, Professor and Head of Department of Classical Languages and Literatures.

B.A., Western Reserve University, 1934; M.A., 1935; Ph.D., 1937.

- ARTHUR W. AYERS, Associate Professor of Industrial Psychology. B.S., Pennsylvania State College, 1933; M.A., 1938; Ph.D., 1940.
- WILLIAM J. BAILEY, Research Professor of Chemistry.

 B. Chem., University of Minnesota, 1943; Ph.D., University of Illinois, 1946.
- RONALD BAMFORD, Dean of the Graduate School and Head of Department of Botany. B.S., University of Connecticut, 1924; M.S., University of Vermont, 1926; Ph.D., Columbia University, 1931.
- EDWARD S. BARBER, Associate Professor of Civil Engineering. B.S., University of Maryland, 1935; C.E., 1952.
- Arnold M. Bass, Lecturer in Physics.

 B.S., City College of New York, 1942; M.A., Duke University, 1943; Ph.D., 1949.
- RICHARD H. BAUER, Associate Professor of History. Ph.B., University of Chicago, 1923; M.A., 1928; Ph.D., 1935.
- GEORGE M. BEAL, Professor of Agricultural Economics and Marketing.
 B.S., Utah State Agricultural College, 1934; M.S., University of Wisconsin, 1938;
 Ph.D., 1942.
- GLENN H. BECK, Professor and Head of Dairy Department.

 B.S., University of Idaho, 1936; M.S., Kansas State College, 1938; Ph.D., Cornell University, 1950.
- WILLIAM E. BICKLEY, Associate Professor of Entomology.

 B.S., University of Tennessee, 1934; M.S., 1936; Ph.D., University of Maryland, 1940.
- JACK B. BLACKBURN, Associate Professor of Civil Engineering. B.S.C.E., Oklahoma University, 1947; M.S.C.E., Purdue University, 1949; Ph.D., 1955.
- GLENN O. BLOUGH, Associate Professor of Education.

 A.B., University of Michigan, 1929; A.M., 1932; LL.D., Central Michigan College of Education, 1950.
- CARL BODE, Professor of English and Executive Secretary of American Civilization Program.

Ph.B., University of Chicago, 1933; M.A., Northwestern University, 1938; Ph.D., 1941.

LUTHER B. BOHANAN, Assistant Professor of Agricultural Economics and Marketing.

B.S., University of Tennessee, 1932; M.S., 1939.

- DONALD BONNEY, Professor of Chemical Engineering. B.E., Johns Hopkins University, 1926; Ph.D., 1935.
- GERARD A. BOURBEAU, Associate Professor of Agronomy.

 B.A., St. Francis Xavier College, 1938; B.S., Laval University, 1943; M.S., University of Wisconsin, 1946; Ph.D., 1948.

- Don L. Bowen, Associate Professor of Government and Politics and Director of Bureau of Governmental Research.
 - B.S., Utah State Agricultural College, 1944; MS., University of Denver, 1945; D.S.S., Syracuse University, 1949.
- JOHN W. Brace, Assistant Professor of Mathematics. B.A., Swarthmore College, 1949; A.M., Cornell University, 1951; Ph.D., 1953.
- RICHARD M. BRANDT, Assistant Professor of Education.

 B.M.E. University of Virginia, 1943; M.A., University of Michigan, 1949; Ed.D.,
 University of Maryland, 1954.
- Pela F. Braucher, Associate Professor of Foods and Nutrition. B.A., Goucher College, 1927; M.S., Pennsylvania State University, 1929.
- HENRY BRECHBILL, Professor and Assistant Dean of College of Education.

 A.B., Blue Ridge College, 1911; A.M., University of Plttsburgh, 1917; Ph.D.,
 George Washington University, 1933.
- Ferdinand G. Brickwedde, Professor of Physics (P. T.) B.A., Johns Hopkins University, 1922; M.A., 1924; Ph.D., 1925.
- Donald M. Britton, Assistant Professor of Horticulture. B.A., University of Toronto, 1946; Ph.D., University of Virginia, 1950.
- George M. Brown, Associate Professor of Chemistry.
 B.A., Emory University, 1942; M.S., 1943; M.A., Princeton University, 1946; Ph.D., 1949.
- GLEN D. BROWN, Professor of Industrial Education.

 A.B., Indiana State Teachers College, 1916; M.A., Indiana University, 1931.
- Joshua R. C. Brown, Assistant Professor of Zoology. A.B., Duke University, 1948; M.A., 1949; Ph.D., 1953.
- Russell G. Brown, Associate Professor of Botany.
 B.S. Agr., West Virginia University, 1929; M.S., 1930; Ph.D., University of Maryland, 1934.
- FRANKLIN L. BURDETTE, Professor of Government and Politics.

 A.B., Marshall College, 1934; A.M., University of Nebraska, 1935; A.M., Princeton University, 1937; Ph.D., 1938.
- RAYMOND M. BURGISON, Assistant Professor of Pharmacology, School of Medicine. B.S., Loyola College, 1945; M.S., University of Maryland, 1948; Ph.D., 1950.
- SUMNER O. Burhoe, Professor of Zoology.

 B.S., University of Massachusetts, 1925; M.S., Kansas State College, 1926; Ph.D.,
 Harvard University, 1937.
- DAVID J. BURNS, Assistant Professor of Agricultural Economics and Marketing. B.S., University of Maryland, 1948; M.S., 1949; Ph.D., 1954.
- RICHARD H. BYRNE, Associate Professor of Education.

 A.B., Franklin and Marshall College, 1938; M.A., Columbia University, 1947; Ed.D., 1952.
- GORDON M. CAIRNS, Dean of College of Agriculture. B.S., Cornell University, 1936; M.S., 1938; Ph.D., 1940.
- MARY K. CARL, Associate Professor of Nursing and Chairman of the Graduate Program in Nursing.
 - B.S., Johns Hopkins University, 1946; Ph.D., University of Maryland, 1951.

VERNE E. CHATELAIN, Professor of History.

B.A., Nebraska State Teachers College, 1917; M.A., University of Chicago, 1925; Ph.D., University of Minnesota, 1943.

ELI W. CLEMENS, Professor of Business Organization.

B.S., Virginia Polytechnic Institute, 1930; M.S., University of Illinois, 1934; Ph.D., University of Wisconsin, 1940.

CHARLES N. COFER, Professor of Psychology.

A.B., Southeast Missouri State College, 1936; M.A., State University of Iowa, 1937; Ph.D., Brown University, 1940.

GERALD F. COMBS, Professor of Poultry Nutrition.

B.S., University of Illinois, 1940; Ph.D., Cornell University, 1948.

J. Allan Cook, Professor of Marketing.

A.B., College of William and Mary, 1928; M.B.A., Harvard University, 1936; Ph.D., Columbia University, 1948.

FRANKLIN D. COOLEY, Associate Professor of English.

A.B., Johns Hopkins University, 1927; M.A., University of Maryland, 1933; Ph.D., Johns Hopkins University, 1940.

ALBERT H. COOPER, Professor of Chemical Engineering.

B.S., University of Tennessee, 1929; M.S., 1930; Ph.D., Michigan State College,

GEORGE F. CORCORAN, Professor and Chairman of Department of Electrical Engineering.

B.S., South Dakota State College, 1923; M.S., University of Minnesota, 1926.

GERALD CORNING, Associate Professor of Aeronautical Engineering.

B.S., New York University, 1937; M.S., Catholic University, 1954.

ERNEST N. CORY, State Entomologist, Professor and Head of Department of Entomology and Assistant Director of Extension.

B.S., Maryland Agricultural College, 1909; M.S., 1913; Ph.D., American University, 1926.

HAROLD F. COTTERMAN, Dean of the Faculty of the University.

B.S., Ohio State University, 1916; M.A., Columbia University, 1917; Ph.D., American University, 1930.

JOHN B. COURNYN, Associate Professor of Civil Engineering.

B.S., University of Alabama, 1946; M.S., 1948.

CARROLL E. Cox, Professor of Plant Pathology.

A.B., University of Delaware, 1938; M.S., Virginia Polytechnic Institute, 1940; Ph.D., University of Maryland, 1943.

HERBERT A. CROSMAN, Assistant Professor of History.

A.B., Harvard University, 1938; A.M., 1938; Ph.D., 1948.

DIETER CUNZ, Professor of Foreign Languages.

Ph.D., Frankfurt University, 1934.

RICHARD F. DAVIS, Assistant Professor of Dairy.

B.S., University of New Hampshire, 1950; M.S., Cornell University, 1952; Ph.D., 1953.

Townes L. Dawson, Associate Professor of Business Law.

B.B.A., University of Texas, 1943; B.S., U.S. Merchant Marine Academy, 1946; M.B.A., University of Texas, 1947; Ph.D., 1950; L.L.B., 1954; Member Texas Bar.

DOROTHY F. DEACH, Professor and Head of Department of Physical Education for Women.

B.S., University of Illinois, 1931; M.S., 1932; Ph.D., University of Michigan, 1951.

A. Morris Decker, Jr., Assistant Professor of Agronomy.

B.S., Colorado Agricultural and Mechanical College, 1949; M.S., Utah State College, 1951; Ph.D., University of Maryland, 1953.

JULES DE LAUNAY, Professor of Physics (P. T.).

A.B., Howard College, 1931; B.A., Oxford University, 1935; M.A., 1938; Ph.D., Stanford University, 1939.

JOAQUIN B. DIAZ, Associate Research Professor in Institute for Fluid Dynamics and Applied Mathematics.

B.A., University of Texas, 1940; Ph.D., Brown University, 1945.

DUDLEY DILLARD, Professor and Head of Department of Economics. B.S., University of California, 1935; Ph.D., 1940.

LEWIS P. DITMAN, Research Professor of Entomology. B.S., University of Maryland, 1926; M.S., 1929; Ph.D., 1931.

ROBERT G. DIXON, JR., Associate Professor of Government and Politics. A.B., Syracuse University, 1943; Ph.D., 1947.

RAYMOND N. DOETSCH, Associate Professor of Bacteriology.

B.S., University of Illinois, 1942; A.M., Indiana University, 1943; Ph.D., University of Maryland, 1948.

BRICE M. Dorsey, Professor and Head of Department of Oral Surgery, School of Dentistry.

D.D.S., University of Maryland, 1927.

NATHAN L. DRAKE, Professor and Head of Department of Chemistry. A.B., Harvard University, 1920; A.M., 1921; Ph.D., 1922.

WILSON H. ELKINS, President, University of Maryland.

B.A., University of Texas, 1932; M.A., 1932; Litt. B., Oxford University, 1936; D.Phil., 1936.

GAYLORD B. ESTABROOK, Professor of Physics, School of Pharmacy.

B.Sc., Purdue University, 1921; M.Sc., Ohio State University, 1922; Ph.D., University of Pittsburgh, 1932.

JOHN E. FABER, JR., Professor and Head of Department of Bacteriology. B.S., University of Maryland, 1926; M.S., 1927; Ph.D., 1937.

WILLIAM F. FALLS, Professor of Foreign Languages.

A.B., University of North Carolina, 1922; Certificate d'Etudes Francaises, University of Toulouse, 1926; M.A., Vanderbilt University, 1928; Ph.D., University of Pennsylvania, 1932.

FREDERICK P. FERGUSON, Professor of Physiology, School of Medicine. B.A., Wesleyan University, 1938; M.A., 1939; Ph.D., University of Minnesota, 1948.

- RICHARD A. FERRELL, Assistant Professor of Physics.

 B.S., California Institute of Technology, 1948; M.S., 1949; Ph.D., Princeton University, 1952.
- FRANK H. J. FIGGE, Professor of Anatomy, School of Medicine.
 A.B., Colorado College, 1927; Ph.D., University of Maryland, 1934.
- ALLAN J. FISHER, Professor of Accounting and Finance.

 B.S. in Ch.E., University of Pennsylvania, 1928; Litt.M., University of Pittsburgh, 1936; Ph.D., 1937.
- Russell S. Fisher, Professor of Legal Medicine, School of Medicine.
 B.S., Georgia School of Technology, 1937; M.D., Medical College of Virginia, 1942.
- Noel E. Foss, Professor and Dean of School of Pharmacy.

 Ph.C. & B.S., South Dakota State College, 1929; M.S., University of Maryland, 1932; Ph.D., 1933.
- JOHN E. FOSTER, Professor and Head of Department of Animal Husbandry. B.S., North Carolina State College, 1926; M.S., Kansas State College, 1927; Ph.D., Cornell University, 1937.
- LESTER M. FRALEY, Dean of College of Physical Education, Recreation and Health.

 A.B., Randolph-Macon College, 1928; M.A., Peabody College, 1937; Ph.D., 1939.
- JOHN H. FREDERICK, Professor of Transportation and Foreign Trade and Head of Department of Business Organization.

 B.S., University of Pennsylvania, 1913; M.A., 1925; Ph.D., 1927.
- JACOB J. FREEMAN, Lecturer in Electrical Engineering.
 B.S., College of William and Mary, 1933; M.A., Columbia University, 1935; Ph.D., Catholic University, 1949.
- HENRY C. FREIMUTH, Assistant Professor of Legal Medicine, School of Medicine. B.S., College of the City of New York, 1932; M.S., New York University, 1933; Ph.D., 1938.
- ROBERT ELSTON FULLERTON, Associate Professor of Mathematics. B.S., Heidelberg College, 1938; M.S., Syracuse University, 1940; Ph.D., Yale University, 1945.
- LUCIUS GARVIN, Professor and Head of Department of Philosophy. A.B., Brown University, 1928; A.M., 1929; Ph.D., 1933.
- HUGH G. GAUCH, Professor of Plant Physiology.
 B.S., Miami University, 1935; M.S., Kansas State College, 1937; Ph.D., University of Chicago, 1939.
- DWIGHT L. GENTRY, Associate Professor of Marketing.
 A.B., Elon College, 1941; M.B.A., Northwestern University, 1947; Ph.D., University of Illinois, 1952.
- WESLEY M. GEWEHR, Professor and Head of Department of History. Ph.B., University of Chicago, 1911; M.A., 1912; Ph.D., 1922.
- FLORENCE M. GIPE, Professor and Dean of the School of Nursing. B.S., Catholic University, 1937; M.S., University of Pennsylvania, 1940; Ed.D., University of Maryland, 1952.

RICHARD A. GOOD, Associate Professor of Mathematics.

A.B., Ashland College, 1939; M.A., University of Wisconsin, 1940; Ph.D., 1945.

ROBERT A. GOODELL, Assistant Professor of Business Organization and Administra-

B.A., Augustana College and Theological Seminary, 1943; M.A., University of Iowa, 1950; Ph.D., 1953.

FRANK GOODWYN, Professor of Spanish and Latin American Civilization.

B.A., Texas College of Arts and Industries, 1940; M.A., 1941; Ph.D., University of Texas, 1946.

DONALD C. GORDON, Associate Professor of History.

A.B., College of William and Mary, 1934; M. A., Columbia University, 1937; Ph.D., 1947.

IRA J. GORDON, Associate Professor of Education.

B.B.A., New York City College, 1943; M.A., Columbia University, 1947; Ed.D., 1950.

FRANK A. GRANT, Assistant Professor of Physics.

B.Engr., McGill University, 1942; M.A.Sc., University of Toronto, 1946; Ph.D.. 1949.

HENRY W. GRAYSON, Associate Professor of Economics.

B.A., University of Saskatchewan, 1937; M.A., University of Toronto, 1947; Ph.D., 1950.

MELVILLE S. GREEN, Lecturer in Physics.

B.A., Columbia College, 1944; M.A., Princeton University, 1947; Ph.D., 1952.

WILLARD W. GREEN, Professor of Animal Husbandry.

B.S., University of Minnesota, 1933; M.S., 1934; Ph.D., 1939.

ROBERT GORDON GRENELL, Associate Professor of Psychiatry.

A.B., College of the City of New York, 1935; M.Sc., New York University, 1936; Ph.D., University of Minnesota, 1943.

Rose Marie Grentzer, Professor of Music.

B.A., Carnegie Institute of Technology, 1935; B.A., 1936; M.A., 1939.

SIDNEY GROLLMAN, Assistant Professor of Zoology.

B.S., University of Maryland, 1947; M.S., 1949; Ph.D., 1952.

ALLAN G. GRUCHY, Professor of Economics.

B.A., University of British Columbia, 1926; M.A., McGill University, 1929; Ph.D., University of Virginia, 1931.

JOHN G. GURLEY, Associate Professor of Economics.

A.B., Stanford University, 1942; Ph.D., 1951.

JOHN W. GUSTAD, Director of University Counseling Center and Associate Professor of Psychology.

B.A., Macalester College, 1943; M.A., University of Minnesota, 1948; Ph.D., 1949.

RAY C. HACKMAN, Professor of Psychology.

B.A., University of Nebraska, 1935; M.A., 1936; Ph.D., University of Minnesota,

WILLIAM E. HAHN, Professor of Anatomy, School of Dentistry.

A.B., University of Rochester, 1938; M.S., 1939; D.D.S., 1931.

DICK W. HALL, Professor of Mathematics.

B.S., University of Virginia, 1934; M.S., 1935; Ph.D., 1938.

FRANCIS R. HAMA, Assistant Research Professor in Institute for Fluid Dynamics and Applied Mathematics.

M.Engr., Tokyo Imperial University, 1940; D.Sc., University of Tokyo, 1952.

DANIEL HAMBERG, Associate Professor of Economics. B.S., University of Pennsylvania, 1945; M.A., 1947; Ph.D., 1952.

ARTHUR B. HAMILTON, Associate Professor of Agricultural Economics and Marketing.

B.S., University of Maryland, 1929; M.S., 1931.

Poul A. Hansen, Professor of Veterinary Bacteriology.
Ph.B., University of Copenhagen, 1922; M.S., Royal Technological College, Denmark, 1926; Ph.D., Cornell University, 1934.

Susan Emolyn Harman, Professor of English.

B.Ed., Nebraska State Teachers College, 1916; B.A., University of Nebraska, 1917; M.A., 1918; Ph.D., Johns Hopkins University, 1926.

HORACE V. HARRISON, Assistant Professor of Government and Politics. B.A., Trinity University, 1932; M.A., University of Texas, 1941; Ph.D., 1951.

ELLEN E. HARVEY, Associate Professor of Physical Education, Recreation and Health.

B.S., Columbia University, 1935; M.A., 1941; Ed.D., University of Oregon, 1951.

I. C. HAUT, Professor and Head of Department of Horticulture; Director Agricultural Experiment Station.

B.S., University of Idaho, 1928; M.S., State College of Washington, 1930; Ph.D., University of Maryland, 1933.

ELIZABETH E. HAVILAND, Assistant Professor of Entomology.

B.A., Wilmington College, 1923; M.A., Cornell University, 1926; M.S., University of Maryland, 1936; Ph.D., 1945.

RICHARD HENDRICKS, Assistant Professor of Speech.

A.B., Franklin College of Indiana, 1937; M.A., Ohio State University, 1939.

EDWARD J. HERBST, Associate Professor of Biological Chemistry, School of Medicine. B.S., University of Wisconsin, 1943; M.S., 1944; Ph.D., 1949.

ROBERT C. HERMAN, Visiting Professor of Physics.

B.S., City College of New York, 1935; M.A., Princeton University, 1940; Ph.D., 1940.

CHARLES M. HERZFELD, Lecturer in Physics.

B.Ch.E., Catholic University, 1945; Ph.D., University of Chicago, 1951.

HAROLD C. HOFFSOMMER, Professor and Head of Department of Sociology. B.S., Northwestern University, 1921; M.A., 1923; Ph.D., Cornell University, 1929.

D. LEE HORNBAKE, Professor and Head of Department of Industrial Education.

B.S., Pennsylvania State Teachers College, California, 1934; M.A., Ohio State University, 1936; Ph.D., 1942.

- KENNETH O. Hover, Professor of Education. B.A., St. Olaf College, 1926; Ph.D., University of Minnesota, 1950.
- CHARLES Y. Hu, Professor of Geography.

 B.S., University of Nanking, 1930; M.A., University of California, 1936 Ph.D., University of Chicago, 1941.
- ALFRED HUBER, Research Associate in Institute for Fluid Dynamics and Applied Mathematics.
 - M.C.E., Eidenoessische Technische Hochschule, 1945; M.S., Eidenoessische Technische Hochschule, 1949; D.Sc., Eidenoessische Technische Hochschule, 1951.
- WILBERT J. HUFF, Professor and Chairman of Department of Chemical Engineering.
 - A.B., Ohio Northern University, 1911; A.B., Yalte College, 1914; Ph.D., Yale University, 1917; D.Sc. (hon.), Ohio Northern University, 1927.
- James H. Humphrey, Associate Professor of Physical Education and Health. B.A., Denison University, 1933; M.A., Western Reserve University, 1946; Ed.D., Boston University, 1951.
- CASIMIR T. ICHNIOWSKI, Emerson Professor of Pharmacology, School of Pharmacy. Ph.G., University of Maryland, 1929; B.S., 1930; M.S., 1932; Ph.D., 1936.
- RICHARD W. ISKRAUT, Associate Professor of Physics.

 B.S., City College of New York, 1937; Sc.D., University of Leipzig, 1941.
- JOHN W. JACKSON, Professor Mechanical Engineering.
 B.S.M.E., University of Cincinnati. 1934; M.E., 1937; M.S.M.E., California Institute of Technology, 1940.
- STANLEY B. JACKSON, Professor and Head of Department of Mathematics. A.B., Bates College, 1933; A.M., Harvard University, 1934; Ph.D., 1937.
- LAURENS JANSEN, Assistant Professor in Institute of Molecular Physics.
 Cand. Ex. State University, Utrecht, Holland, 1947; Doct., 1950; Doctorate, 1954.
- WILHELMINIA JASHEMSKI, Assistant Professor of History.
 A.B., York College, 1931; A.M., University of Nebraska, 1933; Ph.D., University of Chicago, 1942.
- ROBERT JASTROW, Lecturer in Physics.
 A.B., Columbia College, 1944; A.M., Columbia University, 1945; Ph.D., 1948.
- WILLIAM ROBERT JENKINS, Assistant Professor of Plant Pathology. B.S., College of William and Mary, 1950; M.S., University of Virginia, 1952; Ph.D., University of Maryland, 1954.
- EDGAR AUGUSTUS JEROME JOHNSON, Visiting Professor of Economics. B.S., University of Illinois, 1922; A.M., Harvard University, 1924; Ph.D., 1929.
- WARREN R. JOHNSON, Professor of Physical Education. B.A., University of Denver, 1942; M.A., 1946; Ed.D., Boston University, 1950.
- MARY JUHN (Mrs. Richard M. Fraps), Research Professor of Poultry Husbandry. Bacc. es. sc., University of Zurich, 1916; Ph.D., 1923.
- MARK KEENEY, Associate Professor of Dairy Husbandry.

 B.S., Pennsylvania State College, 1942; M.S., Ohio State University, 1947; Ph.D.,
 Pennsylvania State College, 1950.

- EARLE H. KENNARD, Professor of Physics (P. T.).
 - B.A., Pomona College, 1907; B.Sc., Oxford University, 1911; Ph.D., Cornell University, 1913.
- VERNON E. KRAHL, Associate Professor of Anatomy, School of Medicine.

 B.S., University of Pittsburgh, 1939; M.S., 1940; Ph.D., University of Maryland, 1946.
- JOHN C. KRANTZ, JR., Professor of Pharmacology, School of Medicine. B.S., University of Maryland, 1923; M.S., 1924; Ph.D., 1928.
- ROBERT W. KRAUSS, Assistant Professor of Botany.
 - B.A., Oberlin College, 1947; M.S., University of Hawaii, 1949; Ph.D., University of Maryland, 1951.
- AARON D. KRUMBEIN, Assistant Professor of Physics.
 A.B., Brooklyn College, 1941; Ph.D., New York University, 1951.
- ALBIN O. KUHN, Professor of Agronomy and Assistant to the President. B.S., University of Maryland, 1938; M.S., 1939; Ph.D., 1948.
- JOHN J. KURTZ, Professor of Education.

 B.A., University of Wisconsin, 1935; M.A., Northwestern University, 1940; Ph.D.
 University of Chicago, 1949.
- NORMAN C. LAFFER, Associate Professor of Bacteriology.

 B.S., Allegheny College, 1929; M.S., University of Maine, 1932; Ph.D., University of Illinols, 1937.
- GEORGE S. LANGFORD, Professor of Entomology.

 B.S., Clemson College, 1921; M.S., University of Maryland, 1924; Ph.D., Ohio State University, 1929.
- EMORY C. LEFFEL, Assistant Professor of Animal Husbandry. B.S., University of Maryland, 1943; M.S., 1947; Ph.D., 1953.
- PETER P. LEJINS, Professor of Sociology.

 Ph.M., University of Latvia, 1930; LL.M., 1933; Ph.D., University of Chicago, 1938.
- HOYT LEMONS, Lecturer in Geography.

 B.Ed., Southern Illinois University, 1936; M.A., University of Nebraska, 1938; Ph.D., 1941.
- THEODORE F. LEVEQUE, Assistant Professor of Anatomy.

 B.A., University of Denver, 1949; M.S., 1950; Ph.D., University of Colorado, 1954.
- RICHARD LINDENBERG, Lecturer in Anatomy, School of Dentistry.

 Graduation, University of Munich Medical School, 1934; M.D., University of Berlin, 1944.
- CONRAD B. LINK, Professor of Floriculture. B.Sc., Ohio State University, 1933; M.Sc., 1934; Ph.D., 1940.
- ELLIS R. LIPPINCOTT, Professor of Chemistry.

 B.A., Earlham College, 1943; M.S., Johns Hopkins University, 1944; Ph.D., 1947.
- ROBERT A. LITTLEFORD, Associate Professor of Zoology. B.S., University of Maryland, 1933; M.S., 1934; Ph.D., 1938.
- Daniel Archibald Livingstone, Assistant Professor of Zoology. B.S., Dalhousie University, 1948; M.S., 1950; Ph.D., Yale University, 1953.

- RALPH H. Long, Jr., Professor of Mechanical Engineering. B.S.M.E., Tults College, 1943; M.Eng., Yale University, 1948; D.Eng., 1952.
- WILLIAM V. LOVITT, Jr., Assistant Professor of Legal Medicine. School of Medicine. B.S., University of Nebraska, 1941; M.D., University of Colorado, 1944.
- GEOFFREY S. S. LUDFORD, Associate Professor of Mathematics and Institute for Fluid Dynamics and Applied Mathematics.

B.A., Cambridge University, 1948; M.A., 1952; Ph.D., 1952.

- HARRY P. MACK, Assistant Professor of Anatomy, School of Medicine. M.D., University of Maryland, 1948.
- THOMAS M. MAGOON, Assistant Professor of Psychology. B.A., Dartmouth College, 1947; M.A., University of Minnesota, 1951; Ph.D., 1954.
- Donald Maley, Associate Professor of Industrial Education.

 B.S., Pennsylvania State Teachers College, California, 1943; M.S., University of Maryland, 1947; Ph.D., 1949.
- Monroe H. Martin, Professor of Mathematics and Director of Institute for Fluid Dynamics and Applied Mathematics.
 - B.S., Lebanon Valley College, 1928; Ph.D., Johns Hopkins University, 1932.
- LADISLAUS L. MARTON, Lecturer in Physics. Ph.D., University of Zurich, 1924.
- EDWARD A. MASON, Associate Professor of Chemistry. B.S., Virginia Polytechnic Institute, 1947; Ph.D., Massachusetts Institute of Technology, 1950.
- Benjamin H. Massey, Professor of Physical Education. A.B., Erskine College, 1938; M.S., University of Illinois, 1947; Ph.D., 1950.
- JOSEPH F. MATTICK, Associate Professor of Dairy. B.S., Pennsylvania State University, 1942; Ph.D., 1950.
- Felix W. McBryde, Lecturer in Geography. B.A., Tulane University, 1930; Ph.D., University of California, 1940.
- HAROLD S. McConnell, Research Associate Professor of Entomology. B.S., Clemson College, 1916; M.S., University of Maryland, 1931.
- MARION W. McCrea, Professor of Histology and Embryology, School of Dentistry. D.D.S., Ohio State University, 1935; M.S., University of Rochester, 1937.
- ELLIOTT M. McGINNIES, Assistant Professor of Psychology. B.A., University of Buffalo, 1943; M.A., Brown University, 1944; Ph.D., Harvard University, 1948.
- JAMES G. McManaway, Professor of English (P.T.) B.A., University of Virginia, 1919; M.A., 1920; Ph.D., Johns Hopkins University, 1931.
- BRUCE L. MELVIN, Associate Professor of Sociology. B.S., University of Missouri, 1916; M.A., 1917; Ph.D., 1921.
- HORACE S. MERRILL, Professor of History.

 B.E., Wisconsin State Teachers' College, River Falls, 1932; Ph.M., University of Wisconsin, 1933; Ph.D., 1942.

- MADELAINE MERSHON, Professor of Education.

 B.S., Drake University, 1940; M.A., University of Chicago, 1943; Ph.D., 1950.
- Francis M. Miller, Associate Professor of Chemistry, School of Pharmacy.

 B.S., Western Kentucky State College, 1946; Ph.D., Northwestern University, 1949.
- THYRA F. MITCHELL, Professor and Head of Department of Textiles and Clothing.

 B.S., Missourl State Teachers College, Springfield, 1930; M.A., Columbia University, 1939.
- DOROTHY R. MOHR, Professor of Physical Education for Women. S.B., University of Chicago, 1932; A.M., 1933; Ph.D., University of Iowa, 1944.
- Elliott W. Montroll, Research Professor in Institute for Fluid Dynamics and Applied Mathematics.

B.S., University of Pittsburgh, 1937; Ph.D., 1940.

- E. AUBERT MOONEY, JR., Associate Professor of English. A.B., Furman University, 1930; M.A., University of Virginia, 1933; Ph.D., Cornell University, 1937.
- Delbert T. Morgan, Jr., Associate Professor of Botany.
 B.S., Kent State University, 1940; M.A., Columbia University, 1942; Ph.D., 1948.
- HUGH G. MORGAN, Professor of Education and Assistant Director of Institute of Child Study.

B.A., Furman University, 1940; M.A., University of Chicago, 1943; Ph.D., 1946.

- RAYMOND MORGAN, Professor of Physics.

 A.B., Indiana University, 1916; A.M., 1917; Ph.D., University of Pennsylvania, 1922.
- M. MARIE MOUNT, Dean of the College of Home Economics.

 B.A., University of Indiana, 1916; M.A., Columbia University, 1924.
- SAM C. MUNSON, Lecturer in Entomology. B.S., Mississippi State College, 1930; M.S., 1931; Ph.D., University of Maryland, 1952.
- CHARLES D. MURPHY, Professor and Acting Head of Department of English.

 B.A., University of Wisconsin, 1929; M.A., Harvard University, 1930; Ph.D.,

 Cornell University, 1940.
- RAY A. MURRAY, Associate Professor of Agricultural Economics. B.Sc., University of Nebraska, 1934; M.S., Cornell University, 1938; Ph.D., 1949.
- DAVID S. MUZZEY, JR., Associate Professor of Electrical Engineering (P. T.).
 A.B., Harvard University, 1923; M.A., 1924; Ph.D., 1930.
- RALPH D. MYERS, Professor of Physics.

 A.B., Cornell University, 1934; A.M., 1935; Ph.D., 1937.
- CLARENCE A. NEWELL, Professor of Education.

 A.B., Hastings College, 1935; A.M., Columbia University, 1939; Ph.D., 1943.
- IRWIN OPPENHEIM, Lecturer in Physics.
 A.B., Harvard University, 1949.
- RAYMOND C. O'ROURKE.

 B.S., University of Michigan, 1945; M.S., 1947; Ph.D., 1950.

ROBERT H. OSTER, Professor of Physiology, School of Dentistry. B.S., Pennsylvania State University, 1923; M.S., 1926; Ph.D., Harvard Univer-

sity, 1933.

Louis E. Otts, Jr., Professor of Civil Engineering.

B.A., East Texas State Teachers College, 1933; B.S., Agricultural and Mechanical College of Texas, 1946; M.S., 1946.

SIIIH-I PAI, Associate Research Professor in Institute for Fluid Dynamics and Applied Mathematics.

B.Sc., National Central University, China, 1935; M.S., Massachusetts Institute of Technology, 1938; Ph.D., California Institute of Technology, 1940.

- ARTHUR C. PARSONS, Assistant Professor of Foreign Languages.
 A.B., University of Maryland, 1926; M.A., 1928.
- DONALD J. PATTON, Associate Professor of Geography. S.B., Harvard University, 1942; A.M., 1947; Ph.D., 1949.
- LAWRENCE E. PAYNE, Assistant Research Professor in Institute for Fluid Dynamics and Applied Mathematics.

B.S., Iowa State College, 1946; M.S., 1948; Ph.D., 1950.

- MICHAEL J. PELCZAR, JR., Professor of Bacteriology.

 B.S., University of Maryland, 1936; M.S., 1938; Ph.D., University of Iowa, 1941.
- WILLIAM A. PENNINGTON, Professor of Metallurgical Option. B.S., Union University, 1925; Ph.D., Iowa State College, 1933.
- HUGH V. PERKINS, Associate Professor of Education.

 A.B. & Sch. Mus.B., Oberlin College, 1941; A.M., University of Chicago, 1946; Ph.D., 1949.
- RICHARD L. PETRITZ, Lecturer in Physics.

 B.S., Northwestern University, 1944; B.S.E.E., 1946; M.S.E.E., 1947; Ph.D., 1950.
- HUGH B. PICKARD, Associate Professor of Chemistry.
 A.B., Haverford College, 1933; Ph.D., Northwestern University, 1938.
- ELMER PLISCHKE, Professor and Head of Department of Government and Politics. Ph.B., Marquette University, 1937; M.A., American University, 1938; Ph.D., Clark University, 1943; Certificate, Columbia University, Naval School of Military Government, 1944.
- PAUL R. POFFENBERGER, Professor and Acting Head of Department of Agricultural Economics and Marketing.

B.S., University of Maryland, 1935; M.S., 1937; Ph.D., American University, 1953.

- BURTON R. POLLACK, Assistant Professor of Physiology, School of Dentistry. D.D.S., University of Maryland, 1946.
- Augustus J. Prahl, Professor of Foreign Languages.

 M.A., Washington University, 1928; Ph.D., Johns Hopkins University, 1933.
- GORDON W. PRANGE, Professor of History.
 A.B., University of Iowa, 1932; A.M., 1934; Ph.D., 1937.

- ERNEST F. PRATT, Professor of Chemistry.
 - A.B., University of Redlands, 1937; M.S., Oregon State College, 1939; M.A., University of Michigan, 1941; Ph.D., 1942.
- Daniel A. Prescott, Professor of Education and Director of Institute for Child Study.
 - B.S., Tufts College, 1920; Ed.M., Harvard College, 1922; Ed.D., 1923.
- D. VINCENT PROVENZA, Associate Professor of Histology and Embryology. B.S., University of Maryland, 1939; M.S., 1941; Ph.D., 1952.
- W. Arthur Purdum, Professor of Hospital Pharmacy, School of Pharmacy, Ph.G., University of Maryland, 1930; B.S., 1932; M.S., 1934; Ph.D., 1941.
- J. FREEMAN PYLE, Dean of the College of Business and Public Administration. Ph.B., University of Chicago, 1917; M.A., 1918; Ph.D., 1925.
- WILLIAM R. QUYNN, Associate Professor of Foreign Languages.

 B.A., University of Virginia, 1922; M.A., 1923; Ph.D., Johns Hopkins University, 1934.
- GORDON M. RAMM, Assistant Professor of Zoology.

 B.A., University of Buffalo, 1949; M.A., 1950; Ph.D., New York University, 1954.
- MARGUERITE C. RAND, Assistant Professor of Foreign Languages.

 B.A., Pomona College, 1919; M.A., Stanford University, 1921; Ph.D., University of Chicago, 1951.
- ROBERT D. RAPPLEYE, Assistant Professor of Botany. B.S., University of Maryland, 1941; M.S., 1947; Ph.D., 1949.
- HENRY R. REED, Professor of Electrical Engineering, Registered Professional Engineer.
 - B.S., University of Minnesota, 1925; M.S., 1927; E.E., South Dakota State College, 1930; Ph.D., University of Iowa, 1941.
- WILKINS REEVE, Professor of Chemistry.

 B.S., Drexel Institute of Technology, 1936; Ph.D., University of Wisconsin, 1940.
- EDWIN L. RESLER, JR., Associate Research Professor in Institute for Fluid Dynamics and Applied Mathematics.
 - B.S., University of Notre Dame, 1947; Ph.D., Cornell University, 1951.
- CHARLES W. REYNOLDS, Assistant Professor of Vegetable Crops.
 A.B., University of Alabama, 1941; B.S., Alabama Polytechnic Institute, 1947;
 M.S., 1949; Ph.D., University of Maryland, 1954.
- A. W. RICHESON, Professor of Mathematics, School of Pharmacy. B.S., University of Richmond, 1918; A.M., Johns Hopkins University, 1925; Ph.D., 1928.
- ROBERT M. RIVELLO, Associate Professor of Aeronautical Engineering. B.S., University of Maryland, 1943; M.S., 1948.
- JOHN M. ROBINSON, Assistant Professor of Philosophy. A.B., Middlebury College, 1945; Ph.D., Cornell University, 1949.
- CARL L. ROLLINSON, Professor of Chemistry.
 B.S., University of Michigan, 1933; Ph.D., University of Illinois, 1939.

- George L. Romoser, Assistant Professor of Poultry Nutrition. B.S., University of Maryland, 1950; M.S., 1951; Ph.D., 1953.
- THOMAS S. RONNINGEN, Associate Professor of Agronomy.

 B.S., Wisconsin State Teachers College, River Falls, 1939; M.S., University of Wisconsin, 1947; Ph.D., 1949.
- LEONORA C. ROSENFIELD, Assistant Professor of Foreign Languages. B.A., Smith College, 1930; A.M., Columbia University, 1931; Ph.D., 1940.
- SHERMAN Ross, Associate Professor of Psychology.

 B.Sc., College of the City of New York, 1939; M.A., Columbia University, 1941; Ph.D., 1943.
- Victor Roterus, Consulting Professor of Geography (P. T.). Ph.B., University of Chicago, 1930; M.S., 1931.
- NORMAN R. ROTH, Assistant Professor of Sociology. B.A., Hobart College, 1942; M.A., University of Rochester, 1949; M.A., Columbia University, 1950; Ph.D., 1950.
- Russell G. Rothgeb, Professor of Agronomy.

 B.S., University of Maryland, 1924; M.S., Iowa State College, 1925; Ph.D., University of Maryland, 1928.
- Albert W. Saenz, Lecturer in Physics in Training Program at Naval Research Laboratory.

 B.S., University of Michigan, 1944; M.A., 1945; Ph.D., 1949.
- RECCE I. SAILER, Lecturer in Entomology. B.A., University of Kansas, 1938; Ph.D., 1942.
- CLIFFORD LEROY SAYRE, JR., Assistant Professor of Mechanical Engineering. B.S.M.E., Duke University, 1947; M.S., Stevens Institute of Technology, 1950.
- Homer W. Schamp, Jr., Associate Professor in Institute of Molecular Physics. A.B., Miami University, 1944; M.Sc., University of Michigan, 1947; Ph.D., 1951.
- ALVIN W. SCHINDLER, Professor of Education.
 B.A., Iowa State Teachers' College, 1927; M.A., Iowa State University, 1929; Ph.D., 1934.
- WALTER E. SCHLARETZKI, Assistant Professor of Philosophy.

 A.B., Monmouth College, 1941; A.M., University of Illinois, 1942; Ph.D., Cornell University, 1948.
- EMIL G. SCHMIDT, Professor and Chairman of Department of Biological Chemistry, School of Medicine.
 - B.S., University of Wisconsin, 1921; M.S., 1923; Ph.D., 1924.
- FERN D. SCHNEIDER, Associate Professor of Education.

 B.S., Nebraska Wesleyan University, 1932; M.A., George Washington University, 1934; Ed.D., Columbia University, 1940.
- WILBURN C. Schroeder, Professor of Chemical Engineering. B.S., University of Michigan, 1930; M.S.E., 1931; Ph.D., 1933.
- LELAND E. Scott, Professor of Horticultural Physiology.

 B.S., University of Kentucky, 1927; M.S., Michigan State College, 1929; Ph.D.,
 University of Maryland, 1943.

- CLYNE S. SHAFFNER, Professor and Head of Department of Poultry Husbandry. B.S., Michigan State College, 1938; M.S., 1940; Ph.D., Purdue University, 1947.
- James B. Shanks, Associate Professor of Horticulture. B.Sc., Ohio State University, 1939; M.Sc., 1946; Ph.D., 1949.
- PAUL W. SHANKWEILER, Associate Professor of Sociology.

 Ph.B., Muhlenberg College, 1919; M.A., Columbia University, 1921; Diploma, Union Theological Seminary, 1922; Ph.D., University of North Carolina, 1934.
- MAURICE M. SHAPIRO, Lecturer in Physics.

 B.S., University of Chicago, 1936; M.S., 1940; Ph.D., 1942.
- JOSEPH C. SHAW, Professor of Dairy.

 B.S., Iowa State College, 1932; M.S., Montana State College, 1933; Ph.D., University of Minnesota, 1938.
- Donald E. Shay, Professor and Head of Department of Bacteriology and Immunology, School of Dentistry, School of Pharmacy.

 B.S., Lebanon Valley College, 1937; M.S., University of Maryland, 1938; Ph.D., 1943.
- SHAN-FU SHEN, Associate Professor of Aeronautical Engineering.

 B.S. National Central University, China, 1941; Sc.D., Massachusetts Institute of Technology, 1949.
- HAROLD H. SHEPARD, Lecturer in Entomology.

 B.S., Massachusetts Agricultural College, 1924; M.S., University of Maryland, 1927; Ph.D., Massachusetts State College, 1931.
- A. WILEY SHERWOOD, Professor of Aerodynamics. M.E., Rensselaer Polytechnic Institute, 1935; M.S., University of Maryland, 1943.
- E. RODERICK SHIPLEY, Assistant Professor of Physiology, School of Dentistry.

 A.B., Johns Hopkins University, 1938; M.D., University of Maryland, 1942; Certificate, University of Pennsylvania, 1947; Diplomate, American Board of Surgery, 1948.
- MARY S. SHORB, Research Professor of Poultry Husbandry. B.S., The College of Idaho, 1928; Sc.D., Johns Hopkins University, 1933.
- CHARLES A. SHREEVE, Jr., Professor of Mechanical Engineering.

 B.E., Johns Hopkins University, 1935; M.S., University of Maryland, 1943.
- STANLEY C. SHULL, Associate Professor of Agricultural Economics and Marketing. B.A., Bridgewater College, 1941; M.A., University of Virginia, 1943; Ph.D., Cornell University, 1951.
- R. EDWIN SHUTTS, Lecturer in Audiology and Speech Pathology.

 A.B., Indiana State Teachers' College, 1933; M.A., Northwestern University, 1947; Ph.D., 1950.
- S. F. SINGER, Associate Professor of Physics. B.EE., Ohio State University, 1943; A.M., Princeton University, 1944; Ph.D., 1948.
- Hugh D. Sisler, Assistant Professor of Botany.
 B.S., University of Maryland, 1949; M.S., 1951; Ph.D., 1953.

- FRANK J. SLAMA, Professor of Pharmacognosy, School of Pharmacy.
 Ph.G., University of Maryland, 1924; Ph.C., 1925; B.S., 1928; M.S., 1930; Ph.D., 1935.
- MILTON M. SLAWSKY, Lecturer in Physics.
 B.S., Rensselaer Polytechnic Institute, 1933; M.S., California Institute of Technology, 1935; Ph.D., University of Michigan, 1938.
- ZAKA I. SLAWSKY, Research Professor in Institute of Molecular Physics. B.S., Rensselaer Polytechnic Institute, 1933; M.S., California Institute of Technology, 1935; Ph.D., University of Michigan, 1938.
- J. SAMUEL SMART, Lecturer in Physics.
 B.A., Westminster College, 1939; M.S., Louisiana State University, 1941; Ph.D., University of Minnesota, 1948.
- Andrew G. Smith, Assistant Professor of Medical Microbiology, School of Medicine.
 - B.S., Pennsylvania State University, 1940; M.S., University of Pennsylvania, 1947; Ph.D., 1950.
- DIETRICH C. SMITH, Professor of Physiology and Associate Dean of the School of Medicine.
 - A.B., University of Minnesota, 1923; A.M., 1924; Ph.D., Harvard University, 1928.
- HAROLD D. SMITH, Assistant Professor of Agricultural Economics and Marketing. B.A., Bridgewater College, 1943; M.S., University of Maryland, 1947; Ph.D., American University, 1952.
- LEON P. SMITH, Dean of the College of Arts and Sciences.

 B.A., Emory University, 1919; M.A., University of Chicago, 1928; Ph.D., 1930;
 Diplome de l'Institut de Touralne, 1932.
- BENJAMIN L. SNAVELY, Lecturer in Physics.

 B.S., Lehigh University, 1928; Ph.D., Princeton University, 1935.
- MERRILL J. SNYDER, Assistant Professor of Medicine in Clinical Microbiology and Instructor in Microbiology, School of Medicine.

B.S., University of Pittsburgh, 1940; M.S., University of Maryland, 1950; Ph.D., 1953.

- DAVID S. SPARKS, Assistant Professor of History.

 A.B., Grinnell College, 1944; A.M., University of Chicago, 1945; Ph.D., 1951.
- Guilford L. Spencer, II, Assistant Professor of Mathematics. B.A., Williams College, 1943; M.S., Massachusetts Institute of Technology, 1948; Ph.D., University of Michigan, 1953.
- MABEL S. SPENCER, Assistant Professor of Home Economics Education. B.S., University of West Virginia, 1925; M.S., 1946.
- FRANCIS C. STARK, JR., Professor of Vegetable Crops.
 B.S., Okiahoma Agricultural and Mechanical College, 1940; M.S., University of Maryland, 1941; Ph.D., 1948.
- MARTIN C. STEELE, Lecturer in Physics.

 B.Ch.E., Cooper Union, 1940; M.S., University of Maryland, 1949; Ph.D., 1952.
- EDWARD STEERS, Associate Professor of Microbiology, School of Medicine. B.S., Moravian College, 1932; M.S., Lehlgh University, 1937; Ph.D., University of Pennsylvania, 1949.

S. S. Steinberg, Dean of the College of Engineering and Chairman of Department of Civil Engineering.

B.E., Cooper Union, 1910; C.E., 1913.

REUBEN G. STEINMEYER, Professor of Government and Politics. A.B., American University, 1929; Ph.D., 1935.

WILLIAM S. STONE, Dean of the School of Medicine and Director of Medical Education and Research.

B.S., University of Idaho, 1924; M.S., 1925; M.D., University of Louisville, 1929; Ph.D., (hon.), 1946.

- WARREN L. STRAUSBAUGH, Associate Professor and Head of Department of Speech. B.S., Wooster College, 1932; M.A., State University of Iowa, 1935.
- ORMAN E. STREET, Professor of Agronomy.

 B.S., South Dakota State College, 1924; M.S., Michigan State College, 1927; Ph.D., 1933.
- EDWARD STRICKLING, Assistant Professor of Agronomy. B.S., Ohio State University, 1937; Ph.D., 1949.
- CALVIN F. STUNTZ, Associate Professor of Chemistry. B.A., University of Buffalo, 1939; Ph.D., 1947.
- WILLIAM H. SUMMERSON, Lecturer in Biochemistry, School of Medicine. B.Chem., Cornell University, 1927; M.A., 1928; Ph.D., 1937.
- WILLIAM J. SVIRBELY, Professor of Chemistry.

 B.S., Carnegie Institute of Technology, 1931; M.S., 1932; D.Sci., 1935.
- CHARLES T. SWEENEY, Professor of Accounting.

 B.S., Cornell University, 1921; M.B.A., University of Michigan, 1928; C.P.A.,
 Iowa, 1934; C.P.A., Ohio, 1936.
- Benjamin H. Sweet, Assistant Professor of Microbiology. B.S., Tulane University, 1946; M.A., Boston University, 1949; Ph.D., 1953.
- HAROLD F. SYLVESTER, Professor of Business Organization. Ph.D., Johns Hopkins University, 1938.
- VICTOR G. SZEBEHELY, Lecturer in Physics.
 B.S., University of Budapest, 1943; Dr. Eng., 1946.
- CHARLES A. TAFF, Associate Professor of Transportation. B.S.S., University of Iowa, 1937; M.A., 1941; Ph.D., University of Maryland, 1952.
- ARTHUR H. THOMPSON, Professor of Pomology.

 B.S., University of Minnesota, 1941; Ph.D., University of Maryland, 1945.
- JOHN TOLL, Professor and Head of Department of Physics. B.S., Yale University, 1944; M.A., Princeton University, 1948; Ph.D., 1952.
- RICHARD H. TREDGOLD, Research Associate in Physics. B.Sc., University of Nottingham, 1951; Ph.D., 1954.
- HORACE M. TRENT, Lecturer in Electrical Engineering and Head of Applied Mathematics Branch of Naval Research Laboratory.

 B.A., Berea College, 1928; M.A., Indiana University, 1929; Ph.D., 1934.

- EDWARD B. TRUITT, JR., Associate Professor of Pharmacology. B.S., Medical College of Virginia, 1943; Ph.D., University of Maryland, 1950.
- EDUARD UILLENHUTH, Professor and Head of Department of Anatomy, School of Medicine.

Ph.D., University of Vienna, 1909.

- E. G. Vanden Bosche, Professor of Biochemistry, School of Dentistry. A.B., Lebanon Valley College, 1922; M.S., University of Maryland, 1924; Ph.D., 1927.
- RAYMOND E. VANDERLINDE, Associate Professor of Biological Chemistry, School of Medicine.
 - A.B., Syracuse University, 1944; M.S., 1945; M.S., 1947; Ph.D., 1950.
- JOHN L. VANDERSLICE, Lecturer in Electrical Engineering. B.S., University of Pennsylvania, 1928; A.M., 1930; Ph.D., Princeton University, 1934.
- WILLIAM VAN ROYEN, Professor and Head of Department of Geography. M.A., Rijksuniversiteit te Utrecht, 1925; Ph.D., Clark University, 1928.
- JAMES A. VAN ZWOLL, Professor of Education.
 A.B., Calvin College, 1933; M.A., University of Michigan, 1937; Ph.D., 1942.
- FLETCHER P. VEITCH, Professor of Chemistry.

 B.S., University of Maryland, 1931; M.S., 1934; Ph.D., 1936.
- WILLIAM M. VISSCHER, Research Associate in Physics. B.A., University of Minnesota, 1949; Ph.D., Cornell University, 1953.
- WALTER W. WADA, Lecturer in Physics.
 B.A., University of Utah, 1943; M.A., University of Michigan, 1946; Ph.D., 1951.
- Walter B. Waetjen, Associate Professor of Education.

 B.S., Pennsylvania State Teachers College, Millersville, 1942; M.S., University of Pennsylvania, 1947; Ed.D., University of Maryland, 1951.
- T. C. GORDON WAGNER, Associate Professor of Electrical Engineering. B.S., Harvard University, 1937; M.A., University of Maryland, 1940; Ph.D., 1943.
- WILLIAM P. WALKER, Professor of Agricultural Economics. B.S., University of Maryland, 1921; M.S., 1925.
- ROALD K. WANGNESS, Professor of Physics (P.T.). B.A., University of Minnesota, 1944; Ph.D., Stanford University, 1950.
- JAMES D. WATSON, Professor of Finance.
 B.A., Reed College, 1926; M.B.A., University of Michigan, 1931; Ph.D., Northwestern University, 1941; C.L.U., American College of Life Underwriters, 1941.
- JOSEPH WEBER, Professor of Electrical Engineering. B.S., U.S. Naval Academy, 1940; Ph.D., Catholic University, 1951.
- Kurt Weber, Associate Professor of English.
 A.B., Williams College, 1930; B.A., Oxford University, 1932; M.A., Columbia University, 1933; Ph.D., 1940.
- Presley A. Wedding, Associate Professor of Civil Engineering. B.S., University of Maryland, 1937; M.S., 1952.

HANS F. WEINBERGER, Assistant Research Professor in Institute for Fluid Dynamics and Applied Mathematics.

BS., Carnegie Institute of Technology, 1948; M.S., 1948; Sc.D., 1950.

ALEXANDER WEINSTEIN, Research Professor in Institute for Fluid Dynamics and Applied Mathematics.

Ph.D., University of Zurich, 1921; D.Sc.Math., University of Paris, 1937.

S. M. Wedeberg, Professor of Accounting. B.B.A., University of Washington, 1925; A.M., Yale University, 1935; C.P.A., Maryland, 1934.

G. W. WHARTON, Professor and Head of Department of Zoology. B.S., Duke University, 1935; Ph.D., 1939.

CLAYTON E. WHIPPLE, Consulting Professor in Geography.

B.S., New York State Agricultural College, 1925; M.S.Ed., 1925.

CHARLES E. WHITE, Professor of Chemistry.

B.S., University of Maryland, 1923; M.S., 1924; Ph.D., 1926.

JOHN I. WHITE, Assistant Professor of Physiology, School of Medicine. B.A., University of Illinois, 1939; Ph.D., Rutgers University, 1950.

GLADYS A. WIGGIN, Professor of Education.

B.S., University of Minnesota, 1929; M.A., 1939; Ph.D., University of Maryland, 1947.

JUNE C. WILBER, Assistant Professor of Textiles and Clothing. B.S., University of Washington, 1936; Educ., 1937; M.S., Syracuse University, 1940.

Frank Herbert Wilcox, Jr., Assistant Professor of Poultry Husbandry. B.S., University of Connecticut, 1951; M.S., Cornell University, 1953; Ph.D., 1955.

ROBERT C. WILEY, Assistant Professor of Horticulture.

B.S., University of Maryland, 1949; M.S., 1950; Ph.D., Oregon State College, 1953.

J. HENRY WILLS, Lecturer in Physiology, School of Medicine.
B.S., Virginia Polytechnic Institute, 1934; M.S., Medical College of Virginia, 1936; Ph.D., University of Rochester, 1941.

Francis Charles Wingert, Assistant Professor of Animal Husbandry. B. of Sci., University of Minnesota, 1947; Ph.D., 1955.

HOWARD E. WINN, Assistant Professor of Zoology.

A.B., Bowdoin College, 1948; M.S., University of Michigan, 1950; Ph.D., 1955.

CHARLES L. WISSEMAN, JR., Professor and Head of Department of Microbiology, School of Medicine.

B.A., Southern Methodist University, 1941; M.S., Kansas State College, 1943; M.D., Southwestern Medical College, 1946.

G. Forrest Woods, Professor of Chemistry. B.S., Northwestern University, 1935; M.S., Harvard University, 1937; Ph.D., 1940.

H. Boyd Wylle, Dean of the School of Medicine.
M.D., Baltimore Medical College, 1912.

DAVID M. YOUNG, Jr., Associate Professor of Mathematics.

B.S., Webb Institute, 1944; M.A., Harvard University, 1947; Ph.D., 1950.

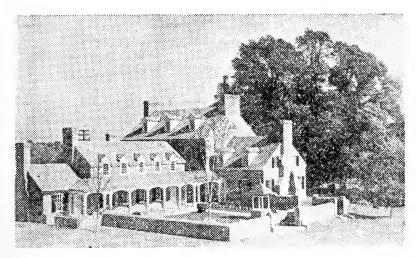

JOHN E. YOUNGER, Professor and Chairman of Department of Mechanical Engineering.

B.S., University of California, 1923; M.S., 1924; Ph.D., 1925.

W. GORDON ZEEVELD, Professor of English.

A.B., University of Rochester, 1924; M.A., Johns Hopkins University, 1929; Ph.D., 1936.

ADOLPH E. ZUCKER, Professor and Head of Department of Foreign Languages. B.A., University of Illinois, 1912; M.A., 1915; Ph.D., University of Pennsylvania, 1917.

ROSSBOROUGH INN
The Oldest Building on the Campus. It was erected in 1798.

GRADUATE SCHOOL

RONALD BAMFORD, Ph.D., Dean
LUCY A. LYNHAM, B.A., Secretary to the Dean

HISTORY AND ORGANIZATION

HE Graduate School was established in its present form in 1918 under the jurisdiction of the Graduate Council with the Dean of the Graduate School serving as chairman. It was created for the purpose of administering and developing programs of advanced study and research for graduate students in all branches of the university. Prior to the present organization some advanced degrees were awarded but they were under the jurisdiction of the individual departments subject to the supervision of the general faculty. Despite the large expansion of the graduate programs into new areas as the university has grown, the spirit and basis of each program is essentially that of individual study under competent supervision. The Graduate School is not an extension of the undergraduate program but was created rather for the preparation of those who in the future will carry on the spirit of individual inquiry. Thus it promotes and provides an atmosphere of research and scholarship for both the students and the faculty; in particular, it stimulates that harmonious relationship between the two which results in the advancement of learning. At the present time over fifty departments are authorized to offer graduate programs leading to one or more of the advanced degrees awarded by the university.

The Graduate Council is made up of representatives of all branches of the university where active graduate programs are in progress. The members are appointed by the President of the University and are charged with the formulation of overall policies. The Graduate Council meets regularly in March, June and November to consider all matters relating to graduate work brought to its attention by the University Administration, the Graduate Faculty and the Dean of the Graduate School. It may also be called for special meetings throughout the year if urgent business must be transacted.

The Graduate Faculty is chosen in accordance with the regulations adopted on September 27, 1954. These allow three types of membership: (1) Ex-officio, (2) regular, and (3) temporary. The first two groups are listed in the front of this catalog. The direction of individual programs and theses is primarily assigned to regular members of the Graduate Faculty.

LOCATION

The office of the Graduate School is located on the second floor of the Education Building on the College Park campus. This campus is located in Prince Georges County on a large tract of rolling wooded land less than eight miles from Washington, D. C. and approximately thirty-two miles from Baltimore. It is served by excellent transportation regardless of whether private car, street car, railroad or bus is used.

The Baltimore campus of the university is located at the corner of Lombard and Greene Streets, and on this campus the various departments in the Schools of Medicine, Dentistry and Pharmacy offer their graduate programs.

LIBRARIES

The libraries of the university are located on both the College Park and Baltimore campuses. They consist of the General Library, the Library Annex and the many college and departmental libraries which house special collections. Because of the location of the university the large libraries of Baltimore and Washington are a valuable asset to graduate work. Arrangements can be made for personal work in the Enoch Pratt Library of Baltimore, the Library of Congress, the United States Department of Agriculture Library and the many fine collections of other government agencies in Washington.

MISCELLANEOUS INFORMATION

For information in reference to the University grounds, buildings, equipment, transcripts of records, off-campus housing, meals, athletics and recreation, religious denominational clubs, fraternities, sororities, societies and special clubs, student publications, University supply store, write to the Director of Publications for the General Information Issue of the Catalog.

GENERAL REGULATIONS ADMISSION

An applicant for admission to the Graduate School must hold a Bachelor's or a Master's degree from a college or university of recognized standing. The applicant shall furnish an official transcript of his collegiate record which for unconditional admission must show creditable completion of an adequate amount of undergraduate preparation of high quality for graduate work in his chosen field. Application for admission to the Graduate School should be made prior to dates of registration on blanks obtained from the office of the Dean.

After approval of the application a matriculation card, signed by the Dean, is issued to the student. This card permits him to register in the Graduate School. It is his certificate of membership in the Graduate School and should be retained by the student to present at each succeeding registration.

Admission to the Graduate School does not necessarily imply admission to candidacy for an advanced degree.

REGISTRATION

All students pursuing graduate work in the University, even though they are not candidates for higher degrees, are required to register in the Graduate School at the beginning of each session. In no case will graduate credit be given unless the student matriculates and registers in the Graduate School. This applies especially to those students who register through the College of Special and Continuation Studies at locations away from the campus.

The program of work for each session is arranged by the student with the major department and entered upon two course cards, which are signed first by the professor in charge of the student's major subject and then by the Dean of the Graduate School. One card is retained by the Dean. The student takes the other

card, and in case of a new student, also the matriculation card, to the Registrar's office, where the registration is completed. Students will not be admitted to graduate courses until the Registrar has certified to the instructor that registration has been completed. Course cards may be obtained at the Registrar's office or at the Dean's office. The heads of departments usually keep a supply of these cards in their respective offices.

A time schedule, supplementing this catalog, is issued shortly before the beginning of each semester, showing the hours and location of class meetings. This schedule is available at the office of the Registrar.

GRADUATE COURSES

Graduate students must elect for credit in partial fulfillment of the requirements for higher degrees only courses designated For Graduates or For Graduates and Advanced Graduates. Students who are inadequately prepared for graduate work in their chosen fields or who lack prerequisites for minor courses may elect a limited number of courses numbered from 1 to 99 in the general catalogue, but graduate credit will not be allowed for these courses. Courses that are audited are registered for in the same way as other courses, and the fees are the same.

PROGRAM OF WORK

The professor who is selected to direct a student's thesis work is the student's adviser in the formulation of a graduate program, including suitable minor work, which is arranged in cooperation with the instructors. To encourage thoroughness in scholarship through intensive application, graduate students in the regular sessions are limited to a program of fifteen credit hours per semester. If a student is preparing a theses during the minimum residence for the master's degree, the registration in graduate courses should not exceed twelve hours for the semester since registration in research is required.

SUMMER SESSION

The University conducts a six-weeks summer session at College Park, with a comprehensive undergraduate and graduate program. The University publishes a separate bulletin giving full information on this summer session. This bulletin is available upon application to the Director of the Summer Session, University of Maryland, College Park.

GRADUATE WORK IN PROFESSIONAL SCHOOLS AT BALTIMORE

Graduate courses and opportunities for research are offered in the professional schools at Baltimore. Students pursuing graduate work in the professional schools must register in the Graduate School, and meet the same requirements and proceed in the same way, as do graduate students in other departments of the University.

OAK RIDGE INSTITUTE

The University is one of the sponsoring institutions of the Oak Ridge Institute of Nuclear Studies located at Oak Ridge, Tennessee. One of the features of this affiliation is the opportunity, in the appropriate fields, for graduate students to do

their research problems and prepare their theses under a cooperative arrangement. Such opportunity is limited to those who have completed their course work on the campus, are working in a field where facilities are available, and generally are candidates for the doctoral degree. Successful applicants will receive Oak Ridge Graduate Fellowships with varying stipends depending upon their marital status and dependents. Detailed information is available in the Graduate School office.

GRADUATE WORK BY SENIORS IN THIS UNIVERSITY

A senior of this University who has nearly completed the requirements for the graduate degree may, with the approval of his undergraduate dean, the Head of the department concerned, and the Dean of the Graduate School, register in the undergraduate college for graduate courses, which may later be transferred for graduate credit toward an advanced degree at this University, but the student must be within seven credit hours of completing his undergraduate work and the total of undergraduate and graduate courses must not exceed fifteen credits for the semester. Excess credits in the senior year cannot later be used for graduate credit unless such pre-arrangement is made. Seniors who wish to register for graduate credit should apply to the Dean of the Graduate School for information about procedure.

ADMISSION TO CANDIDACY FOR ADVANCED DEGREES

Application for admission to candidacy for the Master's and for the Doctor's degree is made on application blanks which are obtained at the office of the Dean of the Graduate School. These are filled out in duplicate by the student and submitted to his major department for further action and transmission to the Dean of the Graduate School. All applications for admission to candidacy must be approved by the Graduate Council.

Admission to candidacy in no case assures the student of a degree, but merely signifies he has met all the formal requirements and is considered by his instructors sufficiently prepared and able to pursue such graduate study and research as are demanded by the requirements of the degree sought. The candidate must show superior scholarship in graduate work already completed.

Application for admission to candidacy is made at the time stated in the sections dealing with the requirements for the degree sought.

REQUIREMENTS FOR THE DEGREES OF MASTER OF ARTS AND MASTER OF SCIENCE

Advancement to Candidacy. Each prospective candidate for the Master's degree is required to make application for admission to candidacy not later than the date on the calendar for the semester in which the degree is sought. (See Graduate School Supplement to the General Calendar in the front of this Catalog.) He must have completed at least twelve semester hours of graduate work at the University of Maryland. An average grade of "B" in all major and minor subjects is the minimum requirement.

Minimum Residence. A residence of at least two semesters, or equivalent, at this institution, is required.

Course Requirements. A minimum of twenty-four semester hours, exclusive of thesis and registration for research, with a minimum average grade of "B" in courses approved for graduate credit, is required for the degrees of Master of Arts and Master of Science. The student is also required to register for six semester hours for research and thesis work. The total number of credit hours required for the degree is thirty. If the student is inadequately prepared for the required graduate courses, either in the major or minor subjects, additional courses may be required to supplement the undergraduate work. the twenty-four hours required in graduate courses, not less than twelve hours and not more than sixteen semester hours must be earned in the major sub-The remaining credits must be outside the major subject and must comprise a group of coherent courses intended to supplement and support the major work. Not less than one-half of the total required course credits for the degree, or a minimum of twelve, must be selected from courses numbered 200 or above. No credit for the degree of Master of Arts or Master of Science may be obtained for correspondence courses or those taken by examination. The entire course of study must constitute a unified program approved by the student's major adviser and by the Dean of the Graduate School. All requirements for the degree must be completed within an eight-year period.

Transfer of Credit. Credit not to exceed six semester hours, obtained at other recognized institutions, may be transferred and applied to the course requirements of the Master's degree, provided that the work was of graduate character, and provided that it is approved for inclusion in the student's graduate program at the University of Maryland. This transfer of credit is submitted to the Graduate Council for approval when the student applies for admission to candidacy for the degree. Acceptance of the transferred credits does not reduce the minimum residence requirement. The candidate is subject to final examination by this institution in all work offered for the degree.

Thesis. In addition to the twenty-four semester hours in graduate courses, a satisfactory thesis is required of all candidates for the degrees of Master of Arts and Master of Science. (Exceptions may be made in the cases of candidates for the degree of Master of Arts in American Civilization. See page 673.) The thesis must demonstrate the student's ability to do independent work and it must be acceptable in literary style and composition. With the approval of the student's major professor and the Dean of the Graduate School, the thesis in certain cases may be prepared in absentia under direction and supervision of a member of the faculty of this institution.

The original copy of the thesis must be deposited in the office of the Graduate School not later than the date specified in the calendar in the front of this catalog. The date published is the deadline for the acceptance of theses but they may be deposited earlier. The thesis should not be bound by the student, as the University later binds all theses uniformly. An abstract of the contents of the thesis, 200 to 500 words in length, must accompany it. A manual giving full directions for the physical make-up of the thesis is in the hands of each professor who directs thesis work, and should be consulted by the student before the typing of the manuscript is begun. Individual copies of this manual may be obtained by the student from the Student's Supply Store at nominal cost.

Final Examination. The final oral examination is conducted by a committee appointed by the Dean of the Graduate School. The student's adviser acts as the chairman of the committee. The other members of the committee are persons under whom the student has taken most of his major and minor courses. The chairman and the candidate are notified of the personnel of the examining committee at least one week prior to the period set for oral examinations unless an emergency arises. The chairman of the committee selects the exact time and place for the examination and notifies the other members of the committee and the candidate. The examination is normally conducted at the end of the semester, but upon recommendation of the student's adviser, an examining committee may be appointed by the Dean of the Graduate School at any time when all other requirements for the degree have been completed. A report of the committee is sent to the Dean as soon as possible after the examination. A special form for this purpose is supplied to the chairman of the committee and the approval must be unanimous. Such report is the basis upon whic's recommendation is made to the faculty that the candidate be granted the degree sought. The period for the oral examination is usually about one hour, but the time should be long enough to insure an adequate examination.

The examining committee also approves the thesis, and it is the candidate's obligation to see that each member of the committee has ample opportunity to examine a copy of the thesis prior to the date of the examination.

A student will not be admitted to final examination until all other requirements for the degree have been met. In addition to the oral examination a comprehensive written examination may be required at the option of the major department.

REQUIREMENTS FOR THE DEGREES IN AMERICAN CIVILIZATION

Studies in the American Civilization program are intended to prepare the candidate for teaching and research in American culture. The program is particularly designed for the teacher or student whose intellectual interest is not limited to a single academic department. For instance, the historian who likes literature, the literary critic who wishes to study the social background of literature, the political scientist who wishes to know more about the history of this country, and the sociologist who wants to study the roots of sociology in America, all may find the American Civilization program the proper one for them. The four cooperating departments of English, History, Government and Politics, and Sociology offer the basic work in the program, and the student will stress the work of one of those departments when he determines his course of graduate studies. All students, however, will be expected to understand the development of American institutions and to show some proficiency in the literary, social, economic, and political history of the United States.

The study of American Civilization brings in many different fields, so a student has an unusually wide opportunity to plan a program suited to his individual needs. To help him do this, a committee representing the departments whose American fields he intends to study is set up shortly after he registers. The chairman of the committee is from the department of the student's greatest interest and acts as his adviser. The committee also prepares

and reads the student's comprehensive examination and reads the thesis if one is submitted.

The candidate for a degree must pass a final written examination testing his understanding of American Civilization in terms of his individual program of studies.

Master of Arts. With the approval of his advisers and committee, a candidate for the Master of Arts degree with a major in American Civilization may elect in lieu of the thesis six additional hours of course work, to include at least two substantial seminar papers. The total number of credit hours required for the degree would then be thirty semester hours.

Each candidate must present credits for at least fifteen semester hours of work in two of the four cooperating departments, and credits for at least fifteen semester hours in supporting courses (nine hours if a thesis is elected). Supporting courses will normally be in such fields as European or Latin-American history, English literature, comparative literature, philosophy, art, education, sociology, economics, and government and politics.

Each candidate must demonstrate in a written examination that he posesses a reading knowledge of one foreign language.

All other requirements are the same as for the degrees of Master of Arts and Master of Science in other fields.

Doctor of Philosophy. The American Civilization program cuts across several fields; therefore, a faculty committee representing the departments in which the student plans to study will be appointed shortly after the student registers. The chairman of the committee is from the department of the student's major interest and acts as his adviser. The committee is responsible for helping the student to integrate his program. Working through the student's adviser, the committee aids in planning the student's over-all program, prepares and grades any comprehensive examinations, and reads the dissertation.

The general requirements for the degree of Doctor of Philosophy in American Civilization are the same as those for the doctoral degree in other fields.

REQUIREMENTS FOR THE DEGREE OF MASTER OF EDUCATION

The Master of Education degree is designed to increase competency in applied areas within the general field of education. Thirty semester hours of course work are required. Of the thirty hours, one-half must be in courses numbered 200 and above, and one-half must be in Education. Subject to the foregoing limitations, courses in departments other than Education may be selected by the student and his adviser.

At least four of the thirty semester hours must be in seminar work or other 200 courses in connection with which two seminar papers will be prepared in prescribed form. Only those seminar papers which have the written approval of the instructor in charge of the course and the student's adviser are considered as meeting degree requirements. Seminar papers are filed in the College of Education office. One of these papers shall deal with a topic in the student's major field of concentration. The other paper may be written in a 200 course outside of the field of Education.

The requirements in regard to advancement to candidacy, transfer of credits,

and final oral examination are the same as for the degrees of Master of Arts and Master of Science.

REQUIREMENTS FOR THE DEGREE OF MASTER OF BUSINESS ADMINISTRATION

The Master of Business Administration program is designed primarily to train students for positions of responsibility in business and government. The aim is to develop technical competence plus a thorough knowledge and appreciation of the art of management. The study of administrative policies and practices encourages interest and realistic thinking in management problems and responsibilities.

The program leading to the degree of Master of Business Administration includes advanced study of business organization and administration in the fields of accounting and statistics, finance, general business, industrial management, insurance and real estate, marketing, personnel relations, public utilities and transportation.

Admission. Admission to the Master of Business Administration program is limited to those students whose undergraduate records from accredited institutions demonstrate special abilities and promise of further development. Undergraduate records, participation in student activities, and business experience are carefully evaluated. Personal interviews are desirable.

Those students whose major undergraduate work has been in arts, agriculture, science, education, or engineering subjects are required to complete certain basic core course requirements in business and economics before undertaking specialized graduate work for the degree of Master of Business Administration. The core course requirements are listed below. Responsible experience of exceptional value and importance may be substituted for specific courses.

Principles of Economics6 hours	Marketing Management 3 hours
Principles of Accounting6 or 8 hours	Personnel Management3 hours
Statistics 3 hours	Money and Banking 3 hours
Business Law3 or 4 hours	

Curriculum Requirements. Requirements for the Master of Business Administration degree include the completion of at least thirty hours of graduate credit in a program approved by the faculty adviser. The thirty-hour program includes 24 credit hours of course work and 6 credit hours for the thesis. At least 12 hours and not more than 16 hours of course work will be taken in the student's major field of concentration. Courses outside the major field should be related to the student's interest, and it is strongly urged that at least two credit courses in economic theory or analysis be included.

Twelve hours of the required twenty-four credit hours must be made up of courses numbered in the catalog as 200 courses, which are courses limited to graduate students.

All requirements for the degree must be completed within an eight-year period.

Thesis. A thesis representing research in the major field of concentration and submitted in partial satisfaction of the requirements for the Master of Business Administration must be approved by the student's adviser and presented in its final form to the Dean of the Graduate School not later than the date specified in the calendar in the front of this catalog. The date published is the deadline for the acceptance of theses but they may be deposited earlier. Final approval of the thesis is given by the examination committee appointed by the Dean of the Graduate School. Detailed directions for the formal preparation of the thesis may be obtained from the Student's Supply Store.

Admission to Candidacy for the Master of Business Administration Degree. At the beginning of the semester in which the student plans to obtain the Master of Business Administration degree, he must make formal application to the Graduate Council for admission to candidacy for the degree. Such application must be endorsed by the student's faculty adviser, and by the head of the department in which he is studying.

The final requirement of the Master's program is the final examination, either written or oral as requested by the faculty adviser and the head of the department. The examination will cover three phases of the graduate work—the major field of specialization, the minor fields and defense of the thesis.

REQUIREMENTS FOR THE DEGREE OF DOCTOR OF EDUCATION

The Doctor of Education degree is offered for students who hold or expect to hold teaching or administrative positions in education and who desire to develop exceptional competence in special areas. The ability to explore and solve practical educational problems is emphasized. The requirements are the same as for the degree of Doctor of Philosophy except as specified below.

Foreign Languages. When the program of study and research does not involve the use of foreign languages the requirement may be waived by the Department of Education.

Major and Minor Subjects. The candidate must select one major area and one minor area in which he expects to develop exceptional competence. The minor may be a single area or may consist of a group of related areas selected to broaden the candidate's understanding of education. In addition to the major and minor, other areas if desired may be included in the program also. The amount of course work required in the major, minor, and related areas will vary according to the needs of each individual candidate.

Project. Instead of completing a thesis as required for a candidate for the degree of Doctor of Philosophy, a candidate for this degree must demonstrate exceptional competence to work through field problems by completing a project in the major area. A Committee on Doctoral Research is appointed for each candidate. The committee is composed of three members, at least two of whom are from the faculty of the College of Education. The committee passes upon the student's plans for research. The specialist in the student's major area serves as sponsor and provides detailed guidance for the project.

The regulations governing submission and form of copies of the project are the same as for the Doctor of Philosophy thesis. Written Examinations. Written examinations for the Doctor of Education degree parallel those for the Doctor of Philosophy degree in education.

Final Oral Examination: The final examination covers the project and its relationship to the general field in which it lies and the candidate's attainments in related areas.

REQUIREMENTS FOR THE DEGREE OF DOCTOR OF PHILOSOPHY

Advancement to Candidacy. Candidates for the Doctor's degree must be admitted to candidacy at least one academic year before the final examination. Applications for admission to candidacy for the Doctor's degree are made in duplicate by the student and submitted to his major department for further action and transmission to the Dean of the Graduate School. Blanks may be obtained at the office of the Graduate School.

The applicant must have demonstrated to the head of the Foreign Language Department that he possesses a reading knowledge of French and German. With the approval of the major department and the Graduate Council, in special cases another Foreign language may be substituted for either French or German. Preliminary examinations or such other substantial tests as the departments may elect are also required for admission to candidacy.

The student must complete all of his program for the degree, including the thesis and final examination, during a four year period after admission to candidacy. Failure to do so requires another application for admission to candidacy with the usual preliminary examination unless the Graduate Council rules otherwise.

Residence. The equivalent of three years of full-time graduate study and research is the minimum required. Of the three years the equivalent of at least one year must be spent in residence at the University. On a part-time basis the time needed will be correspondingly increased. All work at other institutions offered in partial fulfillment of the requirements for the Doctor of Philosophy degree is submitted to the Graduate Council for approval, upon recommendation of the department concerned, when the student applies for admission to candidacy for the degree.

The Doctor's degree is not given merely as a certificate of residence and work, but is granted only upon sufficient evidence of high attainments in scholarship, and ability to carry on independent research in the special field in which the major work is done.

Major and Minor Subjects. The candidate must select a major and one or two closely related minor subjects. At least twenty-four semester hours, exclusive of research, are required in minor work. Of the twenty-four semester hours at least eight hours of 200 courses must be in the minor field or fields unless special permission is granted beforehand. If two areas are chosen for the minor requirement, at least nine semester hours must be in one area. The remainder of the required residence is devoted to intensive study and research in the major field. The amount of required course work in the major subject will vary with the department and the individual candidate. The candidate must register for a minimum of twelve semester hours of research.

Thesis. The ability to do independent research must be shown by a dissertation on some topic connected with the major subject. An original type-written copy and two clear, plain carbon copies of the thesis, together with an abstract of the contents, not to exceed 600 words in length, must be deposited in the office of the Dean not later than the date specified in the calendar in the front of this catalog. The date published is the deadline for the acceptance of theses but they may be deposited earlier. It is the responsibility of the student also to provide copies of the thesis for the use of the members of the examining committee prior to the date of the final examination.

The original copy should not be bound by the student, as the University later binds uniformly all theses for the general University library. The carbon copies are bound by the student in cardboard covers which may be obtained at the Students' Supply Store. The abstracts are published by University Microfilms.

A manual giving full directions for the physical make-up of the thesis is in the hands of each professor who directs thesis work, and should be consulted by the student before typing of the thesis is begun. Students may obtain copies of this manual at the Students' Supply Store.

Final Examination. The final oral examination is held before a committee appointed by the Dean. One member of this committee is a representative of the graduate faculty who is not directly concerned with the student's graduate work. One or more members of the committee may be persons from other institutions who are distinguished scholars in the student's major field.

The duration of the examination is approximately three hours, and covers the research work of the candidate as embodied in his thesis, and his attainments in the fields of his major and minor subjects. The other detailed procedures are the same as those stated for the Master's examination.

RULES GOVERNING LANGUAGE EXAMINATIONS FOR CANDIDATES FOR THE DEGREE OF DOCTOR OF PHILOSOPHY

- 1. A candidate for the Doctor's degree must show in a written examination that he possesses a reading knowledge of French and German. With the approval of the major department and the Graduate Council, in special cases another foreign language may be substituted for either French or German. The passages to be translated will be taken from books and articles in his specialized field. Some 300 pages of text from which the applicant wishes to have his examination chosen should be submitted to the head of the Department of Foreign Languages at least two weeks before the examination. The examination aims to test ability to use the foreign language so that the student may be able to read some of the original basic literature in the field. It is presumed that the candidate will know sufficient grammar to distinguish inflectional forms and that he will be able to translate readily in two hours about 500 words of text, with the aid of a dictionary.
- 2. After the book has been approved it must be deposited in the office of the Department of Foreign Languages at least three days in advance of the test.
- 3. Examinations are held at the office of the Department of Foreign Languages, on the first Tuesday of October, February and June, at 2 P. M.
- 4. There is no limitation on the number of times the examination may be taken but a \$5.00 fee will be charged for the second and subsequent examinations.

GRADUATE FEES

The fees paid by graduate students are as follows:

Matriculation fee of \$10.00. This is paid once only, upon first registration in the Graduate School.

Diploma fee for Master's degree, \$10.00.

Graduation fee for Doctor's degree including a hood, microfilming and binding of thesis, \$50.00.

College Park:

A fixed charge, each semester, of \$10.00 per semester credit hour for students carrying ten hours or less; for students carrying more than ten hours, \$100.00 for the semester.

Foreign Language Examination (first examination without charge), \$5.00.

Laboratory fees, where charged, range from \$1.00 to \$20.00 per course per semester.

There is a \$3.00 fine for violation of the University parking regulations. All graduate students are expected to abide by these regulations, regardless of full-time or part-time attendance. The failure to register for a parking permit entails a \$5.00 fee.

Baltimore:

The fees for graduate work at the professional schools in Baltimore are determined by the individual school concerned. Students should consult the catalog of the respective school in which they intend to pursue their work.

Living Expenses and Self-Help:

The University in no way assumes responsibility for the housing or medical care of graduate students.

Board and lodging are available in many private homes in College Park and vicinity. The cost of board and room varies from about \$60.00 to \$75.00 a month, depending upon the desires of the individual. A list of accommodations is maintained by the housing bureau in the office of the Dean of Men.

Application for student employment, aside from fellowships and assistantships, may be made through the offices of the Dean of Men and the Dean of Women, or to department heads.

FELLOWSHIPS AND ASSISTANTSHIPS

Fellowships. A number of fellowships have been established by the University. The stipend for the University fellows is \$675 for nine months and the remission of all graduate fees except the diploma fee. Several industrial and special fellowships, with varying stipends, are also available in certain departments.

University Fellows are permitted to carry a full graduate program, and they may satisfy the residence requirement for higher degrees in the normal time.

Applications for fellowships are made on blanks which may be obtained from the office of the Graduate School. The application, with the necessary credentials, is sent by the applicant directly to the Dean of the Graduate School. Applications which are approved by the Dean are forwarded to the departments, where final selection of the fellows is made. The awards of University fellowships are on a competitive basis.

Graduate Assistantships. A number of teaching and research assistantships are available in several departments. The compensation is \$135.00 per month unless otherwise specified and varies with the nature and amount of service required and with the terms of appointment. The amount of credit allowed toward a degree is normally ten credit hours. The research assistants, especially those in the Experiment Station, usually participate in research that meets the requirements for a Master's or a Doctor's degree.

Applications for graduate assistantships are made directly to the departments concerned and appointments are made through the regular channels for staff appointments. Further information regarding these assistantships may be obtained from the department or college concerned.

COMMENCEMENT

Attendance is required at the June commencement if the degree is conferred at that time.

Application for diploma must be filed in the office of the Registrar eight weeks before the date at which the candidate expects to obtain a degree except during the summer season.

Academic costume is required of all candidates at the June commencement. Those who so desire may purchase or rent caps and gowns at the Students' Supply Store. Orders must be filed eight weeks before the date of convocation but may be cancelled later if the student finds himself unable to complete his work for the degree.

METHOD OF NUMBERING COURSES AND COUNTING CREDIT HOURS

Courses for Advanced Undergraduates and Graduates are numbered 100 to 199; courses for Graduates only are numbered 200 and upward.

A course with a single number extends through one semester.

A course with a double number extends through two semesters.

The number of semester hour credits is shown by the arabic numerals in parentheses after the title of the course. Examples:

Course 101. Title (3). First semester.

If a laboratory course:

Course 101. Title (3). One lecture and two laboratory periods a week, first semester.

(This is a semester course: offered once a year.)

Course 101. Title (3). First and second semesters.

(This is a semester course, repeated each semester, and except for research, seminar, and certain problem courses, must be taken only one semester.)

Course 103, 104. Title (3, 3). Three hours a week, first and second semesters.

If a laboratory course:

Course 103, 104. Title (3, 3). One lecture and two laboratory periods a week, first and second semesters.

(This is a course extending through two semesters and carrying three semester credits each semester.)

Course 103, 104. Title (3, 3). Three hours a week, second and first semesters. (This is a course extending through two semesters, but it begins with the second semester.)

Course 105, f, s. Title (3, 3). Three hours a week, first and second semesters. (This is alternate way of listing a two-semester course.)

AERONAUTICAL ENGINEERING

Professor Sherwood; Associate Professors Corning, Rivello, Shen; Lecturers, Imai, Pai.

The Department of Aeronautical Engineering offers courses and opportunities for research leading to the degree of Master of Science in Aeronautical Engineering.

Admission to the Graduate School for study in this department is based primarily on the student having a Bachelor of Science degree in Aeronautical Engineering in addition to the requirements for admission under General Regulations. However, a student without the Bachelor of Science degree in Aeronautical Engineering may be accepted for graduate study if he has a Bachelor of Science degree in an allied field of science and shows evidence of sufficient preparation for graduate work in his chosen field of Aeronautical Engineering.

Students may elect off-campus graduate courses given by the University, but off-campus credits may count toward the course requirement only if taken after graduate admission has been obtained. A minimum of six semester hours of graduate instruction, exclusive of research, from resident faculty members of this department must be included in the student's program and passed with a grade of "B" or higher. An acceptable thesis written under the guidance of the graduate faculty is also required.

Facilities for graduate research include a complete subsonic laboratory consisting of a 7.75 x 11 ft. wind tunnel and related shops, offices and photographic equipment. For high speed research, a 6" x 6" supersonic wind tunnel is available with Schlieren optical system, instantaneous strain-gauge type pressure pick-ups, remote angle of attack control and other accessories. A 100 h. p. rotary vacuum pump provides adequate pumping capacity for 10 second runs at 2 minute intervals.

The general aerodynamics laboratory is equipped with the following major items: a two foot subsonic wind tunnel, a ballistics range for measuring supersonic drag of projectile-shaped bodies, a water table for simulating compressible

flow by hydraulic analogy, a large electrolytic tank for the solution of potential flow problems, manometer boards, and high speed flash photographic equipment.

The structures laboratory has a 400,000 pound capacity universal testing machine, hydraulic tension-compression jacks and pumps, and lead shot bags for applying structural loading. Traction dynamometers and SR-4 tension-compression load cells are available to measure loads. The laboratory has SR-4 strain indication equipment, extensometers, compressometers, Huggenberger extensometers, and a recording oscillograph for measuring strain. Dial gages and a transit are available for measuring deflections.

FOR GRADUATES AND ADVANCED UNDERGRADUATES

- Aero. E. 101. Aerodynamics I (3). Three lectures a week, second semester.

 Sherwood.
- Aero. E. 102. Aerodynamics II (2). Two lectures a week, first semester.

 Continuation of Aero. E. 101.

 Sherwood.
- Aero. E. 105. Airplane Fabrication Shop (1). One laboratory period a week.

 Prerequisite, Shop 2. Guess.
- Aero. E. 106. Airplane Fabrication (1). One lecture a week. Prerequisite,
 Aero. E. 105. Guess.
- Aero. E. 107, 108. Airplane Design (4, 4). Two lectures and two supervised calculation periods per week, first and second semesters. Prerequisites, Aero. E. 101, Aero. E. 104, and M. E. 52. Aero. E. 102 and Aero. E. 113 to be taken concurrently.
- Aero. E. 109, 110. Aircraft Power Plants (3, 3). Three lectures and one laboratory period a week, first and second semesters. Prerequisite, M. E. 100. Guess.
- Aero. E. 111, 112. Aeronautical Laboratory (2, 2). One lecture and one laboratory period a week, first and second semesters. Prerequisite, Aero. E. 101. To be taken concurrently with Aero. E. 102 and Aero. E. 113. Staff.
- Aero. E. 113, 114. Mechanics of Aircraft Structures (3, 4). First and second semesters. Prerequisite, M. E. 52 and Math. 64. Rivello.
- Aero. E. 115. Aerodynamics III (3). Second semester. Elementary theory of the flow of a compressible gas at subsonic and supersonic speeds. Prerequisite, Aero. E. 102.

 Sherwood.
- Aero. E. 117. Aircraft Vibrations (2). Second semester. Prerequisite, Aero. E. 113, Math. 64. Guess.

FOR GRADUATES

Aero. E. 200, 201. Advanced Aerodynamics (3, 3). Three lectures a week, first and second semesters. Prerequisites, Aero. E. 101, 102, 115, Math. 64.

Pai.

Aero. E. 202, 203. Advanced Aircraft Structures (3, 3). First and second semesters. Prerequisites, Aero. E. 113, 114. Rivello.

- Aero. E. 204. Aircraft Dynamics (3). First semester. Prerequisites, Math. 64 and Aero. E. 114.
- Aero. E. 205. Aircraft Dynamics (3). Second semester. Prerequisites, Math. 64, Aero. E. 114 and Aero. E. 101.
- Aero. E. 206, 207. Advanced Aircraft Power Plants (3, 3). Two lectures and one laboratory period a week, first and second semesters. Prerequisites, M. E. 100; Aero. E. 109, 110.
- Aero. E. 208. Advanced Aircraft Design (3). Three lectures a week, first semester. Prerequisites, Aero. E. 107, 108; Math. 64. Corning.
- Aero. E. 209. Stability and Control (3). Three lectures a week, second semester. Prerequisites, Aero. E. 101, 102, 115.

 Corning.
- Aero. E. 210. Aerodynamic Theory (3). First semester. Prerequisites, Aero. E. 101, 102, Math. 64.
- Aero. E. 211. The Design and Use of Wind Tunnels (Supersonic) (3). First and second semesters. Kurzweg.
- Aero. E. 212, 213. Bodies at Supersonic Speeds (3, 3). First and second semesters. Prerequisites, degree in Aero. E. or M. E. or equivalent, and consent of instructor.

 Kurzweg.
- Aero. E. 214. Seminar. (Credit in accordance with work outlined by Aero. Engr. staff.) First and second semesters. Prerequisite, graduate standing.
- Aero. E. 215. Research. (Credit in accordance with work outlined by Aero Engr. staff.) First and second semesters. Prerequisite, graduate standing.
- Aero. E. 216. Selected Aeroballistics Problems (3). First semester. Prerequisite, degree in Aero. E. or M. E. or equivalent and consent of instructor.

 Kurzweg
- Aero. E. 217. Aerodynamics of Viscous Fluids (3). Second semester. Prerequisite, Aero. E. 101, 115, Math. 64.
- Aero. E. 218. Selected Topics in Aerodynamic Theory (3). First or second semesters. Topics of current interest and recent advances in the field of aerodynamics. Prerequisites, Aero. E. 210, 115.

AGRICULTURAL ECONOMICS AND MARKETING

Professors Poffenberger, DeVault, (emeritus) Beal, Walker; Associate Professors Hamilton, Murray, Shull; Assistant Professors Bohanan, Smith, Burns.

The Department offers a course of study leading to the degrees of Master of Science and Doctor of Philosophy. Although the major field is Agricultural Economics, thesis topics may be selected and courses concentrated in Farm Management, Farm Taxation, Farm Finance, Marketing, Land Economics, Agricultural Policy and Foreign Agricultural Trade.

Departmental requirements, supplementary to the Graduate School, have been formulated for the guidance of candidates for graduate degrees. Copies of these requirements may be obtained from the Department of Agricultural Economics and Marketing.

FOR GRADUATES AND ADVANCED UNDERGRADUATES

A.		Marketing of Farm Products (3). Second semester. 31, 32, or Econ. 37.	Prerequisites, Shull.			
A.	E. 103.	Cooperation in Agriculture (3). First semester. Pos	ffenberger.			
A.	E. 104.	Farm Finance (3). Second semester.	Poffenberger.			
A.	E. 106.	Prices of Farm Products (3). Second semester.	Poffenberger.			
A.	E. 107.	Analysis of the Farm Business (3). First semester.	Hamilton.			
A.	E. 108.	Farm Management (3). Second semester.	Hamilton.			
A.	E. 109.	Research Problems (1-2). First and second semesters	s. Staff.			
A.	E. 110.	Seminar (1, 1). First and second semesters.	Hamilton.			
Α.	E. 111.	Land Economics (3). First semester.	Bohanan.			
A.	E. 112.	Economic Development of American Agriculture (3).	First semester. Beal.			
Α.	E. 114.	Foreign Trade in Farm Products (3). Second semest	ter. Shull.			
Α.	E. 115.	Marketing of Dairy Products (3). First semester.	Beal.			
Α.	E. 116.	Marketing of Fruits and Vegetables (3). Second semi	ester. Burns.			
Α.	E. 117.	Economics of Marketing Eggs and Poultry (3). See	cond semester. Smith.

AGRICULTURAL EDUCATION AND RURAL LIFE

Professors Ahalt, Cotterman; Assistant Professor Hopkins; Lecturer Warner.

This department offers work leading to the degree of Master of Science. Students may work full-time towards a degree or they may complete the requirements on a part-time basis, taking the special three-week courses offered for agriculture teachers in summer, regular six-week summer school courses, and courses offered in the evenings and on Saturday during the school year.

Some students profitably elect special problems courses, mostly in agriculture, in which they work on problems in their local school and community. All students are required to enroll in a minimum of four of the three-week summer sessions for agriculture teachers, or their equivalent, in course work on the campus at College Park.

FOR GRADUATES AND ADVANCED UNDERGRADUATES

- R. Ed. 107. Observation and Analysis of Teaching in Agriculture (3). Second semester. Two lectures and one laboratory period a week. Hopkins.
- R. Ed. 109. Teaching Secondary Vocational Agriculture (3). First semester.

 Ahalt, Hopkins.
- R. Ed. 111. Teaching Young and Adult Farmer Groups (1). First semester.

 Hopkins.
- R. Ed. 112. Departmental Management (1). Second semester. One laboratory period a week. Prerequisites, R. Ed. 107, 109.

 Ahalt, Hopkins.
- R. Ed. 114. Rural Life and Education (3). Second semester. Ahalt.
- R. Ed. 150. Extension Education (2). Second semester Warner.
- R. Ed. 160. Agricultural Information Methods (2). First semester. (-----).

FOR GRADUATES

- R. Ed. 201, 202. Rural Life and Education (3, 3). First and second semesters, alternate years. Prerequisite, R. Ed. 114, or equivalent.

 Ahalt.
- R. Ed. 207, 208. Problems in Vocational Agriculture (2, 2). First and second semesters, alternate years. Ahalt, Hopkins.

- R. Ed. S207 A-B. Problems in Teaching Vocational Agriculture (1-1). Summer session only.
- R. Ed. S208 A-B. Problems in Teaching Farm Mechanics (1, 1). Summer session only.
- R. Ed. S209 A-B. Adult Education in Agriculture (1-1). Summer session only.
- R. Ed. S210 A-B. Land Grant College Education (1-1). Summer session only.
- R. Ed. S211 A-B. Agricultural Extension Service Education (1-1). Summer session only.
- R. Ed. S212 A-B. Educational Functions of Rural Institutions (1-1). Summer session only.
- R. Ed. S213 A-B. Supervision and Administration of Vocational Agriculture (1-1). Summer session only.
- R. Ed. 215. Supervision of Student Teaching (1). Arranged. Ahalt.
- R. Ed. 220. Field Problems in Rural Education (1-3). Second semester.

 Summer session. Prerequisite, six semester hours of graduate study.

 Ahalt, Hopkins.
- R. Ed. 240. Agricultural College Instruction (1). Second semester.

Cotterman, Ahalt.

- R. Ed. 250. Seminar in Rural Education (1-1). First and second semesters.
- R. Ed. S250 A-B. Seminar in Rural Education (1-1). Summer session only.
- R. Ed. 251. Research. Credit according to work done. First and second semesters and summer session.

AGRONOMY-CROPS AND SOILS

Professors Kuhn and Street; Associate Professors Axley, Bourbeau, Ronningen; Assistant Professors Bentz, Decker, Santelmann, Strickling.

The Department of Agronomy offers a graduate course of study leading to the degree of Master of Science and to the degree of Doctor of Philosophy. The student may pursue major work in the Crops Division or in the Soils Division of the Department. A thesis based on original research is required for each degree. Ample laboratory and greenhouse facilities for graduate work are available on the campus. The Plant Research Farm and the Tobacco Experimental Farm offer adequate nearby field research facilities. Many projects of the Department are conducted in cooperation with the Agricultural Research Service of the United States Department of Agriculture with headquarters located three miles from the campus.

A. Crops

FOR GRADUATES AND ADVANCED UNDERGRADUATES

Agron. 103. Crop Breeding (2). First semester. Prerequisite, Zool. 104.
Ronningen.

- Agron. 105. Tobacco Production (2). Two lectures a week, first semester.

 Prerequisite, Agron. 1.

 Street.
- Agron. 106. Tobacco Production (2). Two lectures a week, second semester.

 Prerequisite, Agron. 105.

 Street.
- Agron. 107. Cereal Crop Production (3). First semester. Two lectures and one laboratory period a week.

 Santelmann.
- Agron. 108. Forage Crop Production (3). Second semester. Two lectures and one laboratory period a week.

 Decker.
- Agron. 151. Cropping Systems (2). Second semester. (——.)
- Agron. 152. Seed Production and Distribution (2). One lecture and one laboratory (2 hr.) period a week, second semester. Prerequisite, Agron. 1.

 Santelmann.
- Agron. 154. Weed Control in Field Crops (3). First semester. Two lectures a week. Prerequisite, Agron. 1. (Not offered 1956-57.) Santelmann.

FOR GRADUATES

- Agron. 201. Crop Breeding (2). Second semester. Prerequisite, consent of instructor. Ronningen.
- Agron. 203. Crop Seminar (1, 1). First and second semesters. Staff.
- Agron. 204. Technic in Field Crop Research (2). First semester. (-----).
- Agron. 205. Biogenesis of Tobacco (2). Two lectures a week, second semester.

 Prerequisite, permission of instructor. (Offered in odd years.)

 Street.
- Agron. 206, 207. Recent Advances in Crop Production (2, 2). Two lectures a week, first semester. Prerequisite, consent of instructor. Agron. 206 not offered 1956-57.

 Decker, Street, Ronningen.
- Agron. 208. Research Methods (2-4). Second semester. Prerequisite, consent of staff. Staff.
- Agron. 209. Research in Crops (1-8). First and second semesters. Staff.
- Agron. S210. Cropping Systems (1). Summer only. (----).
- Agron. 211. Biosynthesis of Tobacco (2). Second semester. Two lectures a week. Prerequisite, permission of instructor. Offered in even years.

Street.

B. Soils

FOR GRADUATES AND ADVANCED UNDERGRADUATES

- Agron. \$110. Soil Management (1). Summer only. Strickling.
- Agron. 111. Soil Fertility Principles (3). Three lectures a week, second semester. Prerequisite, Agron. 10. (Not offered 1956-57.) Strickling.
- Agron. 112. Commercial Fertilizers (3). Three lectures a week, second semester. Prerequisite, Agron. 10.

 Axley.

- Agron. 113. Soil Conservation (3). Two lectures and one three-hour laboratory a week, first semester. Prerequisite, Agron. 10 or permission of the instructor.

 Bentz.
- Agron. 114. Soil Classification and Geography (4). Three lectures and one three-hour laboratory period a week, second semester. Prerequisite, Agron. 10 or permission from instructor.

 Bourbeau.
- Agron. 116. Soil Analysis for Plant Nutrients (3). One hour lecture, one two-hour laboratory, and one three-hour laboratory a week, first semester. Pre-requisite, Agron. 10 or permission of instructor. (Not offered 1957-58.)

 Axley.
- Agron. 117. Soil Physics (3). Two lectures and one three-hour laboratory a week, first semester. Prerequisite, Agron. 10 and a course in Physics, or permission of instructor. (Not offered 1957-58.)

 Strickling.
- Agron. 118. Special Problem in Soils (1). Summer only. Prerequisite, Agron. 10 and permission of instructor. Staff.
- Agron. 119. Soil Mineralogy (4). First semester. Two lectures and two two-hour laboratory periods a week. Prerequisite, permission of instructor. (Not offered 1956-57.)

 Bourbeau.

FOR GRADUATES

- Agron. 250. Advanced Soil Mineralogy (3). Three one-hour lectures a week, first semester every other year. Prerequisite, Agron. 10, Agronomy 119 and permission of instructor. (Not offered 1957-58.)

 Bourbeau.
- Agron. 251. Advanced Methods of Soil Investigation (3). Three one-hour lectures a week, first semester. Prerequisite, Agron. 10 and permission of instructor. (Not offered 1957-58.)
- Agron. 252. Advanced Soil Physics (3). Two lectures and one three-hour laboratory a week, first semester. Prerequisite, Agron. 10 and permission of instructor. (Not offered 1956-57.)

 Strickling.
- Agron. 253. Advanced Soil Analysis for Plant Nutrients (3). One hour lecture one two-hour laboratory and one three-hour laboratory periods a week, first semester. Prerequisite, Agron. 10 and permission of instructor. (Not offered 1957-58.)
- Agron. 255. Soil Seminar (1, 1). First and second semesters. Prerequisite,
 Agron. 10 and permission of instructor.

 Staff.
- Agron. 256. Soil Research (1-12). First and second semesters. Staff.

AMERICAN CIVILIZATION

Professor Bode and cooperating specialists.

The American Civilization program offers work leading to both the degrees of Master of Arts and Doctor of Philosophy. The departments of English, History, Government and Politics, and Sociology join to offer integrated plans

of study. In his class work the student will emphasize the offerings of any one of these departments. For lists of courses from which his particular program is to be developed, he is to see principally the listings of the four departments just mentioned. His adviser will be the chairman of the department whose work the student plans to emphasize, or if not the chairman then someone appointed by him.

Amer. Civ. 137, 138. Conference Course in American Civilization (3, 3). First and second semesters. Four American classics, drawn from the fields of the cooperating departments, are studied in detail each semester. Specialists from the appropriate departments lecture on these books. The classics for this year are: Franklin's Autobiography, De Tocqueville's Democracy in America, Schlesinger's The Age of Jackson, and Thoreau's Walden, for the first semester; and for the second semester, Twain's The Adventures of Huckleberry Finn, Veblen's The Theory of the Leisure Class, the Lynds' Middletown, and Myrdal's An American Dilemma.

The Conference Course, or either semester of it, may be chosen by a student outside the program as an elective. It also counts as major credit for the four cooperating departments. The course meets like a seminar, once a week.

ANIMAL HUSBANDRY

Professors Foster, Green; Assistant Professors Leffel, Wingert.

The Department of Animal Husbandry offers work leading to the degree of Master of Science. Although the major field is Animal Husbandry, course work and thesis problems are offered in the fields of animal breeding, nutrition, livestock management, and meats.

FOR GRADUATES AND ADVANCED UNDERGRADUATES

- A. H. 111. Animal Nutrition (3). Three lectures a week, first semester. Prerequisite, Chem. 31, 32, 33, 34; A. H. 110 or permission of instructor. Graduate credit allowed with permission of instructor. Leffel.
- A. H. 120. Principles of Breeding (3). Three lectures a week, second semester. Prerequisite, Zool. 104 and A. H. 130 or A. H. 131 or A. H. 132 or Dairy 101. Graduate credit (1-3 hours) allowed with permission of instructor.

Green.

- A. H. S130. Beef Cattle (1). Summer session only. This course is designed primarily for teachers of Vocational Agriculture and Extension Service Workers. Prerequisite, permission of instructor.
- A. H. 150. Livestock Markets and Marketing (2). Two lectures a week, first semester. Prerequisite, A. H. 1. Graduate credit allowed with permission of instructor. Wingert.

FOR GRADUATES

A. H. 200, 201. Special Problems in Animal Husbandry (1-2, 1-2). First and second semesters. Work assigned in proportion to amount of credit. Prerequisite, approval of staff

Staff.

- A. H. 202, 203. Seminar (1, 1). First and second semesters.
- Staff.
- A. H. 204. Research (1-6). First and second semesters. Credit to be determined by amount and character of work done.

 Staff.
- A. H. 205. Advanced Breeding (2). Two lectures a week, second semester.

 Prerequisites, A. H. 120 or equivalent and biological statistics. Green.
- A. H. 206. Advanced Livestock Management (3). Two lectures and one laboratory period a week, first semester. Prerequisite, approval of staff.

 Staff.

BACTERIOLOGY

Professors Faber, Hansen, Pelczar; Visiting Professors Hilleman, Warren; Associate Professors Laffer, Doetsch; Lecturer Kent.

The Department of Bacteriology offers the degrees of Master of Science and Doctor of Philosophy.

Graduate students associated with institutions away from the College Park campus are required to take a minimum of 12 credit hours, exclusive of research, during one semester at College Park for the degree of Master of Science, and a minimum of 24 credit hours, exclusive of research, during two semesters at College Park for the degree of Doctor of Philosophy.

The research project, the experimental approach employed, and progress made must meet with the approval of the head of the department.

Further information concerning graduate work in Bacteriology may be obtained from the department.

FOR GRADUATES AND ADVANCED UNDERGRADUATES

- Bact. 101. Pathogenic Bacteriology (4). Two lecture and two laboratory periods a week, first semester. Laboratory fee, \$10.00. Prerequisite, Bact. 5.

 Faber.
- Bact. 103. Serology (4). Two lectures and two laboratory periods a week, second semester. Laboratory fee, \$10.00. Prerequisite, Bact. 101. Faber.
- Bact. 104 History of Bacteriology (1). One lecture period a week, first semester. Prerequisite, a major or minor in bacteriology.

 Doetsch.
- Bact. 105. Clinical Methods (4). Two lecture and two laboratory periods a week, first semester. Laboratory fee, \$10.00. Prerequisite, consent of instructor.
- Bact. 108. Epidemiology and Public Health (2). Two lecture periods a week, second semester. Prerequisite, Bact. 101. Faber.
- Bact. 121. Advanced Methods (4). Two lectures and two laboratory periods a week, second semester. Laboratory fee, \$10.00. Prerequisite, consent of instructor.
 Hansen and Pelczar.
- Bact. 131. Food and Sanitary Bacteriology (4). Two lectures and two laboratory periods a week, second semester. Laboratory fee, \$10.00. Prerequisite, Bact. 1.

 Laffer.

Bact. 133. Dairy Bacteriology (4). Two lecture and two laboratory periods a week, first semester. Laboratory fee, \$10.00. Prerequisite, Bact. 1.

Doetsch.

Bact. 135. Soil Bacteriology (4). Two lecture and two laboratory periods a week, second semester. Laboratory fee, \$10.00. Prerequisite, Bact. 1.

Hansen.

- Bact. 161. Systematic Bacteriology (2). Two lecture periods a week, first semester. Prerequisite, 8 credits in bacteriology. Hansen.
- Bact. 181. Bacteriological Problems (3). First and second semesters. Prerequisite, 16 credits in bacteriology. Laboratory fee, \$10.00. Registration only upon the consent of the instructor. Staff.

FOR GRADUATES

- Bact. 201. Medical Mycology (4). Two lecture and two laboratory periods a week, first semester. Laboratory fee \$10.00. Prerequisite, 30 credits in bacteriology and allied fields.

 Laffer.
- Bact. 202. Genetics of Microorganisms (2). Two lecture periods a week, second semester. Prerequisite, consent of instructor. Hansen.
- Bact. 204. Bacterial Metabolism (2). Two lecture periods a week, first semester.

 Prerequisite, 30 credits in bacteriology and allied fields, including Chem.
 161 and 162.

 Pelczar.
- Bact. 206, 208. Special Topics (1, 1). One lecture period a week, first and second semesters. Prerequisite, 20 credits in bacteriology. Staff.
- Bact. 210. Virology (1). One lecture period a week, second semester. Prerequisite, Bact. 101 or equivalent. Warren.
- Bact. 211. Virology Laboratory (2). One lecture and one laboratory period a week, second semester. Laboratory fee, \$20.00. Prerequisite, Bact. 101 or equivalent. Registration only upon consent of instructor. Hilleman.
- Bact. 214. Advanced Bacterial Metabolism (1). One lecture period a week, second semester. Prerequisite, Bact. 204 and consent of instructor. Pelczar.
- Bact. 215. Tissue Culture (2). Two laboratory periods a week, first semester. Laboratory fee, \$20.00. Prerequisite, consent of instructor.
- Bact. 280. Seminar—Research Methods (1). First semester. Staff.
- Bact. 282. Seminar-Bacteriological Literature (1). Second semester. Staff.
- Bact. 291. Research. First and second semesters. Laboratory fee, \$10.00. Staff.

BOTANY

Professors Bamford, Gauch, Cox, Appleman (Emeritus), Norton, (Emeritus); Associate Professors Brown, D. T. Morgan; Assistant Professors Rappleye, Krauss, Sisler, Jenkins.

The Department of Botany offers a graduate course of study leading to the

degree of Master of Science and to the degree of Doctor of Philosophy. The student may pursue major work in any one of the three main divisions of the department, namely: Plant Physiology, Plant Pathology, or Plant Morphology, Cytology and Cytogenetics. Since a thesis based on original research is required for each degree, a qualified student may be allowed to pursue a problem of his own choosing, but it is more probable that the subject of his research will be that already in progress since the department is devoted to a study of basic agricultural problems as well as projects of a more fundamental nature.

An individual employed at a nearby institution may submit a thesis on his research work at the institution under the direction of, and approved by, a member of the faculty. Laboratory facilities are available for research in each division, and there are ample greenhouses and plot space available on the campus or adjacent University farm land.

In addition to the normal requirements of the Graduate School, one must possess a reading knowledge of either French or German, before the Master of Science degree is granted.

A. Plant Physiology

FOR GRADUATES AND ADVANCED UNDERGRADUATES

- Bot. 101. Plant Physiology (4). First semester. Two lectures and two laboratory periods a week. Prerequisites, Bot. 1, and general chemistry.

 Laboratory fee, \$5.00.

 Gauch.
- Bot. 102. Plant Ecology (3). Second semester. Two lectures and one laboratory period a week. Prerequisites, Bot. 11, or equivalent. Laboratory fee, \$5.00.

 Brown.

FOR GRADUATES

- Bot. 201. Plant Biochemistry (4). First semester. Prerequisites, Bot. 101, and clementary organic chemistry, or equivalent. Laboratory fee, \$10.00.

 Gauch.
- Bot. 202. Plant Biophysics (2). Second semester. Prerequisites, Bot. 101, and clementary physics, or equivalent. (Not offered 1956-57.)
- Bot. 203. Biophysical Methods (2). Second semester. To accompany Bot. 202. Same prerequisites. Laboratory fee \$10.00. (Not offered 1956-57.)
- Bot. 204. Growth and Development (2). First semester. Prerequisite, 12 semester hours of plant science. (Not offered 1956-57.) Krauss.
- Bot. 205. Mineral Nutrition of Plants (2). Second semester. Prerequisite, Bot. 101, or equivalent. Gauch.
- Bot. 206. Research in Plant Physiology. Credit according to work done.

 Gauch, Krauss.
- Bot. 207. Special Topics in Plant Physiology (2). Second semester. Prerequisite, permission of instructor.
- Bot. 208. Seminar in Plant Physiology (1). First and second semesters.

 Prerequisite, permission of instructor.

 Gauch, Krauss.

Bot. 209. Physiology of Algae (3). First semester. Two lectures and one laboratory a week. Prerequisite, Bot. 201, the equivalent in allied fields. or permission of instructor. Laboratory fee \$10.00. (Not offered 1956-57.)

Krauss.

B. General Botany and Morphology

FOR GRADUATES AND ADVANCED UNDERGRADUATES

- Bot. 111. Plant Anatomy (3). First semester. One lecture and two laboratory periods a week. Prerequisite, Bot. 110, or equivalent. Laboratory fee, \$5.00.

 Rappleye.
- Bot. 113. Plant Geography (2). First semester. Prerequisite, Bot. 1, or equivalent.

 Brown.
- Bot. 114. Advanced Plant Taxonomy (3). First semester. One lecture and two laboratory periods a week. Prerequisite, Bot. 11, or permission of instructor. Laboratory fee, \$5.00.

 Brown.
- Bot. 115. Structure of Economic Plants (3). Second semester. One lecture and two laboratory periods a week. Prerequisite, Bot. 111. Laboratory fee, \$5.00.
- Bot. 116. History and Philosophy of Botany (1). First semester. Prerequisite, 15 semester hours of botany.

 Bamford.
- Bot. 117. Plant Breeding (2). Second semester. Prerequisite, Zool. 104, or equivalent.

 D. T. Morgan.
- Bot. 135. Aquatic Plants (3). First semester. One lecture and two laboratory periods a week. Prerequisites, Bot. 1, Bot. 11 or equivalent. Laboratory fee, \$5.00. (Not offered 1956-57.)
- Bot. 136. Plants and Mankind (2). First semester. Summer 1956. Prerequisite, Bot. 1 or equivalent. Rappleye.
- Bot. 151S. Teaching Methods in Botany (2). Summer. Prerequisite, Bot. 1, or equivalent. Laboratory fee, \$5.00. (Not offered 1956.) Owens.

FOR GRADUATES

- Bot. 211. Cytology (4). Second semester. Two lectures and two laboratory periods a week. Prerequisites, Bot. 110, Zool. 104. Laboratory fee, \$10.00.

 Bamford, D. T. Morgan.
- Bot. 212. Plant Morphology (3). First semester. One lecture and two laboratory periods a week. Prerequisites, Bot. 11, Bot. 111, or equivalent. Laboratory fee, \$5.00. (Not offered 1956-57.)

 Rappleye.
- Bot. 213. Seminar in Plant Cytology and Morphology (1). First and second semesters. Prerequisite, permission of instructor. D. T. Morgan, Rappleye.
- Bot. 214. Research in Plant Cytology and Morphology. Credit according to work done.

 Bamford, D. T. Morgan, Rappleye.

- Bot. 215. Plant Cytogenetics (3). First semester. Prerequisites, Zool. 104, Bot. 211. Laboratory fee, \$10.00. (Not offered 1956-57.) D. T. Morgan.
- Bot. 219. Special Topics in Plant Morphology and Cytology (2). First semester. Prerequisite, permission of instructor.

C. Plant Pathology

FOR GRADUATES AND ADVANCED UNDERGRADUATES

- Bot. 122. Research Methods in Plant Pathology (2). First or second semester.

 Two laboratory periods a week. Prerequisite, Bot. 20, or equivalent. Laboratory fee, \$5.00.
- Bot. 123. Diseases of Ornamental Plants (2). Second semester. Prerequisite, Bot. 20, or equivalent. (Not offered 1956-57.)
- Bot. 124. Diseases of Tobacco and Agronomic Crops (2). First semester. Prerequisite, Bot. 20, or equivalent.

 O. D. Morgan.
- Bot. 125. Diseases of Fruit Crops (2). First semester. Prerequisite, Bot. 20, or equivalent. (Not offered 1956-57.) Weaver.
- Bot. 126. Diseases of Vegetable Crops (2). Second semester. Prerequisite,

 Bot. 20, or equivalent. Cox.
- Bot. 128. Mycology (4). Second semester. Two lectures and two laboratory periods a week. Prerequisite, Bot. 2, or equivalent. Laboratory fee, \$5.00.
- Bot. 152S. Field Plant Pathology (1). Summer, first three weeks. Laboratory fee, \$5.00. Prerequisite, Bot. 20, or equivalent. Cox, Staff.

FOR GRADUATES

- Bot. 221. Virus Diseases (3). Two lectures and one laboratory period a week, second semester. Prerequisites, Bot. 20, 101. Laboratory fee, \$10.00.

 Sisler.
- Bot. 223. Physiology of Fungi (2). First semester. Prerequisites, Organic Chemistry and Botany 101 or the equivalent in bacterial or animal physiology.

 Sisler.
- Bot. 224. Physiology of Fungi Laboratory (1). First semester. One laboratory period a week. Prerequisite, Bot. 223 or concurrent registration therein. Laboratory fee, \$10.00. (Not offered 1956-57.) Sisler.
- Bot. 225. Research in Plant Pathology. Credit according to work done.
- Bot. 226. Plant Disease Control (3). First semester. Prerequisite, Bot. 20, or equivalent.

Staff.

- Bot. 228. Special Topics in Plant Pathology (2). Second semester. Prerequisite, permission of instructor.
- Bot. 229. Seminar in Plant Pathology (1). First and second semesters. Prerequisite, permission of instructor. Cox.

- Bot. 241. Plant Nematology (2). First semester. Prerequisite, permission of instructor. (Not offered 1956-57.)

 Jenkins.
- Bot. 242. Plant Nematology Laboratory (1). First semester. One laboratory period a week. Prerequisite, Bot. 241 or concurrent registration therein. Laboratory fee, \$10.00. (Not offered 1956-57.)

 Jenkins.

BUSINESS ADMINISTRATION

Professors Frederick, Clemens, Cook, Fisher, Pyle, Sweeney, Sylvester, Taff, Watson, Wedeberg, Wright; Associate Professors Dawson Gentry; Assistant Professor Goodell.

The degree of Master of Business Administration is conferred on those students who satisfactorily complete the requirements which are set forth in the section of this catalog entitled, "Requirements for the Degree of Master of Business Administration."

FOR GRADUATES AND ADVANCED UNDERGRADUATES

- B. A. 110, 111. Intermediate Accounting (3, 3).

 Prerequisite, a grade of "B" or better in B. A. 21, or consent of instructor.

 Daiker.
- B. A. 116. Public Budgeting (3). Prerequisites, B. A. 21 and Econ. 32.
- B. A. 118. Governmental Accounting (3). Prerequisite, B. A. 111.
- B. A. 121. Cost Accounting (4). Prerequisite, a grade of "B" or better in B. A. 21, or consent of instructor.

 Sweeney.
- B. A. 122. Auditing Theory and Practice (3). Prerequisite, B. A. 111.

Wright.

- B. A. 123 Income Tax Accounting (4). Prerequisite, a grade of "B" or better in B. A. 21, or consent of instructor. Wedeberg.
- B. A. 124, 126. Advanced Accounting (3, 3). Prerequisite, B. A. 111.

Wedeberg.

- B. A. 125. C. P. A. Problems (3). Prerequisite, B. A. 124, or consent of instructor. Wedeberg.
- B. A. 127. Advanced Auditing Theory and Practice (3). Prerequisite, B. A. 122. Wright.
- B. A. 130. Elements of Business Statistics (3). Laboratory fee, \$3.50.

Nelson, Cluse.

- B. A. 131. Statistics Laboratory.
- B. A. 132, 133. Advanced Business Statistics (3, 3). Prerequisite, B. A. 130. Laboratory fee, \$3.50. Nelson.
- B. A. 140. Financial Management (3). Prerequisite, B. A. 21, Econ. 140.

 Calhoun.
- B. A. 141. Investment Management (3). Prerequisite, B. A. 140. Calhoun.

- B. A. 142. Banking Policies and Practices (3). Prerequisite, Econ. 140.
- B. A. 143. Credit Management (3). Prerequisite, B. A. 140. Calhoun.
- B. A. 148 Advanced Financial Management (3). Prerequisite, B. A. 140
- B. A. 149. Analysis of Financial Statements (3). Prerequisite, B. A. 140.
- B. A. 150a. Marketing Principles and Organization (3). Prerequisite, Econ. 32 or 37. Reid and Staff.
- B. A. 150. Marketing Management (3). Prerequisite, B. A. 150a.

 Cook, Reid.
- B. A. 151. Advertising Programs and Campaigns (3). Prerequisite, B. A. 150.

 Gentry.
- B. A. 152. Advertising Copy Writing and Layout (3). Prerequisite, B. A. 151.

 Gentry.
- B. A. 153. Purchasing Management (3). Prerequisite, A. B. 150. Gentry.
- B. A. 154. Retail Store Management (3). Prerequisite. Econ. 150. Cook.
- B. A. 155. Problems in Retail Merchandising (3). Prerequisite, B. A. 154.

 Cook.
- B. A. 157. Foreign Trade Procedure (3). Prerequisite, B. A. 150.
- B. A. 158. Advertising Campaigns (3). Prerequisites, B. A. 151 and B. A. 152.

 Gentry.
- A. B. 159. Newspaper Advertising (3. Prerequisite, B. A. 151. Gentry.
- B. A. 160. Personnel Management (3). Prerequisite, Econ. 160. Sylvester.
- B. A. 163. Industrial Relations (3). Prerequisite, Econ. 160. Sylvester.
- B. A. 164. Recent Labor Legislation and Court Decisions (3). Prerequisite,
 B. A. 160. Sylvester.
- B. A. 165. Office Management (3).

Patrick.

- B. A. 166. Business Communications (3).
- B. A. 167. Job Evaluation and Merit Rating (2). Prerequisite, B. A. 160.

 Goodell.
- B. A. 168. Advanced Office Management (3). Prerequisite, B. A. 165.
- B. A. 169. Industrial Management (3). Prerequisites, B. A. 11 and 160.

 Goodell, Phillips.
- B. A. 170. Transportation Services and Regulation (3). Prerequisite, Econ. 32 or 37.
- B. A. 171. Industrial and Commercial Traffic Management (3). Prerequisite, B. A. 170. Taff.
- B. A. 172. Motor Transportation (3). Prerequisite, B. A. 170. Taff.

B. A. 173. Overseas Shipping (3). Prerequisite, B. A. 170. Taff. B. A. 174. Commercial Air Transportation (3). Prerequisite, B. A. 170. Frederick. B. A. 175. Airline Administration (3). Prerequisite, B. A. 174. Frederick. B. A. 176. Problems in Airport Management (3). Prerequisite, B. A. 174. Frederick. B. A. 177. Motion Economy and Time Study (3). Prerequisite, B. A. 169. Goodell. B. A. 178. Production Planning and Control (2). Prerequisite, B. A. 169. Goodell. B. A. 179. Problems in Supervision (3). Prerequisite, B. A. 169. Goodell. B. A. 180, 181. Business Law (4, 4). Mounce. B. A. 184. Public Utilities (3). Prerequisites, Econ. 32 and 37. Clemens. B. A. 189. Business and Government (3). Prerequisite, Econ. 32 or 37. Nelson. B. A. 190. Life Insurance (3). Prerequisite, Econ. 32 or 37. Watson. B. A. 191. Property Insurance (3). Prerequisite, Econ. 32 or 37. Watson. B. A. 194. Insurance Agency Management (3). Prerequisite, B. A. 190 or 191. Watson. B. A. 195. Real Estate Principles (3). Prerequisite, Econ. 32 or 37. Watson. B. A. 196. Real Estate Finance (3). Prerequisite, Econ. 32 or 37. Watson. B. A. 197. Real Estate Management (3). Prerequisite, B. A. 195 or 196. Watson.

For Graduates						
B. A. 210.	Advanced Accounting Theory (2, 3).	Prerequisite, B. A. 111.				
		Wedeberg, Fisher.				
B. A. 220.	Managerial Accounting (3).	Wedeberg, Wright.				
B. A. 221,	222. Seminar in Accounting.	Wedeberg, Wright.				

B. A. 226. Accounting Systems. Wedeberg, Sweeney.

B. A. 228. Research in Accounting. Wedeberg.

- B. A. 229. Studies of Special Problems in the Fields of Control and Organization.
- B. A. 240. Seminar in Financial Management (1-3). Prerequisite, B. A. 140. Calhoun, Fisher.
- B. A. 249. Studies of Special Problems in the Field of Financial Administration.
- B. A. 250. Problems in Sales Management (1-3). Cook, Reid.

B. A. 299. Thesis.

B. A. 251.	Problems in Advertising (3).	Gentry.
B. A. 252.	Problems in Retail Store Management (3).	Cook.
B. A. 257.	Seminar in Marketing Management. Cook, G	entry, Reid.
B. A. 258.	Research in Marketing.	ook, Gentry.
B. A. 262.	Seminar in Contemporary Trends in Labor Relations.	Sylvester.
B. A. 265.	Development and Trends in Industrial Management (3).	
B. A. 266.	Research in Personnel Management.	Sylvester.
B. A. 267.	Research in Industrial Relations.	Sylvester.
B. A. 269.	Studies of Special Problems in Employer-Employee R	elationships. Sylvester.
B. A. 270.	Seminar in Air Transportation (3).	Frederick.
B. A. 271.	Theory of Organization (3).	Sylvester.
B. A. 275.	Seminar in Motor Transportation.	Taff.
B. A. 277.	Seminar in Transportation (3).	Frederick.
B. A. 280.	Seminar in Business and Government Relationships.	
B. A. 284.	Seminar in Public Utilities (3).	Clemens.
B. A. 290.	Seminar in Insurance (3).	Watson.
B. A. 295.	Seminar in Real Estate (3).	Watson.

CHEMICAL ENGINEERING

Professors Huff, Bonney, Cooper, Schroeder, Pennington; Assistant Professor MacLaughlin; Instructors Costas, Duffey, Reid.

This Department directs the programs of graduate students who plan to qualify for the degree of Master of Science or Doctor of Philosophy in Chemical Engineering, Nuclear Engineering or in Metallurgy.

Departmental regulations have been assembled for the guidance of candidates for graduate degrees in Chemical Engineering and in the Metallurgical Option. Copies of these regulations are available on request from the Department of Chemical Engineering.

FOR GRADUATES AND ADVANCED UNDERGRADUATES

Ch. E. 103 f.s. Elements of Chemical Engineering (3, 3). Three hours a week, both semesters. Prerequisites, Chem. 1, 3; Phys. 21; Math. 21.

Huff.

Staff.

Ch. E. 104. Chemical Engineering Seminar (1). One hour a week, both semesters. Prerequisite, permission of the Department. The content of

- this course is constantly changing so a student may receive a number of credits by re-registering.
- Ch. E. 105 f,s. Advanced Unit Operations (5, 5). Two lectures and one all-day laboratory a week, both semesters. Prerequisites, Ch. E. 103 f,s; Chem. 187, 188, 189, 190. Laboratory fee, \$8.00 per semester. Bonney and Staff.
- Ch. E. 107. Fuels and Their Utilization (3). Three hours a week, second semester. Prerequisite, Ch. E. 103 f,s, or permission of the department.

Huff.

- Ch. E. 109 f,s. Chemical Engineering Thermodynamics (3, 3). Two hours a week, both semesters. Prerequisites, Ch. E. 103 f,s; Chem. 187, 189, or permission of the department.

 Cooper.
- Ch. E. 112, 113. Industrial Chemical Technology (3, 3). Three hours a week, both semesters. Prerequisite, Ch. E. 103 f,s, or simultaneous registration therein, or permission of the department.
 Schroeder.
- Ch. E. 116. Applications of Advanced Mathematical Analysis in Chemical Engineering (3). First semester. Three lectures a week. Prerequisites, Math. 20, 21 and Ch. E. 103.
- Ch. E. 123. Elements of Plant Design (3). Second semester. Two lectures and one laboratory period a week. Prerequisites, Ch. E. 103 f,s, Ch. E. 110 or Ch. E. 116; Chem. 189.
- Ch. E. 131. Chemical Engineering Economics (2). Second Semester, two lectures a week. Prerequisites, simultaneous registration in or completion of Ch. E. 108 or Ch. E. 112, 113, 109 and 123, or permission of instructor.
- Ch. E. 140. Introduction of Nuclear Technology (2). First Semester, two lectures a week. Prerequisite, consent of instructor.

 Duffey.
- Ch. E. 142. Environmental Considerations of Nuclear Engineering (3). First semester. Three lectures a week. Prerequisite, permission of instructor.
- Ch. E. 145. Applications of Differential Equations and Statistics in Chemical Engineering (3). Second semester, one lecture, two laboratory periods a week. Prerequisites, Ch. E. 103, Ch. E. 110 or Ch. E. 116 or permission of instructor.

FOR GRADUATES

- Ch. E. 201. Graduate Unit Operations (5). One hour conference, three or more three-hour laboratory periods a week, first semester. Prerequisite, permission of the department. Laboratory fee, \$8.00.
- Ch. E. 202 f.s. Gas Analysis (3). One lecture and two three-hour laboratory periods a week, one semester, to be arranged. Prerequisite, permission of the department. Laboratory fee, \$8.00.

 Bonney.
- Ch. E. 203. Graduate Seminar (1). One hour a week, each semester. The content of this course is constantly changing, so a student may receive a

- number of credits by re-registering. Prerequisite, permission of the department. Also given at Army Chemical Center. Huff.
- Ch. E. 205. Research in Chemical Engineering. Prerequisites and credits to be arranged for individuals. Laboratory fee, \$8.00 per semester.

 Huff, Bonney, Cooper, Schroeder.
- Ch. E. 207 f,s. Advanced Plant Design Studies (3, 3). Three hours a week, both semesters. Prerequisite, permission of the department. Also given at Army Chemical Center.
 Huff, Cooper.
- Ch. E. 209 f,s. Plant Design Studies Laboratory (3, 3). Three laboratory periods a week, both semesters. Prerequisite, permission of the department. Laboratory fee, \$8.00 per semester.

 Bonney.
- Ch. E. 210 f.s. Gaseous Fuels (2, 2). Two hours a week, both semesters.

 Prerequisite, permission of the department.

 Huff.
- Ch. E. 214. Corrosion and Metal Protection (4). Second semester. Four lecture hours a week. Prerequisites, Ch. E. 114 or Chem. 187, 189 or Chem. 188, 190, or consent of the instructor. Also given at the Army Chemical Center.
- Ch. E. 216. Unit Processes of Organic Technology (3). Three lectures a week, second semester. Prerequisite, permission of the Department.
- Ch. E. 217. Unit Processes of Organic Technology Laboratory (2). Two or more laboratory periods a week, second semester. Prerequisite, permission of the instructor. Laboratory fee, \$8.00.
 Bonney.
- Ch. E. 240, 241. Advanced Heat and Mass Transfer (2, 2). Two lectures a week, both semesters. Prerequisite, permission of the Department. Also given at Army Chemical Center and Camp Detrick.
- Ch. E. 250. Chemical Engineering Practice (6). Four hours conference and forty hours a week of work in laboratory and plant for eight weeks. Prerequisite, permission of the Department. Offered at the Army Chemical Center only.
- Ch. E. 280, 281. Graduate Chemical Engineering Thermodynamics (3, 3). Three lectures a week, first and second semesters. Prerequisites, Ch. E. 109, f,s;
 Ch. E. 110 or Ch. E. 116 or permission of instructor. Bonney.
- Ch. E. 290. Chemical Engineering Process Kinetics (3). First semester, three lectures a week. Prerequisite, permission of instructor. Reid.
- Ch. E. 302, 303. Nuclear Reactor Engineering (3, 3). First and second semesters. Three lectures a week. Prerequisite, permission of instructor. Duffey.
- Ch. E. 311. Nuclear Separation Engineering (2). Second semester. Two lectures a week. Prerequisite, permission of instructor. Duffey, Cooper.
- Ch. E. 315. Industrial Applications of Nuclear Reactors (2). Second semester. Two lectures a week. Prerequisite, permission of instructors. Duffey, Cooper.

METALLURGICAL OPTION

For Graduates and Advanced Undergraduates

- Met. 104. Senior Metallurgical Seminar (1, 1). One hour a week. The content of this course is constantly changing so a student may receive a number of credits by re-registration.
- Met. 164, 166. Thermodynamics of Metallurgical Processes (3, 3). Three lectures a week. Prerequisites, Chem. 187, 189; Chem. 188, 190.
- Met. 168, 170. Metallurgical Investigations (2, 4). First semester, two three-hour laboratory periods a week; second semester, three lectures and one three-hour laboratory period a week. Prerequisites, concurrent registration in or completion of Met. 182, 183. Laboratory fee, \$8.00 per semester.
- Met. 182, 183. Optical and X-Ray Metallography (4, 4). Three lectures and one laboratory period a week. Prerequisites, Met. 64, 66; Met. 68, 70; or permission of instructor. Laboratory fee, \$8.00 per semester.
- Met. 188, 189. Alloy Steels I, II (2, 2). Two lectures per week. Prerequisite, graduate or undergraduate standing. (Met. 188 is not prerequisite to Met. 189. Offered at off-campus installations as determined by departmental and registration requirements).

For Graduates

- Met. 205. Research in Metallurgy. Prerequisites and credits to be arranged for individuals. Laboratory fee, \$8.00 per semester.
- Met. 220. 221. Solid Phase Reactions (3, 3). Three lectures a week. Prerequisites, Chem. 187, 189; Chem. 188, 190; Met. 182, 183; or permission of the instructor.
- Met. 224, 225. Advanced X-Ray Metallography (3, 3). Two lectures and one laboratory period a week. Prerequisites, Math 114, 115; Met. 182, 183. Laboratory fee, \$8.00 per semester.
- Met. 228. Seminar in Metallurgy (1, 1). One meeting a week. Required of graduate students in Metallurgical curriculum. The content of this course is constantly changing, so a student may receive a number of credits by reregistration.
- Met. 229. Gases in Metals (2). Second semester. Two lectures per week. Prerequisites, Met. 182, 183, or permission of the instructor.
- Met. 230, 231. Mechanical Metallurgy (3, 3). Three lectures a week. Prerequisites Math. 114, 115; Met. 182, 183.
- Met. 232, 233. Advanced Physical Metallurgy (3, 3). Three lectures a week. Required of graduate students in Metallurgical curriculum.

CHEMISTRY

Professors Drake, Lippincott, Pratt, Reeve, Rollinson, Svirbely, Veitch, White, Woods; Research Professors Bailey, Michels, Slawsky; Associate Professors Brown, Jansen, Mason, Pickard, Pratt, Schamp, Stuntz.

Departmental regulations have been assembled for the guidance of candidates for graduate degrees. Copies of these regulations are available from the Department of Chemistry.

Laboratory fees in Chemistry are \$10.00 per laboratory course per semester.

A. Analytical Chemistry

For Graduates and Advanced Undergraduates

Chem. 123. Quantitative Analysis (4). First semester. Two lectures and two three-hour laboratory periods per week. Prerequisite, Chem. 15.

An intensive study of the theory and techniques of inorganic quantitative analysis, including volumetric, gravimetric, electrometric and colorimetric methods. Required of all students majoring in Chemistry.

Stuntz.

Chem. 166, 167. Food Analysis (3, 3). First and second semesters. One lecture and two three-hour laboratory periods per week. Prerequisites, Chem. 33, 34.

For Graduates

- Chem. 206, 208. Spectrographic Analysis (1, 1). One three-hour laboratory a week. Prerequisite. Chem. 188, 190, and consent of the instructor. Registration limited. White.
- Chem. 221, 223. Chemical Microscopy (2, 2). One lecture and three one-hour laboratory periods a week, first and second semesters. Prerequisite, consent of instructor. Registration limited.

 Stuntz.
- Chem. 226, 228. Advanced Quantitative Analysis (2, 2). Two three-hour laboratory periods a week, first and second semesters. Prerequisite, consent of instructor. Stuntz.
- Chem. 226. Biological Analysis (2). Second semester. Two three-hour laboratory periods per week. Prerequisites, Chem. 33, 34.

A study of analytical methods applied to biological material.

B. Biochemistry

For Graduates and Advanced Undergraduates

- Chem. 161, 163. Biochemistry (2, 2). Two lectures a week, first and second semesters. Prerequisites, Chem. 33, or Chem. 37.
- Chem. 162, 164. Biochemistry Laboratory (2, 2). Two three-hour laboratory periods a week, first and second semesters. Prerequisites, Chem. 34, or Chem. 38.

For Graduates

Chem. 261, 263. Advanced Biochemistry (2, 2). Two lectures a week, first and

second semesters. Prerequisites, Chem. 143 or consent of instructor.

Veitch.

- Chem. 262, 264. Advanced Biochemistry Laboratory (2, 2). Two three-hour laboratory periods a week, first and second semesters. Prerequisite, consent of the instructor.

 Veitch.
- Chem. 265. Enzymes (2). Two lectures a week, first semester. Prerequisite, Chem 163.
- Chem. 268. Special Problems in Biochemistry (2-4). Two to four three-hour laboratory periods a week, first and second semesters. Prerequisites, Chem. 161, 162, 163, 164, and consent of the instructor.

C. Inorganic Chemistry

FOR GRADUATES AND ADVANCED UNDERGRADUATES

- Chem. 101. Advanced Inorganic Chemistry (2). Two lectures a week, second semester. Prerequisites, Chem. 123, 37.
- Chem. 111. Chemical Principles (4). Five lectures and five three-hour laboratory periods a week. Prerequisite, Chem. 1 and 3, or equivalent. Not open to students seeking a major in the physical sciences, since the course content is covered elsewhere in their curriculum.

 Jaquith.

A course in the principles of chemistry with accompanying laboratory work consisting of simple quantitative experiments. (Credit applicable only toward degree in College of Education.)

FOR GRADUATES

- Chem. 201, 203. The Chemistry of The Rarer Elements (2, 2). Two lectures a week, first and second semesters. White.
- Chem. 202, 204. Advanced Inorganic Laboratory (2). Two three-hour laboratory periods a week, first and second semesters.
- Chem. 205. Radiochemistry (2). Two lectures a week. Rollinson.
- Chem. 207. Chemistry of Coordination Compounds (2). Two lectures a week.

 Rollinson.
- Chem. 209. Non-aqueous Inorganic Solvents (2). Two lectures a week, first or second semester.

 Jaquith.
- Chem. 210. Radiochemistry Laboratory (1 or 2). One or two four-hour laboratory periods a week. Registration limited. Prerequisites, Chem. 205 (or concurrent registration therein) and consent of instructor. Rollinson.

D. Organic Chemistry

FOR GRADUATES AND ADVANCED UNDERGRADUATES

Chem. 141, 143. Advanced Organic Chemistry (2, 2). Two or four lectures a week, first and second semesters. Prerequisites, Chem. 37, 38.

- Chem. 144. Advanced Organic Laboratory ((2-4). Two three-hour laboratory periods a week, second semester. Prerequisites, Chem. 37, 38.
- Chem. 146, 148. The Identification of Organic Compounds (2, 2). Two three-hour laboratory periods a week, first and second semesters. Prerequisites, Chem. 141, 143, or concurrent registration therein.
- Chem. 150. Organic Quantitative Analysis (2). Two three-hour laboratory periods per week, first and second semesters. Prerequisite, consent of instructor.

FOR GRADUATES

(One or more courses from the following group 241-254 will customarily be offered each semester. Two of these courses will be presented in the academic year 1955-1956.)

- Chem. 240. Organic Chemistry of High Polymers (2). Two lectures a week, first semester. Prerequisites, Chem. 141, 143.

 Bailey.
- Chem. 241. Stereochemistry (2). Two lectures a week.
- Chem. 245. The Chemistry of the Steroids (2). Two lectures a week. Pratt.
- Chem. 249. Physical Aspects of Organic Chemistry (2). Two lectures a week.
 Woods.
- Chem. 251. The Heterocylics (2). Two lectures a week.

Pratt.

Woods.

- Chem. 253. Organic Sulfur Compounds (2). Two lectures a week. Dewey.
- Chem. 254. Advanced Organic Preparations (2 to 4). Two or four three-hour laboratory periods a week, first and second semesters.

 Pratt.
- Chem. 258. The Identification of Organic Compounds, an Advanced Course (2 to 4). Two to four three-hour laboratory periods a week, first and second semesters. Prerequisites, Chem. 141, 143, or concurrent registration therein.

E. Physical Chemistry

FOR GRADUATES AND ADVANCED UNDERGRADUATES

- Chem. 181, 183. Elements of Physical Chemistry (2, 2). Two lectures a week, first and second semesters. Prerequisites, Chem. 19; Phys. 1, 2; Math. 10, 11.
- Chem. 182, 184. Elements of Physical Chemistry Laboratory (1, 1). One three-hour laboratory period a week, first and second semesters. May be taken ONLY when accompanied by Chem. 181, 183.
- Chem. 187, 189. Physical Chemistry (3, 3). Three lectures a week, first and second semesters. Prerequisites, Chem. 19 or 21; Phys. 20, 21; Math. 20, 21. This course must be accompanied by Chem. 188, 190.
- Chem. 188, 190. Physical Chemistry Laboratory (2, 2). Two three-hour lab-

oratory periods a week, first and second semesters. A laboratory course for students taking Chem. 187, 189.

Chem. 192, 194. Glassblowing Laboratory (1, 1). One three-hour laboratory period a week, first and second semesters. Prerequisite, consent of instructor.

Carruthers.

FOR GRADUATES

The common prerequisites for the following courses are Chem. 187 and 189. One or more courses of the group, 281-323, will be offered each semester, depending on demand.

- Chem. 281. Theory of Solutions (2). Two lectures a week. Prerequisite, Chem. 307, or equivalent. Svirbely.
- Chem. 285. Colloid Chemistry (2). Two lectures a week. Pickard.
- Chem. 287. Infra-red and Raman Spectroscopy (2). Two lectures a week.

 Prerequisites, Chem. 141, 143, 187, 189.

 Lippincott.
- Chem. 289. Selected Topics in Advanced Colloid Chemistry (2). Two lectures a week. Prerequisite, Chem. 285.
- Chem. 295. Heterogenous Equilibria (2). Two lectures a week. Pickard.
- Chem. 299. Reaction Kinetics (3). Three lectures per week. Svirbely.
- Chem. 303. Electrochemistry (3). Three lectures a week. Pickard.
- Chem. 304. Electrochemistry Laboratory (2). Two three-hour laboratory periods a week. Prerequisite, consent of instructor. Svirbely.
- Chem. 307. Chemical Thermodynamics (3). Three lectures a week. Pickard.
- Chem. 311. Physicochemical Calculations (2). Two lectures a week. Pickard.
- Chem. 313. Molecular Structure (3). Three lectures a week.
- Chem. 317. Chemical Crystallography (3). Three lectures per week. Prerequisite, consent of Instructor.

 Brown.
- Chem. 321. Quantum Chemistry (3). Three lectures a week. Prerequisite,
 Chem. 307, or equivalent.
- Chem. 323. Statistical Mechanics and Chemistry (3). Three lectures a week.

 Prerequisite, Chem. 307 or equivalent.

 Brown.

F. Seminar and Research

- Chem. 351. Seminar (1). First and second semesters. Staff.
- Chem. 360. Research. First and second semesters, summer session. Staff.

CIVIL ENGINEERING

- Professors Steinberg, Allen, Otts; Associate Professors Barber, Blackburn, Cournyn, Gohr, Wedding; Assistant Professor Piper.
 - The Civil Engineering Department offers graduate work in the following

fields: highways, hydraulics, soils and foundations, structures, and sanitary engineering, leading to the degree of Master of Science.

FOR GRADUATES AND ADVANCED UNDERGRADUATES

- C. E. 100. Theory of Structures (4). Three lectures and one laboratory period a week, second semester. Prerequisite, Mech. 50. Piper.
- C. E. 101. Soil Mechanics (3). Two lectures and one laboratory period a week, first semester. Prerequisites, Mech. 50 and 53.
 Barber.
- C. E. 102. Structural Design (6). Five lectures and one laboratory period a week, first semester. Prerequisite, C. E. 100.
 Allen.
- C. E. 103. Concrete Design (6). Five lectures and one laboratory period a week, second semester. Prerequisite, C. E. 100.

 Allen.
- C. E. 104. Water Supply (3). Two lectures and one laboratory period a week, first semester. Prerequisite, C. E. 50.
- C. E. 105. Sewerage (3). Two lectures and one laboratory period a week, second semester. Prerequisite, C. E. 50.
- C. E. 106. Elements of Highways (3). Two lectures and one laboratory period a week, second semester. Prerequisite, C. E. 101. Barber.
- C. E. 107. Statically Indeterminate Structures (3). First or second semesters.

 Prerequisite, C. E. 100 or equivalent.

 Allen, Piper.
- C. E. 108. Photogrammetry (3). Two lectures and one laboratory period a week, first or second semester. Prerequisite, Surv. 50. Gohr.
- C. E. 109. Hydrology (3). Two lectures and one laboratory a week, first or second semester. Prerequisite, C. E. 50.

FOR GRADUATES

- C. E. 200. Advanced Properties of Materials (3). First or second semester. Prerequisite, Mech. 53 or equivalent. Wedding.
- C. E. 201. Advanced Strength of Materials (3). First or second semester. Prerequisites, Mech. 50, or equivalent. Wedding.
- C. E. 202. Experimental Stress Analysis (3). Two lectures and one laboratory period a week, first or second semester. Prerequisite, C. E. 201 or permission of instructor. Wedding.
- C. E. 203. Soil Mechanics (3). First or second semester. Prerequisite, C. E. 101 or equivalent.
 Barber.
- C. E. 204. Advanced Foundations (3). First or second semester. Prerequisites,
 C. E. 101, 102 and 103 or equivalent.

 Barber.
- C. E. 205. Highway Engineering (3). First or second semester. Prerequisite,
 C. E. 106 or equivalent.

 Barber.
- C. E. 206. Theory of Concrete Mixtures (3, 3). First and second semesters. Prerequisite, Mech. 53 or equivalent. Wedding.

- C. E. 207. Advanced Structural Analysis (3). First or second semester. Prerequisite, C. E. 107, or equivalent. Allen, Piper.
- C. E. 208. Advanced Sanitation (3). First or second semester. Otts.
- C. E. 209. Advanced Water Supply (3). First or second semester. Prerequisite, C. E. 104 or equivalent.
- C. E. 210. Advanced Sewerage (3). First or second semester. Prerequisite,
 C. E. 105 or equivalent.
- C. E. 211. Sanitary Engineering Design (3). First or second semester. Prerequisites, C. E. 104, 105 or equivalent.

 Otts.
- C. E. 212. Research. Credit in accordance with work done. First and second semesters.
- C. E. 213. Seminar. First or second semester. Credit in accordance with work outlined by the civil engineering staff.

 Staff.
- C. E. 214. Sanitary Engineering Laboratory (3). First or second semester. Prerequisite, C. E. 104 and C. E. 105 or equivalent.
 Otts.
- C. E. 215. Sanitary Engineering Laboratory (3). First or second semester. Prerequisite, C. E. 104 and 105 or equivalent. Otts.
- C. E. 216. Hydraulic Engineering (3). First or second semester. Prerequisite,
 C. E. 50 or equivalent. Cournyn.
- C. E. 217. Hydraulic Machinery (3). First or second semester. Prerequisite, C. E. 50 or equivalent. Cournyn.
- C. E. 218. Advanced Structural Design (3). First or second semester. Prerequisite, C. E. 102, 103 or equivalent. Allen.
- C. E. 219. Sanitary Engineering Design (3). First or second semester. Prerequisite, C. E. 104, 105 or equivalent. Otts.
- C. E. 220. Soil Mechanics Laboratory (3). One lecture and two laboratory periods a week, first or second semester. Prerequisite, C. E. 101 or equivalent.

 Barber.

COMPARATIVE LITERATURE

Professors Aldridge, Falls, Goodwyn, Harman, Murphy, Prahl, Zeeveld, Zucker; Lecturer McManaway; Associate Professors Cooley, Manning, Mooney, Weber; Assistant Professors Andrews, Gravely, Parsons.

FOR GRADUATES AND ADVANCED UNDERGRADUATES

- Comp. Lit. 101, 102. Introductory Survey of Comparative Literature (3, 3).

 First and second semester. Zucker.
- Comp. Lit. 103. The Old Testament as Literature (3). Second semester.

Zucker.

Comp. Lit. 105. Romanticism in France (3). First semester. Parsons.

Comp. Lit. 106. Romanticism in Germany (3). Second semester. Prahl.

Comp. Lit. 107. The Faust Legend in English and German Literature (3).

First semester.

Prahl.

Comp. Lit. 112. Ibsen (3). First semester.

Zucker.

Comp. Lit. 114. The Greek Drama (3). First semester.

Prahl.

Comp. Lit. 125. Literature of the Middle Ages.

Cooley.

In addition, the following courses will count as credit in Comparative Literature: Eng. 104, Eng. 113, Eng. 121, Eng. 129, 130, Eng. 144, Eng. 145, Eng. 155, 156, Eng. 157; Span. 109; Speech 131, 132.

FOR GRADUATES

Comp. Lit. 258. Folklore in Literature (3). Second semester. Goodwyn.

The following courses will count as credit in Comparative Literature: Eng. 201, Eng. 204, Eng. 206, 207, Eng. 216, 217, Eng. 227, 228; Ger. 203, Ger. 204, Ger. 208.

DAIRY

Professors Beck, Shaw, Arbuckle; Associate Professors Mattick, Keeney;
Assistant Professor Davis

The Dairy Department offers work leading to the degrees of Master of Science and Doctor of Philosophy. Candidates for the Doctor of Philosophy degree have the option of studying in one of two major fields; Dairy Production, which is concerned with breeding, nutrition and physiology of dairy animals, or Dairy Technology, which is concerned with the chemical, bacteriological and nutritional aspects of dairy products, as well as the practical industrial phases of milk processing.

- Dairy 101. Dairy Production (3). Two lectures and one laboratory period a week, first semester. Prerequisites, Dairy 1 and A. H. 110. Davis.
- Dairy 103. Physiology of Milk Secretion (3). Second semester. Two lectures and one laboratory period per week. Prerequisites, Zool. 1, Organic Chemistry. (Alternate years, given in 1955-56.) The anatomy, evolution and metabolism of the mammary gland including hormonal control and the biosynthesis of milk constituents.

 Shaw.
- Dairy 105. Dairy Cattle Breeding (3). Two lectures and one laboratory period a week, second semester. Prerequisites, Dairy 1, Zool. 104. Beck.
- Dairy 108. Dairy Technology (4). Two lectures and two laboratory periods a week, first semester. Prerequisites, Dairy 1, Bact. 133, Chem. 1, 3. Laboratory fee, \$3.00.

 Mattick.
- Dairy 109. Market Milk (4). Two lectures and two laboratory periods a week, first semester. Prerequisites, Dairy 1, Bact. 133, Chem. 1, 3. Laboratory fee, \$3.00.

 Arbuckle.
- Dairy 110. Butter and Cheese Making (3). One lecture and one five-hour lab-

oratory period a week, second semester. Laboratory fee, \$3.00. Prerequisites, Dairy 1, Bact. 1, Chem. 1, 3. (Alternative years, not given in 1953-1954.)

- Dairy 111. Concentrated Milk Products (3). One lecture and one five-hour laboratory period a week, second semester. Prerequisites, Dairy 108, 114. Alternate years, given in 1953-1954. Laboratory fee, \$3.00.
- Dairy 112. Ice Cream Making (4). Two lectures and two laboratory periods a week, second semester. Laboratory fee, \$3.00. Prerequisites, Dairy 108. Arbuckle.
- Dairy 114. Special Laboratory Methods (3). Two lectures and two laboratory periods a week, second semester. Prerequisites, Dairy 108, Bact. 133, Chem. 19, 31, 32, 33, 34. Laboratory fee, \$3.00. Keenev.
- Dairy 115. Quality Control in the Dairy Industry (3). First semester. Two lectures and one laboratory period a week. Prerequisite, Dairy 109. Application of quality control methods in relation to dairy ordinances, standards and farm and plant inspection. Laboratory fee, \$3.00. Mattick.
- Dairy 116. Dairy Plant Management (3)—Second semester. Three lecture Prerequisites, at least three advanced dairy products periods a week. technology courses.

Principles of dairy plant management, record systems; personnel, plant design and construction; dairy machinery and equipment.

- Dairy 201. Advanced Ruminant Nutrition (3). First Semester. Three onehour lectures per week. Prerequisites, A. H. 110 or Dairy 101, Organic Chemistry and permission of Department. (Alternate years, given in 1956-57.) Biochemical, physiological and bacteriological aspects of the nutrition of ruminants and other animals. Shaw and Davis.
- Dairy 202. Advanced Dairy Technology (3). First semester. Dairy 108, 114, or equivalent. Keeney.
- Dairy 204. Special Problems in Dairying (1-5). First and second semesters. Prerequisite, permission of professor in charge of work. Staff.
- Dairy 205. Seminar (1). First and second semesters. Staff.
- Dairy 206. Advanced Dairy Research Seminar (1). Second semester. Discussion of fundamental research in dairy science. Staff.
- Dairy 208. Research (3-8). Credit to be determined by amount and quality of work done. Staff.

ECONOMICS

Professors Dillard, Gruchy; Associate Professors Grayson, Gurley, Hamburg; Assistant Professors Dalton, Measday, Smith, Yeager; Instructors Dawson, Leary, Shelby.

MASTER OF ARTS

Requirements for the Master's degree include (1) course work in economics as the Department deems appropriate in view of the candidate's previous training, (2) course work in a minor subject, (3) a thesis on a topic approved by the Department, and (4) a comprehensive oral examination covering the major and the minor subjects and defense of the thesis.

DOCTOR OF PHILOSOPHY

The Ph.D. degree in Economics is under the joint direction of the faculties of the Department of Economics and the Department of Business Organization and Administration. Before being advanced to candidacy doctoral students must pass comprehensive written and oral examinations in five of the following fields: (1) Accounting, (2) Comparative Economic Systems and Economic Planning, (3) Economic Development, (4) Economic Theory (required), (5) Financial Administration, (6) History of Economic Thought (required), (7) Industrial Administration, (8) Insurance and Real Estate, (9) International Economics, (10) Labor and Industrial Relations, (11) Marketing, (12) Money and Banking, (13) Public Finance and Fiscal Policy, (14) Public Utilities and Social Control of Business, (15) Transportation, (16) Any other field, including the minor, approved by the faculty. Students should consult with members of the faculty concerning the choice of fields and the choice of courses within these fields.

Six semester hours of Statistics with grades of "B" or better must be presented. Normally the foreign language requirements are taken before the comprehensive examinations.

Further information concerning requirements and procedures may be obtained from the Departments administering the program.

- Econ. 131. Comparative Economic Systems (3). First and second semesters.

 Prerequisite, Econ. 32 or 37.

 Gruchy.
- Econ. 132. Advanced Economic Principles (3). First and second semesters.

 Prerequisite, Econ. 32. Grayson.
- Econ. 134. Contemporary Economic Thought (3). First semester. Prerequisite, Econ. 32. Gruchy.
- Econ. 136. International Economic Policies and Relations (3). First semester.

 Prerequisite, Econ. 32 or 37.

 Yeager.
- Econ. 137. The Economics of National Planning (3). Second semester. Prerequisite, Econ. 32 or 37.

 Gruchy.
- Econ. 140. Money and Banking (3). First and second semesters. Prerequisite, Econ. 32 or 37. Gurley and Staff.
- Econ. 141. Theory of Money, Credit, and Prices (3). Second semester. Prerequisites, Econ. 32 and 140.

 Gurley.
- Econ. 142. Public Finance and Taxation (3). First and second semesters.

 Prerequisite, Econ. 32 or 37.

 Grayson.
- Econ. 147. Business Cycles (3). First semester. Prerequisite, Econ. 140.

 Hamburg.
- Econ. 149. International Finance and Exchange (3). Second semester. Prerequisite, Econ. 140. Econ. 136 recommended. Yeager.

- Econ. 160. Labor Economics (3). First and second semesters. Prerequisite, Econ. 32 or 37.
- Econ. 170. Monopoly and Competition (3). Second semester. Prerequisite, Econ. 32 or 37.
- Econ. 171. Economics of American Industries (3). First and second semesters.

 Prerequisite, Econ. 32 or 37.

 Clemens.

- Econ. 200. Micro-Economic Analysis (3). Second semester. Prerequisite,
 Econ. 132 or equivalent. Grayson.
- Econ. 202. Macro-Economic Analysis (3). First semester. Prerequisite, Econ. 132. Recommended Econ. 141. Dillard.
- Econ. 204, 205. Seminar in Economic Development (3, 3). First and second semesters.
- Econ. 230. History of Economic Thought (3). First semester. Prerequisite, Econ. 132 or consent of instructor.

 Dillard.
- Econ. 231. Economic Theory in the Nineteenth Century (3). Second semester.

 Prerequisite, Econ. 230 or consent of instructor.

 Dillard.
- Econ. 232, 233. Seminar in Institutional Economic Theory (3, 3). First and second semesters. Prerequisite, Econ. 132 or consent of instructor. Gruchy.
- Econ. 236. Seminar in International Economic Relations (3).
- Econ. 237. Seminar in Economic Investigation (3).
- Econ. 240. Seminar in Monetary Theory and Policy (3). First semester.

Gurley.

- Econ. 247. Economic Growth and Instability (3). Second semester. Prerequisite, A course in Business Cycles or consent of instructor. Hamberg.
- Econ. 270. Seminar in Economics and Geography of American Industries (3).

 Clemens.
- Econ. 299. Thesis. Arranged.

Staff.

EDUCATION

Professors Anderson, Brechbill, Brown, Cotterman, Hornbake, Hovet, Kurtz, McNaughton, Mershon, Mohr, Morgan, Newell, Prescott, Schindler, VanZwoll, Wiggin; Associate Professors Blough, Bryan, Byrne, Gordon, Maley, O'Neill, Patrick, Perkins, Schneider, Thompson, Waetjen, Wood, Woods; Assistant Professors Brandt, Spencer, Stanger, Tierney.

The Department of Education offers Graduate School programs leading to the Master of Arts, Master of Education, Doctor of Philosophy, and Doctor of Education degrees.

MASTER OF ARTS AND MASTER OF EDUCATION

A student in Education has the option of qualifying for the degree of Master of Arts or Master of Education.

In addition to the general requirements for admission to the Graduate

School, applicants for unconditional admission with a major in Education must have had sixteen semester hours of acceptable undergraduate work in Education.

The time limit for completing either degree is the same as that prescribed for the Master of Arts and the Master of Science degrees of the Graduate School.

A qualifying written examination is required of all candidates for a degree. The examination may be taken any time after the student has successfully completed at least 12 semester hours of satisfactory graduate work at the University of Maryland. This examination covers the student's major area of work for the degree. Following is a list of the areas in which this examination may be taken:

Adult Education
Business Education
Educational Administration and
Supervision
Elementary School Curriculum and
Instruction
Guidance and Personnel
Higher Education

History, Philosophy, and Comparative Education
Home Economics Education
Secondary School Curriculum and
Instruction
Human Growth and Development
Industrial Arts Education
Nursing Education
Vocational Industrial Education

Reading lists in the several areas are available from the professors in charge of the areas. No student is recommended to the Graduate Council for advancement to candidacy until he has successfully passed the qualifying examination. Currently the examination is administered on the third Saturday of January and May and on the Saturday preceding the last week of the Summer Session. A student failing the examination may repeat it. However, a student is not allowed to take the examination more than three times.

DOCTOR OF PHILOSOPHY AND DOCTOR OF EDUCATION

Each candidate is required to achieve exceptional ability in at least one major area and one minor area of competence.

The candidate should choose his major from the following list of areas:

Curriculum and Instruction
Educational Administration
and Supervision
Elementary Education
Guidance

*Physical Education, Recreation, and Health

History, Philosophy, and Comparative Education Human Development Education Industrial Arts Education Secondary Education Vocational-Industrial Education

Minors may be chosen from fields other than Education as approved by the Committee on Candidacy, from the foregoing list of major areas, or from the following list:

Adult Education
**Agricultural Education
Business Education

Higher Education Home Economics Education

^{*}The Ph.D. program in this area is administered under a separate department of the Graduate School.

**Administered under a separate department of the Graduate School.

In addition to the general University requirements for a Doctor's degree, the following requirements must be met:

- 1. The preliminary examination for admission to candidacy for the Doctor's degree will cover the student's preparation in major and minor fields, and will include such other examinations as may be required by the faculty. A student must be admitted to candidacy in order to have the department's official permission to be a candidate for a Doctor's degree.
- 2. A comprehensive examination covering the general fields of major and minor study must be passed by each candidate, after which the final examination is administered by a committee appointed by the Dean of the Graduate School.

In general the requirements for the Doctor of Education degree are the same as those for the degree Doctor of Philosophy. The most important differences between the two degrees are as follows:

- 1. The purpose of the Doctor of Education degree is to prepare persons of exceptional competence to work in the field. The emphasis for this degree is placed on broad understanding, whereas that for the degree of Doctor of Philosophy is placed on specialized research.
- 2. A reading knowledge of foreign languages is required for the degree of Doctor of Education only when needed for research and study in the doctoral program.
- 3. In order to meet the residence requirements, a candidate for the Ph.D. degree must spend at least two semesters in full-time study on the College Park campus. A candidate for the Ed.D. degree may substitute two summers of residence for one semester of residence, or four summers for two semesters.
- 4. The doctoral study for the Ed.D. consists of a project rather than a dissertation. The project requires research to meet a practical field problem. Credit of six to nine hours is allowed for a project as compared with twelve to eighteen hours for a Ph.D. dissertation.

- Mus. Ed. 209. Seminar in Instrumental Music (2).
- Mus. Ed. 210. Seminar in Advanced Orchestration and Band Arranging (2).

H. Nursing Education

Courses in nursing offered by the School of Nursing.

I. Science Education

Sci. Ed. 105. Workshop in Science for Elementary Schools (2). Summer School. Laboratory fee, \$2.00.

ELECTRICAL ENGINEERING

Professors Corcoran, Reed, Weber; Lecturers Ahrendt, Freeman, Vanderslice, Trent; Associate Professors Wagner, Price.

Maxwell's Equations, E. E. 120, or Radio Wave Propagation, E. E. 215, is required of all candidates for the Master of Science degree in electrical engineering. Electromagnetic Theory, E. E. 201, is required of all candidates unless permission for an appropriate substitution is granted.

A written qualifying examination is required of all candidates for the Master's degree in electrical engineering. This examination will be held Saturday, October 13, 1956. Off-Campus and part-time students must have satisfactorily completed a minimum of nine semester hours of graduate course work

before being admitted to the written qualifying examination. Full-time students having less than nine semester hours of graduate course work are permitted to take this examination by special arrangement. The student must have been admitted to the graduate school before taking this examination.

Students working toward the Master of Science degree in electrical engineering must take a minimum of six semester hours of course work from resident professors of electrical engineering. Students working toward the Doctor of Philosophy degree must take a minimum of twenty-four semester hours of course work from resident professors of electrical engineering; students presenting a minor in electrical engineering must include at least six semester hours of electrical engineering from resident professors.

- E. E. 100. Alternating-Current Circuits (4). Three lectures and one laboratory period a week, first semester. Laboratory fee, \$4.00. Prerequisites, Math. 21, Phys. 21, and E. E. 1.

 Price, Simons.
- E. E. 101. Engineering Electronics (5). Four lectures and one laboratory period a week, second semester. Laboratory fee, \$4.00. Price, Simons.
- E. E. 102. Alternating-Current Machinery (4). Three lectures and one laboratory period a week, first semester. Laboratory fee \$4.00. Prerequisites, E. E. 65 and E. E. 100. Hodgins.
- E. E. 104. Communication Circuits (4). Four lectures a week, second semester. Prerequisites, E. E. 60 and E. E. 100.
- E. E. 105, 106. Radio Engineering (4, 4). Three lectures and one laboratory period a week, first and second semesters. Laboratory fee, \$4.00. Prerequisite, E. E. 101.
- E. E. 107. Electrical Measurements (4). Three lectures and one laboratory period a week, second semester. Laboratory fee, \$4.00. Prerequisites, E. E. 100 and Math. 64.
- E. E. 108. Electric Transients (3). Three lectures a week, first semester. Prerequisite, E. E. 101 and Math. 64. Reed, Price.
- E. E. 109. Pulse Techniques (3). Three lectures a week, second semester.

 Prerequisite, E. E. 105.

 Schulman.
- E. E. 110. Transistor Circuitry (3). Three lectures a week, second semester.

 Prerequisite, E. E. 101. Corcoran, Reed.
- E. E. 114. Applied Electronics (3). Three lectures a week, first semester.

 Prerequisite, E. E. 101.

 Staff.
- E. E. 115. Feedback Control Systems (3). Two lectures and one laboratory period a week, second semester. Laboratory fee, \$4.00. Prerequisite, E. E. 101 and E. E. 108.
- E. E. 116. Alternating-Current Machinery Design (3). Two lectures and one calculation period a week, second semester. Prerequisite, E. E. 102. Reed.

- E. E. 117. Power Transmission and Distribution (3). Three lectures a week, first semester. Prerequisite, concurrent registration in E. E. 102. Reed.
- E. E. 120. Maxwell's Equations (3). Three lectures a week, second semester.

 Prerequisite, Math. 64 and senior standing in electrical engineering or physics.

 Reed.
- E. E. 160, 161. Vacuum Tubes (3, 3). Three lectures a week, first and second semesters. Prerequisite, Math. 64 and senior standing in electrical engineering or physics.
 Weber.

- E. E. 200. Symmetrical Components (3). Three lectures a week, first semester.

 Prerequisite, E. E. 102. Reed.
- E. E. 201. Electromagnetic Theory (3). Three lectures a week, second semesester. Prerequisite, E. E. 120 or E. E. 215. Required of M. S. degree candidates in electrical engineering.

 Weber.
- E. E. 202, 203. Transients in Linear Systems (3, 3). Three lectures a week, first and second semesters. Prerequisite, undergraduate major in electrical or mechanical engineering or physics. Required of M. S. degree candidates in electrical engineering. Wagner.
- E. E. 204. Advanced Circuit Analysis (3). Three lectures a week, first semester. Prerequisite, undergraduate major in electrical engineering or physics.

 Reed, Price.
- E. E. 206, 207. Microwave Engineering (3, 3). Three lectures a week, first semester; two lectures and one laboratory period a week, second semester. Laboratory fee, second semester, \$4.00. Prerequisite, E. E. 201.

 Weber.
- E. E. 209. Stability in Power Systems (3). Three lectures a week, second semester. Prerequisite, E. E. 200.
- E. E. 212, 213. Automatic Regulation (3, 3). Three lectures a week, first and second semesters. Prerequisite, undergraduate major in electrical or mechanical engineering or physics.

 Ahrendt.
- E. E. 215, 216. Radio Wave Propagation (3, 3). Three lectures a week, first and second semesters. Prerequisite, undergraduate major in electrical engineering, physics, or mathematics. Either E. E. 120 or E. E. 215 required of M.S. degree candidates in electrical engineering.
- E. E. 218, 219. Signal Analysis and Noise (3, 3). Three lectures a week, first and second semesters. Prerequisite, undergraduate major in electrical engineering or physics.

 Weber, Freeman.
- E. E. 222. Graduate Seminar (1). Second semester. Prerequisite, approved application for candidacy to the degree of Master of Science or Doctor of Philosophy in electrical engineering.

 Graduate Staff.
- E. E. 232. Active Network Analysis (3). Three lectures a week, second semester. Prerequisite, E. E. 202 or E. E. 204. Corcoran, Vanderslice.

- E. E. 233. Network Synthesis (3). Three lectures a week, first semester.

 Prerequisite, E. E. 232 or consent of instructor.

 Corcoran, Vanderslice.
- E. E. 235. Applications of Tensor Analysis (3). Three lectures a week, first semester. Prerequisite, E. E. 202. Wagner.
- E. E. 250. Electrical Engineering Research. Prerequisite, approved application for candidacy to the degree of Master of Science or Doctor of Philosophy in electrical engineering. Six semester hours are required of M.S. degree candidates and a minimum of 18 semester hours are required of Ph.D. candidates.

 Graduate Staff

ENGLISH LANGUAGE AND LITERATURE

Professors Murphy, Aldridge, Bode, Harman, McManaway (P.T.), Zeeveld; Associate Professors Ball, Cooley, Manning, Mooney, Ward, Weber; Assistant Professors Andrews, Coulter, Fleming, Gravely, Lutwack, Mish, Schaumann.

MASTER OF ARTS

- 1. Students must demonstrate a reading knowledge of French or German before they will be recommended for admission to candidacy.
- 2. Candidates must pass a final written examination covering the English language and the whole course of English and American literature.

DOCTOR OF PHILOSOPHY

- 1. Students must demonstrate a reading knowledge of German and French before they will be permitted to take the preliminary qualifying examination.
- 2. Students must pass a preliminary qualifying examination before they will be recommended for admission to candidacy. They are expected to take this examination by the time they have completed a full year of residence beyond the Master of Arts requirement.
- 3. Candidates must pass a comprehensive written examination covering linguistics and the whole course of English and American literature.
- Eng. 101. History of the English Language (3). Second semester. Summer School (2).
- Eng. 102. Old English (3). First semester. Summer School (2). Ball.
- Eng. 103. Beowulf (3). Second semester.

Нагтап.

Ball.

- Eng. 110, 111. Elizabethan and Jacobean Drama (3, 3). First and second semesters. Zeeveld.
- Eng. 112. The Poetry of the Renaissance (3). (Not offered 1956-1957.)

 Zeeveld.
- Eng. 113. Prose of the Renaissance (3). (Not offered 1956-1957.)

Eng. 104. Chaucer (3). First semester. Summer School (2).

Zeeveld, Mish.

Eng. 115, 116. Shakespeare (3, 3). First and second semesters. Summer School (2, 2). Zeeveld.

- Eng. 120. English Drama from 1660 to 1800 (3). Second semester. Ward.
- Eng. 121. Milton (3). Second semester. Summer School (2). Murphy.
- Eng. 122. Literature of the Seventeenth Century, 1600-1660 (3). First semester.

 Murphy.
- Eng. 123. Literature of the Seventeenth Century, 1660-1700 (3). Second semester.

 Aldridge.
- Eng. 125, 126. Literature of the Eighteenth Century (3, 3). Eng. 125, Summer School (2). (Not offered 1956-1957.)

 Aldridge.
- Eng. 129, 130. Literature of the Romantic Period (3, 3). Summer School (2, 2). (Not offered 1956-1957.) Weber.
- Eng. 134, 135. Literature of the Victorian Period (3, 3). First and second semesters. Summer School (2, 2). Cooley, Mooney.

 Aldridge.

ENTOMOLOGY

Professors Cory, Ditman, Langford; Lecturers Munson, Sailer, Shepard; Associate Professors Bickley, Bissell, Graham, McConnell Assistant Professors Abrams, Haviland.

The Department of Entomology offers work toward the degrees of Master of Science and Doctor of Philosophy.

For Graduates and Advanced Undergraduates

- Ent. 100. Advanced Apiculture (3). One lecture and two three-hour laboratory periods a week, second semester. Prerequisite, Ent. 4. Laboratory fee, \$3.00.

 Abrams.
- Ent. 101. Economic Entomology (3). Second semester. Prerequisite, consent of the Department.
- Ent. 105. Medical Entomology (3). Two lectures and one two-hour laboratory period a week, first semester. Prerequisite, Ent. 1 or consent of the Department. Laboratory fee, \$3.00.
- Ent. 106. Advanced Insect Taxonomy (3). Two three-hour laboratory periods a week, first semester. Prerequisite, Ent. 3. Laboratory fee, \$3.00. Bickley.
- Ent. 107. Insecticides (2). Second Semester. Prerequisite, consent of the Department. Shepard.
- Ent. 109. Insect Physiology (2). Two lectures and occasional demonstrations, second semester. Prerequisite, consent of the Department. Munson.
- Ent. 110, 111. Special Problems (1, 1). First and second semesters. Prerequisites, to be determined by the Department. Cory and Staff.

- Ent. 112. Seminar (1). First and second semesters. Cory and Staff.
- Ent. 113. Entomological Literature (1). Second semester. (Not offered in 1956-1957).
- Ent. 115. Quarantine Procedures (2). First semester. Prerequisite, consent of the department. (Not offered in 1956-57.)
- Ent. 116. Insect Pest of Ornamentals and Greenhouse Plants (3). Two lectures and one two-hour laboratory period a week, second semester. Prerequisite, Ent. 1 or consent of the department. Laboratory fee, \$3.00.

 Haviland.
- Ent. 117. Insect Pests of Field Crops and Stored Products (2). One lecture and one two-hour laboratory period a week, first semester. Prerequisite, Ent. 1 or consent of the department. Laboratory fee, \$3.00.

 Cory and Bickley.
- Ent. 118. Insect Pests of Fruit and Vegetable Crops (3). Two lectures and one two-hour laboratory period a week, second semester. Prerequisite, Ent. 1 or consent of the department. Laboratory fee, \$3.00. (Not offered in 1956-57.)
- Ent. 119. Insect Pests of Domestic Animals (2). One lecture and one two-hour laboratory period a week, first semester. Prerequisite, Ent. 1 or consent of the department. Laboratory fee, \$3.00.

For Graduates

- Ent. 201. Advanced Entomology. Credit and prerequisites, to be determined by the department. First and second semesters. Cory and Staff.
- Ent. 202. Research.

Cory and Staff.

- Ent. 203. Advanced Insect Morphology (2). One lecture and one three--hour laboratory period a week, second semester. Laboratory fee, \$3.00. Bickley.
- Ent. 205. Insect Ecology (2). One lecture and one two-hour laboratory period a week, first semester. Laboratory fee, \$3.00. Prerequisite, consent of the department.
- Ent. 206. Bionomics of Mosquitoes (2). One lecture and one three-hour laboratory period a week, second semester. Laboratory fee, \$3.00. (Alternates with Ent. 203; not offered in 1956-57.)

FOREIGN LANGUAGES AND LITERATURE

Professors Zucker, Falls, Prahl, Cunz, L. P. Smith, Goodwyn, Associate Professor Quynn; Assistant Professors Parsons, Rand, Rosenfield.

Master of Arts

Candidates must pass, in addition to written examinations in the courses pursued, a written examination based on the reading lists in their respective fields of French, German and Spanish, established by the Department. The examin-

ation will test the general familiarity of the candidate with his respective field and his powers of analysis and criticism. The oral examination will deal chiefly with the field of his thesis.

Doctor of Philosophy

Candidates must pass a comprehensive written examination at least three months before the degree is awarded. This examination will include linguistics and each of the major literary fields.

Attention is called to the courses in Comparative Literature listed on page 70.

A. French

FOR GRADUATES AND ADVANCED UNDERGRADUATES

- French 0. Intensive Elementary French (0). Intensive elementary course in the French language designed particularly for graduate students who wish to acquire a reading knowledge. (Staff.)
- French 100. French Literature of the Sixteenth Century (3). First semester.

 Falls
- French 101, 102. French Literature of the Seventeenth Century (3,). Three hours a week, first and second semesters. Quynn, Rosenfield.
- French 103, 104. French Literature of the Eighteenth Century (3, 3). Three hours a week, first and second semesters. Falls, Bingham.
- French 105, 106. French Literature of the Nineteenth Century (3, 3). Three hours a week, first and second semesters.

 Bingham, Quynn.
- French 107, 108. French Literature of the Twentieth Century (3, 3). Three hours a week, first and second semesters. Falls.
- French 121, 122. Advanced Composition (3, 3). Three hours a week, first and second semesters. Fails.
- French 161, 162. French Civilization (3, 3). First and second semesters.

Rosenfield.

- French 171. Practical French Phonetics (3). First semester. Smith.
- French 199. Rapid Review of the History of French Literature (1). Second semester. Especially designed for French majors. Weekly lectures. Falls

FOR GRADUATES

The requirements of students will determine which courses will be offered.

- French 201. Research. Credit determined by work accomplished. Staff.
- French 203, 204. George Duhamel, Poet, Dramatist, Novelist (2,). Two hours a week, first and second semesters. Falls.
- French 205, 206. French Literature of the Middle Ages (3, 3). Three hours a week, first and second semesters.

- French 207, 208. The French Novel in the First Half of the Nineteenth Century (2, 2). Two hours a week, first and second semesters. Falls.
- French 209, 210. The French Novel in the Second Half of the Nineteenth Century (2, 2). Two hours a week, first and second semesters. Falls.
- French 211. Introduction to Old French (3). Second semester. Smith.
- French 215, 216. Moliere (3, 3). First and second semesters. Quynn.
- French 221, 222. Reading Course. (Arranged.) Staff.
- French 230. Introduction to European Linguistics (3).

French 251, 252. Seminar (3, 3). Required of all graduate majors in French.

Staff.

B. German

FOR GRADUATES AND ADVANCED UNDERGRADUATES

- German 0. Intensive Elementary German (0.) Intensive elementary course in the German language designed particularly for graduate students who wish to acquire a reading knowledge.

 Staff.
- German 101, 102. German Literature of the Eighteenth Century (3, 3). Three hours a week, first and second semesters. Prahl, Schweizer.
- German 103, 104. German Literature of the Nineteenth Century (3, 3). Three hours a week, first and second semesters.

 Prahl, Cunz.
- Grman 105, 106. Modern German Literature (3, 3). Three hours a week, first and second semesters.

 Prahl, Hammerschlag.
- German 107, 108. Goethe's' Faust (2, 2). Two hours a week, first and second semesters.

 Zucker.

Attention is called to Comp. Lit. 106, Romanticism in Germany, and Comp. Lit. 107, The Faust Legend in English and German Literature.

- German 121, 122. Advanced Composition (3, 3). Three hours a week, first and second semesters. Kramer, Cunz.
- German 161, 162. German Civilization (3, 3). Three hours a week, first and second semesters.
- German 199. Rapid Review of the History of German Literature (1). Second semester. Especially designed for German majors. Weekly lectures.

Schweizer.

Smith

FOR GRADUATES

The requirements of students will determine which courses will be offered.

GEOGRAPHY

Professors Van Royen, Hu; Consulting Professors Roterus, Whipple; Lecturers with rank of Professor Lemons, McBryde; Associate Professors Augelli, Patton; Assistant Professor Karinen.

Students seeking graduate degrees in geography are expected to have acquired a broad foundation in the subject and in allied fields. This foundation must have included a minimum of 24 semester hours in geography, of which 6 semester hours shall have been in Morphology and Map Reading and Interpretation, 6 semester hours in Weather and Climate, and 12 semester hours in Human, Economic, or Regional Geography. In addition the student must have taken successfully the following courses, or their equivalents, in allied fields; Anthropology (3 semester hours), Economics (6 semester hours), History (6 semester hours), Introductory or General Botany (3 semester hours), Sociology (3 semester hours), Foreign Language (12 semester hours). Students who do not have this background will be accepted as graduate students in a provisional status only and will be required to make up their deficiencies before being admitted to candidacy for an advanced degree. Graduate credit will not be given for courses taken to make up for deficiencies in background.

In addition to meeting the general requirements of the Graduate School, candidates for the Master's degree in geography are required to have taken successfully: one field course (Geography 170 or 200, or equivalent), a course in cartography, a course in soils, and one seminar. In addition to the final oral examination, the candidate for the Master's degree in geography is required to pass satisfactorily a written examination covering the fields in which he has worked, his understanding of basic principles, and his power of reasoning.

A graduate student seeking the Doctor of Philosophy degree in geography must take a comprehensive written and oral examination to determine whether he has sufficiently broad and profound knowledge and understanding of the entire field of geography to qualify as a candidate for the Doctor's degree.

- Geog. 100. Regional Geography of Eastern Anglo-America (3). First semester. Prerequisite, Geog. 1, 2 or Geog. 10 or permission of instructor. Patton.
- Geog. 101. Regional Geography of Western Anglo-America (3). Second semester. Prerequisite, Geog. 1, 2 or Geog. 10 or permission of instructor.

 Patton.
- Geog. 103. Geographic Concepts and Source Materials (2). First or second semester.

A comprehensive and systematic survey of geographic concepts designed exclusively for teachers. Stress will be placed upon the philosophy of geography in relation to the social and physical sciences, the use of the primary tools of geography, source materials, and the problems of presenting geographic principles.

Geog. 104. Geography of Major World Regions (2). First or second semester.

A geographic analysis of the patterns, problems, and prospects of the world's principal human-geographic regions, including Europe, Anglo-America, the Soviet Union, the Far East, and Latin America. Emphasis upon the causal factors of differentiation and the role geographic differences play in the interpretation of the current world scene. This course is designed especially for teachers.

Geog. 105. Geography of Maryland and Adjacent Areas (3.) First and second semesters. Prerequisite, permission of the instructor.

An analysis of the physical environment, natural resources, and population in relation to agriculture, industry, transport, and trade in the state of Maryland and adjacent areas.

Patton.

- Geog. 110. Economic and Cultural Geography of Caribbean America (3). First semester.

 Augelli.
- Geog. 111. Economic and Cultural Geography of South America (3). Second semester. Augelli.
- Geog. 120. Economic Geography of Europe (3). First semester.

Van Royen, Patton.

- Geog. 122. Economic Resources and Development of Africa (3). Second semester.
- Geog. 123. Problems of Colonial Geography (3). First or second semester.
- Geog. 130, 131. Economic and Political Geography of Southern and Eastern Asia (3, 3). First and second semesters.
- Geog. 134, 135. Cultural Geography of East Asia (3, 3). First and second semester.
- Geog. 140. Soviet Lands (3). First or second semester.

Geog. 146. The Near East (3). First semester.

Geog. 150. History and Theory of Cartography (3). Second semester.

The development of maps throughout history. Geographical orientation, coordinates, and map scales. Map projections, their nature, use, and limitations. Principles of representation of features on physical and cultural maps. Modern uses of maps and relationships between characteristics of maps and use types.

Geog. 151, 152. Cartography and Graphics Practicum (3, 3). First and second semesters. One hour lecture and two two-hour laboratory periods a week.

Techniques and problems of compilation, design, and construction of various types of maps and graphs. Relationship between map making and modern methods of production and reproduction. Trips to representative plants. Laboratory work directed toward cartographic problems encountered in making of non-topographic maps.

Karinen.

Geog. 153. Problems in Cartographic Representation and Procedure (3). First or second semester. Two hours lecture and two hours laboratory a week.

Study of cartographic compilation methods. Principles and problems of symbolization, classification, and representation of map data. Problems of representation of features at different scales and for different purposes. Place-name selection and lettering; stick-up and map composition.

Geog. 154. Problems of Map Evaluation (3). First or second semester. Two hours lecture and two hours laboratory a week.

Schools of topographic concepts and practices. Theoretical and practical means of determining map reliability, map utility, and source materials. Nature, status, and problems of topographic mapping in different parts of the world. Non-topographic special use maps. Criteria of usefulness for purposes concerned and of reliability.

Geog. 155. Problems and Practices of Photo Interpretation (3). First or second semester. Two hours of lecture and two hours of laboratory per week.

Interpretation of aerial protographs with emphasis on the recognition of landforms of different types and man-made features. Study of vegetation, soil, and other data that may be derived from aerial photographs. Types of aerial photographs and limitations of photo interpretation.

Geog. 160. Advanced Economic Geography I. Agricultural Resources (3). First semester. Prerequisite, Geog. 1 and 2, or Geog. 10.

The nature of agricultural resources, the major types of agricultural exploitation in the world, and the geographic distribution of certain major crops and animals in relation to the physical environment and economic geographic conditions. Main problems of conservation.

Van Royen.

Geog. 161. Advanced Economic Geography II. Mineral Resources (3). Second semester. Prerequisite, Geog. 1 and 2, or Geog. 10.

The nature and geographic distribution of the principal power, metallic and other minerals. Economic geographic aspects of modes of exploitation. Consequences of geographic distribution and problems of conservation.

Geog. 170. Local Field Course (3). First semester.

Karinen.

Geog. 180. History, Nature and Methodology of Geography (3). First semester.

Geog. 190. Political Geography (3). Second semester.

Geographical factors in national power and international relations; an analysis of the role of "Geopolitics" and "Geostrategy," with special reference to the current world scene.

Augelli.

Geog. 195. Geography of Transportation (3). Second semester.

The distribution of transport routes of the earth's surface; patterns of transport routes; the adjustment of transport routes and media to conditions of the natural environment; transportation centers and their distribution.

Patton,

Geog. 197. Urban Geography (3). First semester.

Origins of cities, followed by a study of the elements of site and location with reference to cities. The patterns and functions of some major world cities will be analyzed.

Theories of land use differentiation within cities will be appraised.

Patton.

Geog. 199. Topical Investigations (1-3). First and second semesters.

Independent study under individual guidance. Choice of subject matter requires joint approval of adviser and head of the Department of Geography.

Restricted to advanced undergraduate students with credit for at least 24 hours of geography.

Staff.

FOR GRADUATES

- Geog. 200. Field Course (3). Field work in September, conferences and reports during first semester. For graduate students in geography. Open to other students by special permission of the Head of the Department of Geography.
- Geog. 210, 211. Seminar in the Geography of Latin America (3, 3). First and and second semesters. Prerequisites, Geog. 110, 111 or consent of instructor.

 McBryde.
- Geog. 220, 221. Seminar in the Geography of Europe and Africa (3, 3). First and second semesters. Prerequisites, Geog. 120, 121 or consent of instructoral Van Royen.
- Geog. 230, 231. Seminar in the Geography of East Asia (3, 3). First and second semesters.

Analysis of problems concerning the geography of East Asia with emphasis on special research methods and techniques applicable to the problems of this area.

- Geog. 240, 241. Seminar in the Geography of the U.S.S.R. (3, 3). First and second semesters. Prerequisites, reading knowledge of Russian and Geog. 140 or consent of instructor.
- Geog. 246. Seminar in the Geography of the Near East (3).
- Geog. 250. Seminar in Cartography. (Credit to be arranged.) First or second semester.

 McBryde, Karinen.
- Geog. 260. Advanced General Climatology (3). First semester. Prerequisite, Geog. 41, or consent of instructor.
- Geog. 261. Applied Climatology (3). Second semester. Prerequisite, Geog. 41, or consent of instructor. Lemons.
- Geog. 262, 263. Seminar in Meteorology and Climatology. (3, 3). First and second semesters. Prerequisite, consent of instructor. Lemons.
- Geog. 280. Geomorphology (3). Second semester. Van Royen.
- Geog. 290. 291. Selected Topics in Geography (1-3). First and second se-

mesters. Prerequisite, joint consent of adviser and Head of the Department of Geography.

Geog. 292, 293. Dissertation Research. (Credit to be arranged.) First and second semesters and summer.

GOVERNMENT AND POLITICS

Professors Plischke, Burdette, and Steinmeyer; Associate Professors Bowen and Dixon; Assistant Professors Anderson and Harrison; Instructors Alford, Bundgaard, Friedman, Hathorn and Obern.

The Department of Government and Politics offers a graduate course of study leading to the degree of Master of Arts and the degree of Doctor of Philosophy. For the Master's degree, the student may either pursue a general program in Government and Politics, or he may specialize in international affairs or in public administration.

For the Master's degree, a comprehensive written examination is given on graduate course work in the major field. At the discretion of the Department, an oral examination may be substituted for the written examination.

The doctoral candidate must show in written examinations satisfactory competence in five of the following fields: (1) Comparative Government; (2) International Political Affairs; (3) Local Government; (4) Political Theory; (5) Public Administration; (6) Public Law; (7) Public Policy. No candidate may attempt the comprehensive examinations prior to completion of the language requirements for the doctorate, and no candidate may attempt the comprehensive examinations more than twice.

- G. & P. 101. International Political Relations (3). First semester. Prerequisite, G. & P. 1.
 Harrison.
- G. & P. 102. International Law (3). Second semester. Prerequisite, G. & P. 1.
 Harrison.
- G. & P. 105. Recent Far Eastern Politics (3). First semester. Prerequisite, G. & P. 1.
- G. & P. 106 American Foreign Relations (3). First semester. Prerequisite,
 G. & P. 1.

 Plischke.
- G. & P. 108. International Organization (3). Second semester. Prerequisite,
 G. & P. 1.

 Plischke.
- G. &. P. 110. Principles of Public Administration (3). First semester. Prerequisite, G. & P. 1.
- G. &. P. 111. Public Personnel Administration (3). First semester. Prerequisite, G. & P. 110 or B. A. 160.
- G. &. P. 112. Public Financial Administration (3). Second semester. Prerequisite, G. & P. 110 or Econ. 142.

- G. & P. 124. Legislatures and Legislation (3). Second semester. Prerequisite, G. & P. 1.
 Burdette, Hathorn.
- G. &. P. 131, 132. Constitutional Law (3, 3). First and second semesters.

 Prerequisite, G. & P. 1.

 Dixon.
- G. & P. 133. Administration of Justice (3). Second semester. Prerequisite, G. & P. 1.
- G. & P. 141. History of Political Theory (3). First semester. Prerequisite, G. & P. 1.

 Anderson.
- G. & P. 142. Recent Political Theory (3). Second semester. Prerequisite,
 G. & P. 1.

 Anderson.
- G. & P. 144. American Political Theory (3). First semester. Prerequisite, G. & P. 1.

 Anderson.
- G. & P. 154. Problems of World Politics (3). Second semester. Prerequisite, G. & P. 1.
- G. &. P. 174. Political Parties (3). First semester. Prerequisite, G. & P. 1.

 Burdette, Hathorn.
- G. &. P. 178. Public Opinion (3). First semester. Prerequisite, G. & P. 1.

 Burdette, Bundgaard.
- G. &. P. 181. Administrative Law (3). Second semester. Prerequisite G. & P. 1. Dixon.
- G. &. P. 197. Comparative Governmental Institutions (3). Second semester.

 Prerequisite, G. & P. 1.

 Harrison.

- G. &. P. 201. Seminar in International Political Organization (3).
 - Plischke.
- G. & P. 202. Seminar in International Law (3). Plischke, Harrison.
- G. & P. 205. Seminar in American Political Institutions (3). Burdette, Dixon.
- G. & P. 206. Seminar in American Foreign Relations (3). Plischke.
- G. &. P. 207. Seminar in Comparative Governmental Institutions (3).
 - Steinmeyer, Harrison.
- G. &. P. 211. Seminar in Federal-State Relations (3). Staff.
- G. & P. 213. Problems of Public Administration (3). Bowen.
- G. &. P. 214. Problems of Public Personnel Administration (3). Staff.
- G. &. P. 215. Problems of State and Local Government in Maryland (3). Staff.
- G. &. P. 216. Government Administrative Planning and Management (3). Staff.
- G. & P. 217. Government Corporations and Special Purpose Authorities (3).

 Staff.

G. & P. 231. Seminar in Public Law (3). Dixon.

G. & P. 251. Bibliography of Government and Politics (3). Staff
G. & P. 261. Problems of Government and Politics (3) Staff.

G. &. P. 281. Departmental Seminar (No Credit). Registration for two semes-

ters required of all doctoral candidates.

Staff.

G. & P. 299. Thesis Course (Arranged).

Staff.

HISTORY

Professors Gewehr, Chatelain, Merrill, Prange, Wellborn; Associate Professors Bauer, Gordon; Assistant Professors Crosman, Davidson, Jashemski, Sparks, Stromberg; Instructors Bates, Beard, Carter, Catton, McGiffert, Riddleberger. White.

Master of Arts

- 1. Eight to ten hours of the total major course requirements of all candidates for this degree must be acquired in general field of the thesis, i.e., either American or European history.
- 2. H. 287, Historiography, is required of all candidates for graduate degrees in history.
- 3. Candidates for the Master of Arts degree must pass a two-hour qualifying written examination no later than one month before the date set for the final oral examination. The purpose of the written examination is to determine the student's general grasp of the larger field in which the thesis lies, (e. g. American, European, English, Latin-American). The examination will include not only factual and interpretative material, but also biblography and historiography. However, it will not be based on courses as such.
- 4. The final oral examination will be confined to the general field of the thesis, and the thesis itself. It is understood that the representative of the minor field may examine the candidate on the minor subject or subjects at his discretion.
- 5. The thesis must be submitted in final form to the candidate's committee three weeks prior to the final oral examination.

Doctor of Philosophy

- 1. At least thirty hours of the total major course requirements, including H. 287, must be acquired in the general field of the thesis, i.e., American history or European history.
- 2. At least ten hours of the thirty required for a minor in history must be taken at the University of Maryland.

- 3. Recommendations for admission to candidacy will be determined by the department on the basis of achievement which the student may be required to substantiate by oral or written examinations.
- 4. Before confirmation for the degree the student must pass a written comprehensive examination in addition to the final oral examination required by the Graduate School.
- 5. The thesis must be submitted in final form to the candidate's committee five weeks prior to the final oral examination.

FOR GRADUATES AND ADVANCED UNDERGRADUATES

A. American History

- H. 5, 6 are prerequisites for courses H. 101 to H. 142, inclusive.
- H. 101. American Colonial History (3). First semester. Summer School (2).
 Bates.
- H. 102. The American Revolution (3). Second semester. Summer School (2).

 Bates.
- H. 105. Social and Economic History of the United States to 1865 (3). First semester. Chatelain.
- H. 106. Social and Economic History of the United States Since the Civil War
 (3). Second semester. Chatelain.
- H. 114. The Middle Period of American History 1824-1860. (3). First semester. Summer School (2). Sparks.
- H. 115. The Old South (3). First semester. Summer School (2).
 Riddelberger.
- H. 116. The Civil War (3). Second semester. Summer School (2). Sparks.
- H. 117. The New South (3). First semester. Summer School (2).
 Riddelberger.
- H. 118, 119. Recent American History (3, 3). Summer School (2, 2). Merrill.
- H. 121. History of the American Frontier (3). First semester, Summer School (2). Prerequisites, H. 5, 6, or the equivalent.
 The Trans-Allegheny West. The westward movement into the Mississippi Valley.
 Gewehr.
- H. 122. History of the American Frontier (3). Second semester. Summer School (1). Prerequisites, H. 5, 6, or the equivalent.
 The Trans-Mississippi West. Forces and factors in the settlement and development of the Trans-Mississippi West to about 1900. Gewehr.
- H. 123. The New West (3). Second semester. Summer School (2). Bates.
- H. 124. Reconstruction and the New Nation 1865-1896 (3). Second semester. Summer School (2). Merrill.
- H. 127, 128. Diplomatic History of the United States (3, 3). First and second semesters. Wellborn.
- H. 129. The United States and World Affairs (3). First semester. Summer School (2). Wellborn.

- H. 133, 134. The History of Ideas in America (3, 3). First and second semesters. Summer School (2, 2). Beard.
- H. 135, 136. Constitutional History of the United States (3, 3). First and second semesters. Gewehr.
- H. 141, 142. History of Maryland (3, 3). Three hours a week, first and second semesters.
- H. 145, 146. Latin-American History (3, 3). Three hours a week, first and second semesters. Summer School (2). Crosman.
- H. 147. History of Mexico (3). First semester.

Crosman.

B. European History

- H. 1, 2 or H. 53, 54 are prerequisites for courses H. 151 to H. 191, inclusive.
- H. 151. History of the Ancient Orient and Greece (3). First semester.

Jashemski.

H. 153. History of Rome (3). Second semester.

Jashemski.

H. 155. Medieval Civilization (3). First semester. Summer School (2).

Jashemski.

- H. 161. The Renaissance and Reformation (3). Second semester. Summer School (2). Jashemski.
- H. 166. The French Revolution (2). First semester.

The Enlightenment and the Old Regime in France; the revolutionary uprisings from 1789 to 1799.

Gordon.

H. 167. Napoleonic Europe (2). Second semester.

European Developments from the rise of Napoleon to the Congress of Vienna.

Gordon.

- H. 171, 172. Europe in the Nineteenth Century, 1815-1919 (3, 3). First and second semesters.
- H. 175, 176. Europe in the World Setting of the Twentieth Century (3, 3).

 First and second semesters. Summer School (2, 2).

 Prange.
- H. 185, 186. History of the British Empire (3, 3). First and second semesters.
 H. 186, Summer School (2).
 Gordon.
- H. 187. History of Canada (3). First semester. Summer School (2). Gordon.
- H. 189. Constitutional History of Great Britain (3). Second semester.

Gordon.

H. 191. History of Russia (3). First semester.

- Bauer.
- H. 192. Foreign Policy of the USSR (3). Second semester. Summer School
 (2). Prerequisites, H. 1, 2 and H. 191.
 Bauer.
- H. 193, 194. History of European Ideas in Modern Times (3, 3). First and second semesters. Stromberg.
- H. 195. The Far East (3). First semester. Summer School (2). Gewehr.
- H. 199. Proseminar in Historical Writing (3). First and second semesters.

 Sparks, Riddelberger.

- H. 200. Research (3-6). Credit apportioned to amount of research. First and second semesters. Staff.
- H. 201. Seminar in American History (3). First and second semesters. Summer School (2).
 Staff.
- H. 202. Historical Literature (3). First and second semesters (Summer School 2). Assignments in various selected fields of historical literature and bibliography to meet the requirements of qualified graduate students who need more intensive concentration. (Staff.)
- H. 205, 206. Topics in American Economic and Social History (3, 3). First and second semesters. Chatelain.
- H. 208. Topics in Recent American History (3). First and second semesters.
 Merrill.
- H. 211. The Colonial Period in American History (3). First semester.

H. 212. Period of the American Revolution (3). Second semester.

Bates.

- H. 215. The Old South (3). First semester. Riddelberger.
- H. 216. The American Civil War (3). First semester. Sparks.
- H. 217. Reconstruction and its Aftermath (3). Second semester. Merrill.
- H. 221, 222. History of the West (3, 3). Summer School (2, 2). Gewehr.
- H. 233, 234. Topics in American Intellectual History (3, 3). Beard.
- H. 245. Topics in Latin-American History (3). Crosman.
- H. 250. Seminar in European History (3). First and second semesters. Summer School (2). Bauer.
- H. 251. Topics in Greek Civilization (3). Jashemski.
- H. 253. Topics in Roman History (3).

H. 255. Medieval Culture and Society (3). (Arranged). Jashemski.

Jashemski.

- H. 282. Problems in the History of World War II (3). Prange.
- H. 285, 286. Topics in the History of Modern England and Great Britain (3,3). First and second semesters. Gordon.
- H. 287. Historiography (3). First and second semesters. Required of all candidates for advanced degrees in history. Sparks.

HOME ECONOMICS

A. Textiles and Clothing

Professor Mitchell; Assistant Professor Wilbur; Instructors, Archer, Greig, Heagney, Parker

FOR GRADUATES AND ADVANCED UNDERGRADUATES

Tex. 100. Advanced Textiles (3). First Semester. One lecture and two laboratory periods a week. Prerequisite, Tex. 1. Laboratory fee, \$3.00. Staff.

- Tex. 101. Problems in Textiles (3). One lecture and two laboratory periods a week, second semester. Laboratory fee, §3.00. Prerequisite, Tex. 100; Organic Chemistry.
- Tex. 102. Textile Testing (3). Three laboratory periods a week, second semester.

 Prerequisite, Tex. 100. Laboratory fee, \$3.00.

 Staff.
- Tex. 105. Consumer Problems in Textiles (3). Three lecture periods a week, second semester. Prerequisite, Tex. 1, or equivalent. Laboratory fee, \$3.00.

 Staff.
- Tex. 106. Household Textiles (3). Three laboratory periods a week, first semester. Prerequisite, Tex. 1, or equivalent. Laboratory fee, \$3.00.
- Tex. 108. Decorative Fabrics (2). Two lecture periods a week, first semester.

 Prerequisite, Tex. 1, or equivalent. Laboratory fee, \$3.00. Wilbur.
- Clo. 120. Draping (3). Three laboratory periods a week, first and second semesters. Prerequisite, Clo. 21, 122. Laboratory fee, \$3.00. Wilbur.
- Clo. 122. Tailoring (2). Two laboratory periods a week, first and second semesters, summer session, 1955. Prerequisite, Clo. 21. Laboratory fee, \$3.00. Mitchell, Heagney, Parker.
- Clo. 123. Children's Clothing (2). Two laboratory periods a week, first semester. Prerequisite, Clo. 20A, or equivalent. Laboratory fee, \$3.00.

 Heagney, Wilbur.
- Clo. 124. Projects and Readings in Textiles and Clothing (2). First semester.

 Prerequisites Clo. 120, Tex. 100. Laboratory fee, \$3.00. Mitchell.
- Clo. 125. Costume Draping (3). Second semester. Three two-hour laboratory periods a week. Prerequisite, Pr. Art 20 or consent of department. Laboratory fee, \$3.00.
- Clo. 126. Fundamentals of Fashion (2-3). Three lecture periods a week. Second semester. Prerequisites, Clo. 120, Tex. 100. Laboratory fee, \$3.00.

 Wilbur.
- Clo. 127. Apparel Design (3). First and second semesters. One lecture and two laboratory periods a week. Laboratory fee, \$3.00. Prerequisite, Clo. 120.
 Staff.
- Clo. 128. Home Furnishings (3). Three laboratory periods a week, first and second semesters. Prerequisites, Tex. 1, Clo. 20A, or consent of instructor. Laboratory fee, \$3.00.

 Wilbur.

- Tex. 200. Special Studies in Textiles (2-4). Second semester. Laboratory fee, \$3.00.
- Clo. 220. Special Studies in Clothing (2-4). First semester. Laboratory fee, \$3.00. Mitchell, Wilbur.

- Tex. and Clo. 230. Seminar (1). First and second semesters. Laboratory fee, \$3.00. Mitchell.
- Tex. and Clo. 231. Research (4-6). First and second semesters. Laboratory fee, \$3.00.
- Tex. and Clo. 232. Economics of Textiles and Clothing (3). Second semester. Laboratory fee, \$3.00. Mitchell.

B. Practical Art and Crafts

Professor Curtiss; Assistant Professor Cuneo; Instructors Davis, Elliott, Eno, Longley, Whaley.

FOR GRADUATES AND ADVANCED UNDERGRADUATES

- Pr. Art 100, 101. Mural Design (2, 2). Two laboratory periods a week, second semester. Laboratory fee, \$3.00. Prerequisites, Pr. Art 1, 2, 3, 21, and permission of the instructor.
- Pr. Art 120, 121. Costume Illustration (2, 2). Two laboratory periods a week, first and second semesters. Laboratory fee, \$3.00. Prerequisites, Pr. Art 1, 20, 21, 22, and permission of instructor.
- Pr. Art 124, 125. Individual Problems in Costume (2, 2). Two laboratory periods a week, first and second semesters. Laboratory fee, \$3.00. Prerequisites, Pr. Art 1, 20, 120, 121, and permission of instructor.
- Pr. Art 132. Advertising Layout (2). Two laboratory periods a week, first and second semesters. Laboratory fee, \$3.00. Prerequisites, Pr. Art 1, 20, 21, 22, 30, and permission of instructor.
- Pr. Art 134, 135. Individual Problems in Advertising (2, 2). Two laboratory periods a week, second semester. Laboratory fee, \$3.00. Prerequisites, Pr. Art 1, 20, 30, 120, 132, or equivalent, and permission of instructor.

Cuneo.

- Pr. Art 136. Display (2). Two laboratory periods a week, first and second semesters. Laboratory fee, \$3.00. Prerequisites, Pr. Art 1, 20, 30. Practice in effective display for teaching and for merchandising. Cooperation with retail establishments.
- Pr. Art. 138. Advanced Photography (2). Three laboratory periods a week, first and second semesters. Laboratory fee, \$3.00. Prerequisites, Pr. Art. 1, 38, 39, or permission of the instructor.
- Pr. Art 142, 143. Advanced Interior Design (2, 2). Two laboratory periods a week, first and second semesters. Laboratory fee, \$3.00. Prerequisites, Pr. Art 1, 40, 41, or equivalent.
- Pr. Art 144, 145. Individual Problems in Interior Design (2, 2). Two laboratory periods a week, first and second semesters. Laboratory fee, \$3.00. Prerequisites, Pr. Art. 1, 40, 41, 142, 143, and permission of instructor.

Eiio.

Cr. 102. Creative Crafts (2-4). Summer session. Daily laboratory periods. Laboratory fee, \$3.00. Prerequisite, permission of the instructor. Longley.

- Cr. 120, 121. Advanced Ceramics (2, 2). Three laboratory periods a week, first and second semesters. Laboratory fee, \$3.00. Prerequisites, Cr. 20, 21.

 Hodgson.
- Cr. 124, 125. Individual Problems in Ceramics (2, 2). Two laboratory periods a week, first and second semesters. Laboratory fee, \$3.00. Prerequisites, Cr. 20, 21, 120, 121, and permission of instructor.
- Cr. 130, 131. Advanced Metalry (2, 2). Three laboratory periods a week, first and second semesters. Laboratory fee, \$3.00. Prerequisites, Cr. 30, 31.

 Longley.
- Cr. 134, 135. Individual Problems in Metalry (2, 2). Three laboratory periods a week, first and second semesters. Laboratory fee, \$3.00. Prerequisites, Cr. 30, 31, 130, 131, and permission of instructor. Longley.
- Cr. 140, 141. Advanced Weaving (2, 2). Three laboratory periods a week, first and second semesters. Laboratory fee, \$3.00. Prerequisites, Cr. 40, 41.

 Longley.
- Cr. 144, 145. Individual Problems in Weaving (2, 2). Three laboratory periods a week, first and second semesters. Laboratory fee, \$3.00. Prerequisites, Cr. 40, 41, 140, 141, and permission of instructor. Longley.

C. Home and Institution Management

Professor Mount; Associate Professor Braucher; Assistant Professor Crow; Instructor Collins, Mearig; Lecturer, Pelcovits

FOR GRADUATES AND ADVANCED UNDERGRADUATES

- Home Mgt. 150, 151. Management of the Home (3, 3). Two lectures and one laboratory periods a week. Crow, Mearig.
- Home Mgt. 152. Experience in Management of Home (3). First and second semesters. Prerequisites, Home Mgt. 150, 151. Laboratory fee, \$7.00.

 Crow, Mearig.
- Home Mgt. 155. Money Management (2). Two hours a week. Not offered 1956-57.
- Home Mgt. 156. Household Equipment (2). Two laboratories a week. Offered Summer 1956.

 Mearig.
- Home Mgt. 158. Special Problems in Management (3). Five lectures; one two-hour laboratory. Prerequisites, H. Mgt. 150, 151 or equivalent. Laboratory fee, \$3.00.

Analysis of some of the important management problems in the home and in the home economics classroom. Financial problems, problems in work simplification, problems related to housing and household equipment.

Inst. Mgt. 160. Institution Organization and Management (3). Two lectures

- and one laboratory period a week, first semester. Prerequisites, Foods 2, 3; Nut. 110, Home Mgt. 150, 151 to precede or parallel. Collins.
- Inst. Mgt. 161. Institution Purchasing and Accounting (3). Two lectures and one laboratory period a week, second semester. Prerequisite, Inst. Mgt. 160. Collins.
- Inst. Mgt. 162. Institution Foods (3). One lecture and two laboratory periods a week, second semester. Prerequisites, Inst. Mgt. 160, 161. Pelcovits.
- Inst. Mgt. 164. Advanced Institution Management (2). One lecture and one laboratory period a week, second semester. Prerequisites, Inst. Mgt. 160, 161, 162, or the equivalent.

 Braucher.
- Inst. Mgt. 165. School Lunch (3). Two lectures and one laboratory period a week, second semester and summer session. Prerequisites, Foods 2, 3; Nut. 110, or equivalent.
- Inst. Mgt. S166. Nutrition and Meal Planning (2). Summer Session. One lecture and two laboratory periods. Prerequisites Inst. Mgt. 160 or Equivalent.
- Inst. Mgt. 181. Purchasing and Accounting for Housekeeping Administration (3). Two lecture periods a week. Second semester. Prerequisite, Inst. Mgt. 160.
- Inst. Mgt. 182. Housekeeping Management (3). Three lecture periods a week. First semester. Prerequisite, Inst. Mgt. 160.
- Inst. Mgt. 183. Problems in Housekeeping Management (3). One lecture, two laboratory periods a week. Second semester. Prerequisites, Inst. Mgt. 160 and Inst. Mgt. 182.
- Inst. Mgt. 200. Advanced Food Service Management and Supervision (3). First semester. Prerequisites Inst. Mgt. 162, 165 or equivalent.

D. Foods and Nutrition

Associate Professor Braucher; Assistant Professor Cornell, Instructors Collins, Duke; Lecturers, King, Pelcovits.

- Foods 100. Food Economics (2). One lecture and one laboratory period a week, first semester. Laboratory fee, \$7.00. Prerequisite, Foods 1 or 2, 3.
- Foods 101. Meal Service (2). Two laboratory periods a week, first and second semesters. Laboratory fee, \$7.00. Prerequisite, Foods 1 or 2, 3.

 Cornell, Duke
- Foods 102. Experimental Foods (3). One lecture and two laboratory periods a week, first semester. Laboratory fee, \$7.00. Prerequisites, Foods 2, 3; Organic Chemistry, Chem. 31, 32, 33, 34. King.

- Foods, 104. Advanced Foods (2). Two laboratory periods a week, first semester. Laboratory fee, \$7.00. Prerequisite, Foods 1 or 2, 3. Cornell.
- Foods 105. Foods of Other Countries (3). One lecture and two laboratory periods a week, second semester. Alternate years. Laboratory fee, \$7.00. Prerequisite, Foods 1 or 2, 3, or equivalent.
- Nut. 110. Nutrition (3). First and second semesters. Prerequisites, Foods 2, 3; Organic Chemistry, Chem. 31, 32, 33, 34. Laboratory fee, \$7.00.

Braucher.

- Nut. 111. Child Nutrition (2). One lecture and one laboratory period a week, first and second semesters. Prerequisite, Foods 1 or 2, 3; Nut. 110 or 10.

 Collins.
- Nut. 112. Dietetics (3). One lecture and two laboratory periods a week, second semester. Laboratory fee, \$7.00. Prerequisite, Nut. 110. Pelcovits.
- Nut. 113. Diet and Disease (2). Second semester. Alternate years. Prerequisite, Nut 110.
- Nut. 114. Nutrition for Health Services (3). Three lecture periods a week.

 Second semester. Prerequisite Nut. 10 or the equivalent. Braucher.

FOR GRADUATES

- Foods 200. Advanced Experimental Foods (3-5). Laboratory fee, \$7.00. Second semester.
- Nut. 208. Recent Progress in Human Nutrition (3). Second Semester.

Braucher.

- Nut. 210. Readings in Nutrition (3). First semester.
- Nut. 211. Problems in Nutrition (3-5). First and second semesters.
- Nut. 212. Nutrition for Community Service (3). First semester.
- Foods and Nut. 204. Recent Advances in Foods and Nutrition (2-3). Second semester.
- Foods and Nut. 220. Seminar (1, 1). First and second semesters.
- Foods and Nut. 221. Research. First and second semesters. Laboratory fee, \$7.00.

HOME ECONOMICS-GENERAL

H. E. 103. Demonstrations (2). Second semester. Two laboratory periods a week. Prerequisites, Clo. 20: Foods 1 or 2, 3; Tex. 1. Laboratory fee, \$7.00. Experience in planning and presenting demonstrations.

HORTICULTURE

Professors Haut, Kramer, Link, Scott, Stark, Thompson; Associate Professor Shanks; Assistant Professors Britton, Reynolds, Wiley.

This Department offers graduate work in the fields of Floriculture and Ornamental Horticulture, Horticultural Processing, Olericulture, and Pomology leading to the Master of Science or Doctor of Philosophy degrees.

Departmental requirements, supplementary to this Graduate Catalog have been formulated for the administration and guidance of graduate students. Copies of these requirements may be obtained from the department.

- Hort. 101, 102. Technology of Fruits (2, 2). Two hours a week, first and second semesters. Prerequisite, Bot. 101.

 Thompson.
- Hort. 103, 104. Technology of Vegetables (2, 2). Two hours a week, first and second semesters. Prerequisite, Bot. 101.
- Hort. 105. Technology of Ornamentals (2). Two hours a week, first semester.

 Prerequisite, Bot. 101.

 Link.
- Hort. 106. World Fruits and Nuts (2). Second semester. Haut.
- Hort. 107, 108. Plant Materials (3, 3). Two lectures and one laboratory period a week, first and second semesters. Prerequisite, Bot. 11 or equivalent.

 Enright.
- Hort. 114. Systematic Pomology (3). Two lectures and one laboratory period a week, first semester. Given in alternate years.
- Hort. 116. Systematic Olericulture (3). Two lectures and one laboratory period a week, first semester. Given in alternate years. Reynolds.
- Hort. 122. Special Problems (2, 2). First and second semesters. Credit arranged according to work done. For major students in horticulture or botany.

 Staff.
- Hort. 123. Grades and Standards for Canned and Frozen Products (2). Second semester. One lecture and one laboratory period a week. Prerequisites, Hort 124.
- Hort. 124. Quality Control (3). First semester. Two lectures and one laboratory period a week. Prerequisite, Hort. 58, 155, 156. Kramer.
- Hort. 126. Nutritional Analyses of Processed Crops (2). Second semester. Two laboratory periods a week. Prerequisites, Chem. 33 and 34, Bot. 101, Hort. 123.
- Hort. 150, 151. Commercial Floriculture (3, 3). First and second semesters.

 Two lectures and one laboratory period a week. Prerequisites, Hort. 11.

 Link.
- Hort. 155. Commercial Processing I (3). First semester. Two lectures and one laboratory period a week. Laboratory fee, \$5.00. Prerequisites, Chem. 32, 34, Hort. 61.
- Hort. 156. Commercial Processing II (2). Second semester. One lecture and one laboratory period a week. Prerequisite, Hort. 155. Wiley.
- Hort. 159. Nursery Management (3). Second semester. Two lectures and one laboratory period a week. Prerequisites, or concurrently, Hort. 62, 107, 108.

FOR GRADUATES

- Hort. 200. Experimental Procedures in Plant Sciences (3). First semester.

 Prerequisite, permission of instructor.

 Haut.
- Hort. 201, 202. Experimental Pomology (3, 3). First and second semesters.

 Prerequisite, Bot. 101. Thompson.
- Hort. 203, 204. Experimental Olericulture (2, 2). First and second semesters.

 Prerequisite, Bot. 101.

 Stark.
- Hort. 205. Experimental Olericulture (2). First Semester. Prerequisite, Bot. 101. (Not offered 1956-57.) Stark.
- Hort. 206. Experimental Floriculture (3). First semester. Prerequisite,
 Bot. 101.
- Hort. 207. Methods of Horticultural Research (3). Second semester. One lecture and one four-hour laboratory period a week.
- Hort. 208. Advanced Horticultural Research (2-12). First and second semesters. Credit granted according to work done.

 Staff.
- Hort. 209. Advanced Seminar (1, 1). First and second semesters. Five credit hours for five semesters can be obtained.

 Haut and Staff.
- Hort. 210. Experimental Processing (2). Second semester. Prerequisite, permission of instructor.

MATHEMATICS

Professors Jackson, Hall, Martin; Research Professor Weinstein*; Associate Professors Fullerton, Good, Ludford, Polachek, Young; Associate Research Professors Diaz*, Payne*; Assistant Professors Brace, Haywood, G. Spencer; Assistant Research Professor Weinberger*; Instructors Beiman, Brewster, Correl, Ehrlich, Esser, Fadnis, Greenspan, Hsu, MacCarthy, McAuley, Rosen, Shepherd, Triplett; Instructor Part Time Lepson; Junior Instructors Burda, Dyer, Ingersoll, Wilkinson; Junior Instructors Part Time Anderson, Bauer, Diggs, Hill, Koo, Lamanski, C. Spencer, Steely, Woodburn.

The Colloquium meets weekly for reports on the research of the faculty and graduate students, and for expository lectures on papers published in current mathematical journals.

In addition to satisfying the Graduate School requirements, a student, before being recommended for admission to candidacy for the degree of Master of Arts with a major in mathematics, must demonstrate a reading knowledge of one foreign language of scientific importance and must pass an oral preliminary examination covering undergraduate and graduate work in both major and minor fields of study.

A student preparing for the degree of Doctor of Philosophy with a major in mathematics will be offered a choice of two curricula, one with an emphasis on pure mathematics, the other with an emphasis on applied mathematics.

^{*}Member of the Institute for Fiuid Dynamics and Applied Mathematics.

Before presenting himself for the preliminary examination for the doctorate, a student is expected to have acquired a background of mathematical knowledge equivalent to the following group of graduate studies. In the pure mathematics curriculum: Algebra, six hours; Analysis, twelve hours; Geometry and Topology, six hours; Mathematical Methods or Mathematical Physics or Physics or (further) Analysis, six hours. In the applied mathematics curriculum: Analysis, eighteen hours (including Math. 211, 214, 212); Mathematical Methods, six hours; Mathematical Physics, six hours (including Math. 260); Algebra or Geometry or Topology as related to the student's individual work.

A student who intends to present a minor in mathematics of more than nine credit hours for the degree of Doctor of Philosophy must include at least three credit hours of 200 courses in mathematics. If the program includes more than 12 credit hours, at least six credit hours must be in 200 courses in mathematics.

A. Algebra

FOR GRADUATES AND ADVANCED UNDERGRADUATES

- Math. 100. Higher Algebra (3). First semester. Prerequisite, Math 21 or equivalent. Good.
- Math. 103, 104. Introduction to Modern Algebra (3, 3). Prerequisite, Math. 21 or equivalent. For Math. 104, the usual prerequisite of Math. 103 may be waived upon consent of instructor.
 Ehrlich.
- Math. 106. Introduction to the Theory of Numbers (3). Second semester.

 Prerequisite, Math. 21 or equivalent.

 Good.

FOR GRADUATES

- Math. 200, 201. Modern Algebra (3, 3). Prerequisite, Math. 103 or consent of instructor. Good.
- Math. 202. Matrix Theory (3). Second semester. Prerequisite, Math. 103 or consent of instructor. Ehrlich.
- Math. 204, 205. Topological Groups (3, 3). Prerequisite, consent of instructor.

 Hall, Good.
- Math. 271. Selected Topics in Algebra (3). Arranged.

B. Analysis

- Math. 110, 111. Advanced Calculus (3, 3). Prerequisite, Math. 21 or equivalent.

 Rosen.
- Math. 114. Differential Equations (3). Second semester. Prerequisite, Math. 110 or equivalent. Esser.
- Math. 115. Partial Differential Equations (3). Prerequisite, Math. 114 or equivalent.

 Spencer.

Math. 116. Introduction to Complex Variable Theory (3). Prerequisite, Math. 21 or equivalent. Open to students in engineering and the physical sciences. Graduate students in mathematics should enroll in Math. 210, 211.

Ludford.

Math. 117. Fourier Series (3). Prerequisite, Math. 114 or equivalent.

Ludford.

FOR GRADUATES

- Math. 210, 211. Functions of a Complex Variable (3, 3). Prerequisite, Math. 111 or equivalent. Haywood.
- Math. 212. Special Functions (3). Second semester. Prerequisite, Math. 210 or consent of instructor. Diaz.
- Math. 213, 214, Functions of a Real Variable (3, 3). Prerequisite, Math. 111 or equivalent. Fullerton.
- Math. 215, 216. Advanced Differential Equations (3, 3). Prerequisite, Math. 100, 111 and 114, or consent of instructor. Young.
- Math. 217. Existence Theorems in Differential Equations (3). Second semester.

 Prerequisite, Math. 114 or equivalent.

 Spencer.
- Math. 218. Integral Equations (3). First semester. Prerequisite, Math. 100 and 211, or consent of instructor. Ludford.
- Math. 272. Selected Topics in Analysis (3). Arranged.
- Math. 280, 281. Linear Spaces (3, 3). Prerequisite, Math. 214 or equivalent.

 Brace.

C. Geometry and Topology

FOR GRADUATES AND ADVANCED UNDERGRADUATES

- Math. 122, 123. Elementary Topology (3, 3). Prerequisite, Math. 21 or equivalent. McAvley.
- Math. 124, 125. Introduction to Projective Geometry (3, 3). Prerequisite, Math. 21 or equivalent. Jackson.
- Math. 126, 127. Introduction to Differential Geometry and Tensor Analysis (3, 3). Prerequisite, Math. 21 or equivalent. Jackson.
- Math. 128, 129. Higher Geometry (3, 3,). Prerequisite, Math. 21 or consent of instructor. Math. 128 is not a prerequisite for Math. 129. Open to students in the College of Education.

 Jackson.

- Math. 220, 221. Differential Geometry (3, 3). Prerequisite, Math. 111 and 152, or consent of instructor.

 Jackson.
- Math. 223, 224. Algebraic Topology (3, 3). Prerequisite, Math. 103 and 123, or consent of instructor. Spencer.

- Math. 225, 226. Set-theoretic Topology (3, 3). Prerequisite, Math. 123 or consent of instructor.

 Hall.
- Math. 273. Selected Topics in Geometry and Topology (3). Arranged.

D. Probability and Statistics

FOR GRADUATES AND ADVANCED UNDERGRADUATES

- Math. 130. Probability (3). First semester. Prerequisite, Math. 21 or equivalent. Good.
- Math. 132. Mathematical Statistics (3). Second semester. Prerequisite, Math. 21 or equivalent. Esser.
- Math. 133. Advanced Statistical Analysis (3). Second semester. Prerequisite,
 Math. 132 or equivalent.

 Hsu.

E. History

FOR GRADUATES AND ADVANCED UNDERGRADUATES

Math. 140. History of Mathematics (3). Second semester. Prerequisite, Math. 21 or consent of instructor. Good.

F. Mathematical Methods

FOR GRADUATES AND ADVANCED UNDERGRADUATES

- Math. 150, 151. Advanced Mathematics for Engineers and Physicists (3, 3).

 Prerequisite, Math. 21 or equivalent.

 Martin.
- Math. 152. Vector Analysis (3). First semester. Prerequisite, Math. 21 or equivalent. Fadmis.
- Math. 153. Operational Calculus (3). First semester. Prerequisite, Math. 21 or equivalent.

 Martin.
- Math. 155. Numerical Analysis (3). First semester. Prerequisite, Math. 110 and 114, or consent of instructor. Young.
- Math. 156. Programming for High Speed Computers (3). Second semester.

 Prerequisite, Math. 21 or equivalent.

 Young.

- Math. 250. Tensor Analysis (3). First semester. Prerequisite, Math. 100 and 152, or consent of instructor. Weinberger.
- Math. 251. Hilbert Space (3). First semester. Prerequisite, Math. 100 and 214, or consent of instructor. Weinstein.
- Math. 252. Variational Methods (3). Second semester. Prerequisite, Math. 260 or consent of instructor. Weinstein.
- Math. 255, 256. Advanced Numerical Analysis (3, 3). Prerequisite, Math. 100 and 155, or consent of instructor. Young.

G. Mathematical Physics

FOR GRADUATES AND ADVANCED UNDERGRADUATES

Math. 160, 161. Analytic Mechanics (3, 3). Prerequisite, Math. 21 or equivalent.

Ludford.

FOR GRADUATES

- Math. 260. Foundations of Mathematical Physics (3). First semester. Prerequisite, consent of instructor. Diaz.
- Math. 261, 262. Fluid Dynamics (3, 3). Prerequisite, Math. 260 or consent of instructor. Payne.
- Math. 263, 264. Elasticity (3, 3). Prerequisite, Math. 100 and 260, or consent of instructor. Weinberger.
- Math. 265. Hyperbolic Differential Equations (3). Second semester. Prerequisite, Math. 260 or consent of instructor. Ludford.
- Math. 266. Elliptic Differential Equations (3). First semester. Prerequisite,
 Math. 260 or consent of instructor.

 Payne.
- Math. 274. Selected Topics in Applied Mathematics (3). Arranged.

H. For Teachers of Mathematics

For Graduates and Advanced Undergraduates

- Math. 181. Foundations of Number Theory (3). Summer school. Designed primarily for those enrolled in programs with emphasis in the teaching of science. Not open to students seeking a major directly in the physical sciences, since the course content is usually covered elsewhere in their curriculum.

 Jackson.
- Math. 182. Foundations of Algebra (3). Summer school. Designed primarily for those enrolled in programs with emphasis in the teaching of science. Not open to students seeking a major directly in the physical sciences, since the course content is usually covered elsewhere in their curriculum. Ehrlich.
- Math. 183. Foundations of Geometry (3). Summer school. Designed primarily for those enrolled in programs with emphasis in the teaching of science. Not open to students seeking a major directly in the physical sciences, since the course content is usually covered elsewhere in their curriculum. Jackson.
- Math. 184. Foundations of Analysis (3). Summer school. Designed primarily for those enrolled in programs with emphasis in the teaching of science. Not open to students seeking a major directly in the physical sciences, since the course content is usually covered elsewhere in their curriculum. Spencer.

I. Research

FOR GRADUATES AND ADVANCED UNDERGRADUATES

Math. 190, 191. Honors Reading Course (3, 3). Prerequisite, permission by the department to work for honors.

Jackson.

FOR GRADUATES

Math. 298. Proseminar in Research (1). Second semester. Prerequisite, one semester of graduate work in mathematics.

Spencer.

Math. 300. Research. Arranged.

MECHANICAL ENGINEERING

Graduate Faculty: Professors Younger, Shreeve, Long, Jackson; Associate Professors Allen, Eyler; Assistant Professor Sayre.

Instruction and research facilities are available for the degrees of Master of Science and Doctor of Philosophy in Mechanical Engineering.

For the Master of Science degree in Mechanical Engineering, a minimum of six semester hours of course work must be taken in classes conducted by members of the resident graduate faculty. For the Doctor of Philosophy degree, the minimum is eighteen semester hours.

Registration for six credits of research (M.E. 221, Research) for the M.S. thesis is required. Arrangements for faculty supervision of this research must be made and approved by the department chairman before registration in the course.

For the degree of Doctor of Philosophy, one of the minors must be Mathematics, in which 12 credits in graduate (200) courses are required.

- M. E. 100. Thermodynamics (3). First semester. Two lectures and one laboratory period a week. Prerequisites, Phys. 20, Math. 21, concurrently. Laboratory fee, \$3.00.
- M. E. 101. Heat Transfer (2). First semester. Two lectures a week. Prererequisites, M. E. 100. M. E. 54 concurrently.
- M. E. 102. Heating and Air Conditioning (3). Second semester. Two lectures and one laboratory period a week. Prerequisites, M. E. 100, M. E. 101 concurrently.
- M. E. 103. Refrigeration (3). First semester. Two lectures and one laboratory period a week. Prerequisites, M.E. 100, M.E. 54, concurrently. Laboratory fee, \$3.00.
- M. E. 104, 105. Prime Movers (4, 4). First and second semesters. Three lectures and one laboratory period a week. Prerequisites, M. E. 100, M. E. 54 concurrently.
- M. E. 106, 107. Mechanical Engineering Design (4, 4). First and second semesters. Two lectures and two laboratory periods a week. Prerequisites, Mech. 52; M. E. 53, for 107.
- M. E. 108, 109. Mechanical Laboratory (2, 2). First and second semesters. One lecture and one laboratory period a week. Laboratory fee, \$3.00.
- M. E. 110. Applied Elasticity (3). First semester. Three lectures a week. Prerequisites, Mech. 2, Mech. 52; Math. 64, concurrently. Younger, Long.

M. E. 111. Dynamics (3). Second semester. Three lectures a week. Prerequisites, Mech. 2, Mech. 52; Math. 64, concurrently. Younger, Long.

- M. E. 200, 201. Advanced Dynamics (3, 3). First and second semesters.

 Prerequisites, Mech. 52, Math. 64, M. E. 107; M. E. 109. Younger, Long.
- M. E. 202, 203. Applied Elasticity (3, 3). First and second semesters. Prerequisites, Mech. 52, Math. 64, M. E. 107. Younger, Long.
- M. E. 204, 205. Advanced Thermodynamics (3, 3). First and second semesters Three lectures a week. Prerequisites, M. E. 101, M. E. 104, M. E. 105, Math. 64. Shreeve, Allen.
- M. E. 206, 207. Advanced Machine Design (3, 3). First and second semesters.
 Two lectures and one laboratory period a week. Prerequisite, Math. 64,
 M. E. 107. Jackson.
- M. E. 208, 209. Steam Power Plant Design (3, 3). First and second semesters.

 One lecture and two laboratory periods. Prerequisite, M. E. 105. Shreeve.
- M. E. 210. 211. Advanced Fluid Mechanics (3, 3). First and second semesters.

 Prerequisites, M. E. 54, Math. 64.

 Sayre.
- M. E. 212, 213. Advanced Steam Power Laboratory (2, 2). First and second semesters. One lecture and one laboratory period a week. Prerequisite, registration in M. E. 204, 205.
- M. E. 214, 215. Advanced Applied Mechanics Laboratory (2, 2). First and second semesters. One lecture and one laboratory period a week. Prerequisites, registration in M. E. 200, 201 and M. E. 202, 203. Sayre.
- M. E. 216, 217. Advanced Internal Combustion Engine Design (3, 3). First and second semesters. One lecture and two laboratory periods a week. Prerequisites, M. E. 104, 105; M. E. 106, 107 and registration in M. E. 200, 201 and M. E. 204, 205.
 Shreeve.
- M. E. 218, 219. Advanced Internal Combustion Engine Laboratory (2, 2).

 First and second semesters. One lecture and one laboratory period a week.

 Prerequisite, registration in M. E. 216, 217.

 Shreeve.
- M. E. 220. Seminar. Credit in accordance with work outlined by mechanical engineering staff.

 Staff.
- M. E. 221. Research. Credit in accordance with work outlined by mechanical engineering staff. Staff. Research in any field of mechanical engineering as applied mechanics, heat transfer, thermodynamics, heat, power, etc.
- M. E. 222. Advanced Metallography (3). First semester. Two lectures and one laboratory period a week. Prerequisite, M. E. 53, Mech. 52. Jackson.
- M. E. 223, 224. Steam and Gas Turbine Design (3, 3). First and second semesters. Three lectures a week. Prerequisites, M. E. 101, M. E. 104, M. E. 105, Math. 64.

- M. E. 225, 226. Advanced Properties of Metals and Alloys. (2, 2). First and second semesters. Two lectures a week. Prerequisite, Mech. 52, M. E. 53, M. E. 106, M. E. 107.
 Jackson.
- M. E. 227, 228. Theory of Elasticity (3, 3). First and second semesters. Three lectures a week. Prerequisites, Mech. 52, M. E. 53, M. E. 106, M. E. 107, Math. 64.
- M. E. 229, 230. Jet Propulsion (3, 3). First and second semesters. Three lectures a week. Prerequisites, M. E. 101. M. E. 104 and M. E. 105.

Shreeve.

Robinson.

Schlaretzki.

Garvin, Schlaretzki.

- M. E. 231, 232. Advanced Heat Transfer (3, 3). First and second semesters. Three lectures a week. Prerequisites, M. E. 101, M. E. 102 and M. E. 105. Shreeve, Allen.
- M. E. 233, 234. Compressible Flow (3, 3). First and second semesters. Three lectures a week. Prerequisites, M. E. 210, 211 or equivalent. Sayre.

PHILOSOPHY

Professor Garvin; Assistant Professors Robinson and Schlaretzki.

This Department is now offering the Master of Arts degree and providing minor work for related areas.

FOR GRADUATES AND ADVANCED UNDERGRADUATES

FOR GRADUATES AND ADVANCED UNDERGRADUATES		
Phil. 101. Ancies	nt Philosophy (3). First semester.	Robinson.

Phil. 206. Seminar in the Problems of Philosophy (1-3). Second semester.

Staff.

PHYSICAL EDUCATION, RECREATION AND HEALTH

Dean Fraley; Professors Deach, Johnson, Massey, Mohr; Associate Professors Harvey, Humphrey, Husman.

The graduate student majoring in Physical Education, Recreation, or Health Education may pursue any of the following degrees: Master of Arts in Physical Education, Doctor of Education, and Doctor of Philosophy. Undergraduate requirements to be made of every candidate before admission to candidacy for a graduate degree in Physical Education are: basic sciences (human anatomy and physiology, physiology of exercise), kinesiology, therapeutics, sport skills, methods, human development, measurement, administration, and student teaching. In cases where a student has had successful experience in teaching Physical Education, the prerequisites of sport skills, methods, and student teaching may be waived. Undergraduate prerequisites in Recreation are: psychology, sociology, principles, administration, basic sciences, recreational activities, and practical experiene. Undergraduate prerequisites in Health Education are: biological sciences, bacteriology, human anatomy and physiology, nutrition, chemistry, psychology, measurement, administration, principles, and field work.

Every graduate student majoring in Physical Education, Recreation, or Health Education is required to take the following courses (or transfer their equivalent) before taking the qualifying examination: P. E. 201, Foundations in Physical Education, Recreation and Health; P. E. 210, Methods and Techniques of Research; and P. E. 230, Sourse Material Survey. In addition, every graduate student must register for and complete P. E. 200, Seminar in Physical Education, Recreation, and Health, at some time during his graduate career.

A. Physical Education

FOR GRADUATES AND ADVANCED UNDERGRADUATES

- P. E. 120. Physical Education for the Elementary School (3). First and second semesters and summer.
- P. E. 130. Fundamentals of Body Dynamics (3). First and second semesters and summer. Wessel.
- P. E. 150. Physical Fitness of the Individual (3). First and second semesters and summer. Staff.
- P. E. 160. Scientific Bases of Movement Applied (3). First and second semesters and summer. Prerequisite, P. E. 100. Wessel.
- P. E. 170. Supervision in Elementary School Physical Education (3). First and second semesters and summer. Prerequisite, P. E. 120. Humphrey.
- P. E. 180. Measurement in Physical Education and Health (3). First and second semesters. Two lectures and two laboratory periods a week.

Massey.

- P. E. 181. Training and Conditioning (3). Second semester. Two lectures and two laboratory periods a week. Prerequisites, Zool. 14, 15, 53. Wyre.
- P. E. 182. History of Dance (3). First semester. Prerequisites, P. E. 52, 54, 56, 58, or permission of instructor. Madden.
- P. E. 189. Field Laboratory Projects and Workshop (1-6). First and second semesters and summer. Staff.
- P. E. 190. Administration and Supervision of Physical Education, Recreation and Health (3). First and second semesters, and summer. Johnson.
- P. E. 191. The Curriculum in Elementary School Physical Education (3). First and second semesters and summer. Prerequisite, P. E. 120. Humphrey.
- P. E. 195. Organization and Administration of Elementary School Physical Education (3). First and second semesters and summer. Prerequisite, P. E. 120. Humphrey.

- P. E. 200. Seminar in Physical Education, Recreation and Health (1). First and second semesters and summer.
- P. E. 201. Foundations in Physical Education, Recreation and Health (3). First and second semesters and summer.

 Deach, Johnson, Field.
- P. E. 202. Status and Trends in Elementary School Physical Education (3).
 First and second semesters and summer.

 Humphrey.
- P. E. 203. Supervisory Techniques in Physical Education, Recreation and Health (3). First and second semesters and summer. Mohr.
- P. E. 205. Administration of Athletics (3). First and second semesters and summer. Fraley.

- P. E. 210. Methods and Techniques of Research (3). First and second semesters and summer.

 Mohr.
- P. E. 220. Quantitative Methods (3). First and second semesters and summer.

 Massey.
- P. E. 230. Source Material Survey (3). First and second semesters and summer.

 Massey.
- P. E. 250. Mental and Emotional Aspects of Physical Education Activities (3).

 First and second semesters and summer.

 Johnson.
- P. E. 280. The Scientific Bases of Exercise (3). First and second semesters and summer.

 Massey.
- P. E. 287. Advanced Seminar (1-2). First and second semesters and summer.

 Staff.
- P. E. 288. Special Problems in Physical Education, Recreation and Health (1-6). First and second semesters and summer.

 Staff.
- P. E. 289. Research-Thesis (1-5). First and second semesters and summer.

 Staff.
- P. E. 290. Administrative Direction of Physical Education, Recreation and Health (3). First and second semesters and summer. Johnson.
- P. E. 291. Curriculum Construction in Physical Education and Health (3). First and second semesters and summer.

 Mohr.

B. Health Education

FOR GRADUATES AND ADVANCED UNDERGRADUATES

- Hea. 150. Physical Fitness of the Individual (3). First and second semesters and summer.
- Hea. 160. Problems in School Health Education in Elementary and Secondary Schools (2-6). First and second semesters and summer. Staff.
- Hea. 170. The Health Program In The Elementary School (3). First and second semesters and summer. Prerequisite, Health 2 and 4, or Health 40.

 Humphrey.
- Hea. 180. Measurement in Physical Education and Health (3). First and second semesters and summer.

 Massey.
- Hea. 189. Field Laboratory Projects and Workshop (1-6). First and second semesters and summer.
- Hea. 190. Organization and Administration of Health Education (3). First and second semesters and summer.

 Johnson.

- Hea. 200. Seminar in Physical Education, Recreation and Health (1). First and second semesters and summer. Staff.
- Hea. 201. Foundations in Physical Education, Recreation and Health (3). First and second semesters and summer.

 Johnson, Deach.

Hea. 203. Supervisory Techniques in Physical Education, Recreation and Health (3). First and second semesters and summer.

Mohr, Humphrey.

- Hea. 210. Methods and Techniques of Research (3). First and second semesters and summer. Mohr.
- Hea. 220. Principles and Practices of Health Education (3). First and second semesters and summer.

 Johnson.
- Hea. 230. Source Material Survey (3). First and second semesters and summer.

 Massey.
- Hea. 240. Advancements in Modern Health (3). First and second semesters and summer. Johnson.
- Hea. 250. Health Problems in Guidance (3). First and second semesters and summer.

 Johnson.
- Hea, 260. Public Health Education (3). First and second semesters and summer.

 Johnson.
- Hea. 280. Scientific Bases of Exercise (3). First and second semesters and summer.

 Massey.
- Hea. 287. Advanced Seminar (1-2). First and second semesters and summer.

 Staff.
- Hea. 288. Special Problems in Physical Education, Recreation and Health (1-6). First and second semesters and summer. Staff.
- Hea. 289. Research—Thesis (1-5). First and second semesters and summer.

 Staff.
- Hea. 290. Administrative Direction of Physical Education, Recreation and Health (3). First and second semesters and summer. Johnson-Deach.
- Hea. 291. Curriculum Construction in Physical Education and Health (3).

 First and second semesters and summer.

 Mohr.

C. Recreation

- Rec. 150. Camp Management (3). First and second semesters and summer.

 Harvey.
- Rec. 170. Principles and Practice of Recreation (3). First and second semesters.

 Harvey.
- Rec. 180. Leadership Techniques and Practices (3). First and second semesters.

 Rec. S184. Outdoor Education (6). Summer only.

 Staff.
- Rec. 189. Field Laboratory Projects and Workshop (1-6). First and second semesters and summer. Staff.
- Rec. 190. Organization and Administration of Recreation (3). First and second semesters.

 Harvey.

FOR GRADUATES

- Rec. 200. Seminar in Physical Education, Recreation and Health (1). First and second semesters and summer. Staff.
- Rec. 201. Foundations in Physical Education, Recreation and Health (3). First and second semesters and summer. Harvey.
- Rec. 202. Philosophy of Recreation (2). First and second semesters and summer.

 Harvey.
- Rec. 203. Supervisory Techniques in Physical Education, Recreation and Health (3). First and second semesters and summer. Harvey.
- Rec. 204. Modern Trends in Recreation (3). First and second semesters and summer. Harvey.
- Rec. 210. Methods and Techniques of Research (3). First and second semesters and summer.

 Mohr.
- Rec. 220. Quantitative Methods (3). First and second semesters and summer.

 Massey.
- Rec. 230. Source Material Survey (3). First and second semesters and summer.

 Massey.
- Rec. 240. Industrial Recreation (3). First and second semesters and summer.

 Harvey.
- Rec. 260. Hospital Recreation (3). First and second semesters and summer.

 Harvey.
- Rec. 287. Advanced Seminar (1-2). First and second semesters and summer.

 Staff.
- Rec. 288. Special Problems in Physical Education, Recreation and Health (1-6). First and second semesters and summer.
- Rec. 289. Research—Thesis (1-5). First and second semesters and summer.

 Staff.
- Rec. 290. Administrative Direction of Physical Education, Recreation and Health (3). First and second semesters and summer.

Johnson-Deach.

PHYSICS

Professors Morgan, Myers, Toll; Visiting Professor Herman; Research Professor Montroll*; Visiting Research Professors Burgers*, Imai*; Part-time Professors Brickwedde, de Launay, Kennard, Wangsness: Associate Professors R. Anderson, Iskraut, Singer; Associate Research Professors Pai*, Resler*; Assistant Professors Ferrell, Grant, Krumbein; Assistant Research Professor Hama*; Research Associates J. Anderson, Homa, Isihara, Potts, Tanaka*, Tredgold, Visscher; Part-time Lecturers Aitkin, Bass, Friedman, Green, Harrington, Hayward, Herzfeld, Jastrow, Marton, McGuire, Oppenheim, O'Rourke, Overton, Petritz, Saenz, Shapiro, Slawsky, M. Snavely, Snow, Stern, Stewart, Szebehely, Wada.

^{*}Member of the Institute for Fluid Dynamics and Applied Mathematics.

It is expected that the following courses should have been taken preliminary to graduate work. Any deficiencies should be made up at once. A limited amount of graduate credit will be allowed for courses so taken.

General Physics
Heat
Intermediate Mechanics
Optics

Electricity and Magnetism Modern Physics Differential and Integral Calculus

Candidates for both the Master's and Doctor's degree are required to take Introduction to Theoretical Physics (Physics 200, 201). The course runs for a full year and carries 10 semester hours credit. The minimum prerequisites in mathematics are differential and integral calculus, but advanced calculus and differential equations are recommended.

Candidates for the Doctor's degree should follow the Introduction to Theoretical Physics with Quantum Mechanics. No other courses are specifically required. It is recommended in the selection of further courses that the student avoid overspecialization in any field. In particular he should take a wide variety of classical courses as well as courses in selected fields of Modern Physics.

Candidates for advanced degrees in Physics may have a minor in either chemistry, mathematics, engineering, applied physics, or a satisfactory combination of two or more of the group.

Thesis (Ph.D.): The student must outline his topic to the graduate staff for approval. This outline must clearly set forth the nature of the problem, proposed method of precedure and the possible results that may be obtained. The completed thesis will also be presented to the graduate staff for approval.

Off-Campus Courses: The Physics Department offers courses at convenient times and places so as to accommodate the greatest number of students. In order to facilitate graduate study and supervision of research in the Washington area, the Department has part-time professors in certain government laboratories where a large number of students are interested in graduate study and where there are facilities for research. All students who began graduate work in University of Maryland courses after 1954 will be required to complete on the College campus at least 18 credits of their graduate work for the Ph. D. degree in physics: these credits must include at least 2 credits of Physics 230, Seminar, and the remainder can be divided among major and minor courses and thesis research. Normally, students will complete a much greater proportion of their graduate study on the College Park campus. At government agencies where there is no part-time professor, employees desiring to do graduate work in physics should contact a member of the graduate staff in the Physics Department.

A. General Physics

FOR GRADUATES AND ADVANCED UNDERGRADUATES

Phys. 100. Advanced Experiments. Three hours of laboratory work for each credit hour. One or more credits may be taken concurrently. Prerequisites, Phys. 52 or 54. Laboratory fee, \$10.00 per credit hour. Krumbein.

Phys. 102. Optics (3). Three lectures a week, second semester. Prerequisites, Phys. 11 or 21; Math. 21. Krumbein.

- Phys. 104, 105. Electricity and Magnetism (3, 3). Three lectures a week. Prerequisites, Phys. 11 or 21; Math. 21.
- Phys. 106, 107. Theoretical Mechanics (3, 3). Three lectures a week, first and second semesters. Prerequisites, Phys. 51 or consent of instructor.

Tanaka.

- Phys. 118. Introduction to Modern Physics (3). First semester. Three lectures a week. Prerequisite, Math. 21 and Phys. 11 or 21. Myers.
- Phys. 119. Modern Physics (3). Second semester. Prerequisite, Phys. 118. Myers.
- Phys. 120. Nuclear Physics (4). Four lectures a week. Prerequisite, Phys. 118 or equivalent. Visscher.
- Phys. 122. Properties of Matter (4). Four lectures per week. Prerequisite,
 Phys. 118 or equivalent.

 Myers.
- Phys. 126. Kinetic Theory of Gases (3). Prerequisite, Phys. 107 and Math. 21, or equivalent.
- Phys. 130, 131. Basic Concepts of Physics (2, 2). Two lectures a week. First and second semester. Prerequisite: Junior standing. Lecture demonstration fee, \$2.00 per semester.

 J. Anderson.

A primarily descriptive course intended mainly for those students in the liberal arts who have not had any other course in Physics. This course does not satisfy the requirements of professional schools nor serve as a prerequisite or substitute for other physics courses. The main emphasis in the course will be on the concepts of physics, their evolution and their relation to other branches of human endeavor.

Phys. 150. Special Problems in Physics. Research or special study. Credit according to work done. Laboratory fee, \$10.00 per credit hour when appropriate. Prerequisite, major in physics and consent of Instructor. Faculty.

FOR GRADUATES

Of the following courses, 200, 201, 212 and 213 are given every year; all others will be given according to the demand.

- Phys. 200, 201. Introduction to Theoretical Physics (5, 5). Five lectures a week, first and second semesters.

 Myers.
- Phys. 202, 203. Advanced Dynamics (2, 2). Two lectures a week. Prerequisite, Phys. 200.
- Phys. 204. Electrodynamics (4). Four lectures a week. Prerequisite, Phys. 201. Iskraut.
- Phys. 206. Physical Optics (3). Prerequisite, Phys. 201. Myers.
- Phys. 208, 209. Thermodynamics (2, 2). Prerequisite, Phys. 201 or equivalent.

 Schamp.
- Phys. 210, 211. Statistical Mechanics and the Kinetic Theory of Gases (2, 2).

 Two lectures a week. Prerequisites, Phys. 112 and 201. Montroll.

- Phys. 212, 213. Introduction to Quantum Mechanics (3, 3). Three lectures a week, first and second semesters. Prerequisite, Phys. 201. Ferrell.
- Phys. 214. Theory of Atomic Spectra (3). Three lectures a week. Prerequisite, Phys. 201. Anderson, R.
- Phys. 215. Theory of Molecular Spectra (3). Three lectures a week. Prerequisite, Phys. 214.

 Anderson, R.
- Phys. 216, 217. Molecular Physics (2, 2). Two lectures a week. Prerequisite, Phys. 213. Jansen.
- Phys. 222, 223. Boundary-Value Problems of Theoretical Physics (2, 2). Prerequisite, Phys. 201. de Launay.
- Phys. 230. Seminar. Seminars on various topics in advanced physics are held each semester, with the contents varied each year. One semester credit for each seminar each semester.

 Faculty.
- Phys. 234, 235. Theoretical Nuclear Physics (3, 3). Prerequisite, Phys. 213.

 Visscher.
- Phys. 236. Theory of Relativity (3). Prerequisite, Phys. 200. Iskraut.
- Phys. 237. Relativistic Quantum Mechanics (3). Three lectures per week. Prerequisite, Phys. 213.

 Toll, Ferrell.
- Phys. 238. Quantum Theory—selected topics (3). Prerequisite, Phys. 212 and 236. Anderson, J.
- Phys. 242, 243. Theory of Solids (2, 2). Two lectures a week, first and second semesters. Prerequisite, Phys. 213. Montroll.
- Phys. 248, 249. Special Topics in Modern Physics (2, 2). Two lectures a week.

 Prerequisite, Calculus and consent of instructor.

 Faculty.
- Phys. 250. Research. Credit according to work done. Laboratory fee, \$10.00 per credit hour. Prerequisite: An approved application for admission or special permission of the Physics Department.

 Faculty.

B. Applied Physics

- Phys. 101. Laboratory Arts. Three hours laboratory a week for each credit hour. One or more credits may be taken concurrently. Laboratory fee, \$10.00 per credit hour.

 R. Anderson.
- Phys. 103. Applied Optics (3). Three lectures a week, first semester. Prerequisite, Phys. 102.
- Phys. 108. Physics of Electron Tubes (3). Three lectures a week, first semester. Prerequisite, Phys. 104 must be taken previously or concurrently.

 Grant.
- Phys. 109. Electronic Circuits (4). Four lectures a week, second semester.

 Prerequisite, Phys. 105 must be taken previously or concurrently. Grant.
- Phys. 110. Applied Physics Laboratory (1, 2, or 3). Three hours laboratory

- work for each credit hour. One to three credits may be taken concurrently Prerequisites, Phys. 52 or Phys. 54; and one credit in Phys. 100. Krumbein.
- Phys. 111. Physics Shop Techniques (1). One three-hour laboratory per week.

 Laboratory fee, \$10.00.

 Staff.
- Phys. 114, 115. Introduction to Biophysics (2, 2). First and second semesters.

 Two lectures a week. Prerequisite, intermediate Physics and Calculus.

 Morowitz.
- Phys. 116, 117. Fundamental Hydrodynamics (3, 3). Three lectures a week.
 Prerequisites, Phys. 107 and Math. 21.
 Resler.
- Phys. 121. Neutron Physics and Fission Reactors (4). Four lectures a week, second semester. Prerequisite, Phys. 120. Shapiro.
- Phys. 151. Special Problems in Applied Physics. Research or special study in applied physics. Credit according to work done. Laboratory fee, \$10.00 per credit hour when appropriate. Prerequisite, major in physics and consent of instructor.

 Faculty.

FOR GRADUATES

- Phys. 218. 219. X-Rays and Crystal Structure (3, 3). Three lectures a week, first and second semesters.

 Morgan.
- Phys. 220. Application of X-Ray and Electron Diffraction Methods (2). Two laboratory periods a week. Morgan.
- Phys. 224, 225. Supersonic Aerodynamics and Compressible Flow (2, 2). Prerequisite, Phys. 201.
- Phys. 226, 227. Theoretical Hydrodynamics (3, 3). Prerequisite, Phys. 201.

 Resler.
- Phys. 231. Applied Physics Seminar. (One semester credit for each seminar each semester).

 Faculty.
- Phys. 232, 233. Hydromechanics Seminar (1, 1). Kennard.
- Phys. 240, 241. Theory of Sound and Vibrations (3, 3). Prerequisite, Phys. 201.
- Phys. 245. Special Topics in Applied Physics. (2 credits each semester). Two lectures a week.

 Faculty.
- Phys. 246, 247. Special Topics in Fluid Dynamics (2, 2). Prerequisites, advanced graduate standing and consent of the instructor. Resler.
- Phys. 262, 263. Aerophysics (3, 3). Prerequisite, consent of the instructor.

 Resler.

C. Special Physics Courses for High School Science Teachers

The courses in this section were especially designed for High School teachers and are not applicable to B.S., M.S., or Ph.D. degrees in physics without special permission of the Physics Department. However, these courses can be included as part of a physics minor or as electives.

- Phys. 118a. Atoms, Nuclei, and Stars (3). Three lectures per week. Herzfeld.
- Phys. 122a. Properties of Materials (3). Three lectures per week. Myers.
- Phys. 160a. Physics Problems (1, 2, 3). Lectures and discussion sessions arranged. Credit according to work done.

 J. Anderson.
- Phys. 170a. Applied Physics (3). Three lectures per week. Montroll.

POULTRY HUSBANDRY

Professors Shaffner, Combs, Mary Juhn, Mary S. Shorb, Romoser, Wilcox.

Course work and research leading to the Master of Science and the Doctor of Philosophy are offered.

FOR GRADUATES AND ADVANCED UNDERGRADUATES

- P. H. 104. Technology of Market Eggs and Poultry (3). Two lectures and one laboratory period a week, first semester.
- A. E. 117. Economics of Marketing Eggs and Poultry (3). Three lectures a week, second semester. (See A. E. 117.)
- P. H. 107. Poultry Industrial and Economic Problems (2). First semester.

 Staff.
- P. H. 108. Special Poultry Problems (1-2). Assigned problems, first and second semesters. Staff.

Poultry Hygiene. See V. S. 107.

Avian Anatomy. See V. S. 108.

FOR GRADUATES

- P. H. 201. Advanced Poultry Genetics (3). First semester. Prerequisite, P.H. 100, and Zoology 104 or equivalents. Wilcox.
- P. H. 202. Advanced Poultry Nutrition (3). Three lectures a week, second semester. Prerequisite, P. H. 101, Chem. 31, 32, 33, and 34 or permission of instructor.

 Combs.
- P. H. 203. Physiology of Reproduction of Poultry (3). Two lectures and one laboratory period a week, first semester. Prerequisite, P. H. 102, or equivalent.
- P. H. 204. Poultry Seminar (1). First and second semesters. Staff.
- P. H. 205. Poultry Literature (1-4). First and second semesters. Staff.
- P. H. 206. Poultry Research (1-6). Credit in accordance with work done.

 Staff.
- P. H. 207. Poultry Nutrition Laboratory (2). One lecture and one laboratory period a week, first semester. (Not given in 1955-56).

Combs, Romoser.

PSYCHOLOGY

Professors Andrews, Cofer, Hackman; Associate Professors Ayers, Gustad,
Ross; Assistant Professor McGinnies, Magoon.

All graduate students who have deficiencies in their undergraduate preparation in psychology will be required to remove the particular deficiencies by completing the required courses or by individual study. Deficiencies in the following course areas can be removed only by registering in and satisfactorily completing these courses: Experimental Psychology, Statistical Methods, and Tests and Measurements.

Departmental requirements toward the Master of Arts or the Master of Science degrees: 14-hours in the following courses: Psych. 191-192, 198, and 252-253; 6 hours of research (Psych. 290-291); a minimum of 6 hours in advanced courses in area of specialization; and 8 hours in an approved minor field; total 34 hours.

Departmental requirements toward the Doctor of Philosophy degree: 24 hours in the following courses, Psych. 191-192, 198, 202, 203, 205-206, 252-253, which constitute a minor in General Psychology; 18 hours of graduate research including 12 hours for Ph.D. Thesis; a minimum of 30 hours in areas of specialization; total 72 hours.

FOR GRADUATES AND ADVANCED UNDERGRADUATES

Graduate credit will be assigned only for students certified by the Department of Psychology as qualified for graduate standing.

- Psych. 106. Statistical Methods in Psychology (3). First and second semesters.

 Prerequisite, Psych 1. Hackman.
- Psych. 110. Educational Psychology (3). Second semester. Prerequisite,
 Psych. 1. Heintz.
- Psych. 121. Social Psychology (3). First and second semesters. Prerequisite,
 Psych. 1. Heintz, McGinnies, Wegner.
- Psych. 122. Advanced Social Psychology (3). Second semester. Prerequisite,
 Psych. 121 and consent of instructor.

 McGinnies.
- Psych. 125. Child Psychology (3). First semester. Prerequisite, Psych. 1.

 Heintz.
- Psych. 126. Developmental Psychology (3). First semester. Prerequisite, Psych. 1. Heintz.
- Psych. 128. Human Motivation (3). First and second semesters. Prerequisite,
 Psych. 121. Cofer.
- Psych. 129. Psychological Aspects of Literature (3). First and second semesters.

 Prerequisite, Psych. 131 or permission of instructor.

 Sprowls.
- Psych. 131. Abnormal Psychology (3). First and second semesters. Prerequisite, 3 courses in Psychology.

 Magoon, Pomroy.

- Psych. 136. Applied Experimental Psychology (3). Second semester. Prerequisite, Psych. 1. Ross.
- Psych. 140. Psychological Problems in Advertising (3). Second semester.

 Prerequisite, Psych. 1. Hackman.
- Psych. 142. Techniques of Interrogation (3). First and second semesters.

 Prerequisite, Psych. 121.

 Hackman.
- Psych. 145. Introduction to Experimental Psychology (4). First and second semesters. Prerequisite, Psych. 4. Laboratory fee, \$4.00. Ross.
- Psych. 150. Tests and Measurements (3). First semester. Prerequisite, Psych. 106. Laboratory fee, \$4.00. Gustad, Magoon.
- Psych. 161. Industrial Psychology (3). Second semester. Ayers.
- Psych. 167. Psychological Problems in Aviation (3). First semester. Prerequisite, Psych. 1. Payne.
- Psych. 180. Physiological Psychology (3). Prerequisite, Psych. 145.

 Andrews, Ross.
- Psych. 181. Animal Behavior (33). (Same as Zool. 181). Second semester.

 Prerequisite, consent of instructor.

 Ross.
- Psych. 191, 192. Advanced General Psychology (3, 3). First and second semesters. Prerequisite, 15 hours of Psychology including Psych. 145 and consent of instructor.

 Ross, Cofer.
- Psych. 194. Independent Study in Psychology (1-3). First and second semesters. Prerequisite, written consent of individual faculty supervisor.

Staff.

- Psych. 195. Minor Problems in Psychology (1-3). First and second semesters.

 Prerequisite, written consent of individual faculty supervisor.

 Staff.
- Psych. 198. Proseminar: Professional Aspects of Psychological Science (2).

 Second semester. Prerequisite, consent of faculty advisor. Staff.

FOR GRADUATES

(All the following courses require consent of the instructor.)

- Psych. 202. Seminar in Advanced Experimental Psychology (2). Andrews.
- Psych 203, 204. Graduate Seminar (2, 2). First and second semesters. Staff.
- Psych. 205, 206. Historical Viewpoints and Current Theories in Psychology (3, 3). First and second semesters. Hackman, Cofer.
- Psych. 211. Job Analysis and Evaluation (3). First semester. Ayers.
- Psych, 220. Psychological Concepts in Mental Health (2). Second semester.

 Gustad, Magoon.
- Psych. 221. Seminar in Counseling Psychology (2). Gustad.

- Psych. 222. Seminar in Clinical Psychology. (2). Prerequisites, Psych. 150, 220.

 Magoon.
- Psych. 223. Diagnosis and Correction of Reading Difficulties (3). Second semester. Prerequisites, Psych. 150, 220. Benimoff.
- Psych. 224. Advanced Procedures in Clinical and Counseling Psychology (2).
- Psych. 225. Practicum in Counseling and Clinical Procedures. (1-3). First and second semester. Prerequisite, Psych. 220. Gustad, Magoon.
- Psych. 230. Determinants of Human Efficiency (3). Second semester.
- Psych. 231. Training Procedures in Industry (3). Second semester. Ayers.

Ross.

- Psych. 233. Social Organization in Industry (3). First semester. Ayers.
- Psych. 235. Psychological Aspects of Management-Union Relations (3).

 First semester. Ayers.
- Psych. 240. Interview and Questionnaire Techniques (3). Second semester.

 Hackman.
- Psych. 241. Mass Communication and Persuasion (3). Second semester.

 McGinnies.
- Psych. 242. Seminar in Social Psychology (3). Second semester. McGinnies.
- Psych. 250. Mental Test Theory (2). First semester. Prerequisite, Psych. 253.

 Gustad.
- Psych. 251. Development of Predictors (3). First semester. Prerequisite, Psych. 253.
- Psych. 252, 253. Advanced Statistics (3, 3). First and second semesters. Prerequisite, Psych. 106. Hackman, Andrews.
- Psych. 255. Seminar in Psychometric Theory (2). Prerequisite, Psych. 253.

 Andrews, Hackman.
- Psych. 260. Individual Tests (3). Prerequisite, Psych. 150. Laboratory fee, \$4.00. Magoon.
- Psych. 262. Appraisal of Personality (3). Prerequisite, Psych. 150. Cofer.
- Psych. 264. Projective Tests (3). Second semester. Prerequisite, Psych. 260. Laboratory fee, \$4.00. Prerequisites, Psych. 260. Cofer.
- Psych. 265. Advanced Developmental Psychology (2).
- Psych. 266, 267. Theories of Personality and Motivation (3, 3). First and second semesters.
- Psych. 270. Advanced Abnormal Psychology (3). Prerequisite, Psych. 131.

 Cofer, Gustad.
- Psych. 271. Special Testing of Disabilities (3). Second semester. Prerequisite,
 Psych. 260. Magoon.

- Psych. 272, 273. Individual Clinical Diagnosis (3, 3). Prerequisite, Psych. 260.
- Psych. 280. Advanced Psychophysiology (2). First semester. Andrews, Ross.
- Psych. 288, 289. Special Research Problems (1-3). First and second semesters. Staff.
- Psych. 290, 291. Research for Thesis (credit arranged). First and second semesters. Staff.

SOCIOLOGY

Professors Hoffsommer, Lejins; Associate Professors Melvin, Shankweiler; Assistant Professors Anderson, Coates, Fitzgerald, Rohrer, Roth.

The Department of Sociology grants the degrees of Master of Arts and Doctor of Philosophy. Fields of specialization include Anthropology, Criminology, Rural and Urban Sociology, Mental Health, The Family, Industrial Sociology, Social Theory, Social Psychology and Research Methods.

Prerequisites for graduate study leading to an advanced degree with a major in sociology consist of either (1) an undergraduate major (totalling at least 24 semester hours) in sociology or (2) 12 semester hours of sociology (including 6 semester hours of advanced courses) and 12 additional hours of comparable work in economics, political science, or psychology. Reasonable substitutes for these prerequisites may be accepted in the case of students majoring in other departments who desire a graduate minor or several courses in sociology.

FOR GRADUATES AND ADVANCED UNDERGRADUATES

- Soc. 105. Cultural Anthropology (3). Second semester. Anderson.
 - Melvin.

Schmidt.

Roth.

- Soc. 112. Rural-Urban Relations (3). First semester. Soc. 113. The Rural Community (3). Second semester. Prerequisite, Soc. 1,
- or its equivalent. Hoffsommer, Coates. Soc. 114. The City (3). First semester. Summer School (2). Prerequisite.
- Soc. 1, or its equivalent. Soc. 115. Industrial Sociology (3). Second semester. Summer School (2). Prerequisite, Soc. 1, or its equivalent.
- Soc. 118. Community Organization (3). First semester. Summer School (2). Prerequisite, Soc. 1, or its equivalent. Roth.
- Soc. 121, 122. Population (3, 3). Three hours a week, first and second equivalent. Hirzel.
- Soc. 123. Ethnic Minorities (3). First semester. Summer School (2). Prerequisite, Soc. 1, or its equivalent. Leiins.
- Soc. 124. The Culture of the American Indian (3). Second semester. Pre-
- requisite, Soc. 1, or its equivalent. Anderson. Soc. 131. Introduction to Social Service (3). First and second semesters.
- Soc. 136. Sociology of Religion (3). First semester. Summer School (2). Prerequisite, Soc. 1, or equivalent. Anderson.

- Soc. 141. Sociology of Personality (3). First semester. Summer School (2).

 Prerequisite, Soc. 1, or its equivalent.

 Motz.
- Soc. 144. Collective Behavior (3). Second semester. Prerequisite, Soc. 1, or its equivalent. Melvin.
- Soc. 145. Social Control (3). First semester. Prerequisite, Soc. 1, or its equivalent. Motz.
- Soc. 147. Sociology of Law (3). First semester. Prerequisite, Soc. 1, or its equivalent. Lejins.
- Soc. 153. Juvenile Delinquency (3). First semester. Summer School (2). Prerequisite, Soc. 1, or its equivalent. Lejins.
- Soc. 154. Crime and Delinquency Prevention (3). Second semester. Prerequisites, Soc. 1, or its equivalent; Soc. 52, Soc. 153, or consent of instructor. Leiins.
- Soc. 156. Institutional Treatment of Criminals and Delinquents (3). Second semester. Summer School (2). Prerequisites, Soc. 1, or its equivalent; Soc. 52, Soc. 153, or consent of instructor.

 Lejins.
- Soc. 160. Interviewing in Social Work (1½). Summer School only. Roth.
- Soc. 161. The Sociology of War (3). First semester. Summer School (2).

 Coates.
- Soc. 162. Basic Principles and Current Practice in Public Welfare (3). Summer School only. Roth.
- Soc. 163. Attitude and Behavior Problems in Public School Work (1½).

 Summer School only. Roth.
- Soc. 164. The Family and Society (3). Summer School (2). Shankweiler.
- Soc. 171. Family and Child Welfare (3). First semester. Summer School (2).

 Prerequisite, Soc. 1, or its equivalent.

 Roth.
- Soc. 173. Social Security (3). First semester. Prerequisite, Soc. 1, or its equivalent. Staff.
- Soc. 174. Public Welfare (3). Second semester. Prerequisite, Soc. 1, or its equivalent. Roth.
- Soc. 183. Social Statistics (3). Second semester. Prerequisite, Soc. 1, or its equivalent. Schmidt.
- Soc. 185. Advanced Social Statistics (3). Second semester. Prerequisite,
 Soc. 183, or its equivalent. Schmidt.
- Soc. 186. Sociological Theory (3). Second semester. Prerequisite, Soc. 1, or its equivalent.

 Melvin.
- Soc. 196. Senior Seminar (3). Second semester. Hoffsommer.

- Soc. 201. Methods of Social Research (3). First semester. Hoffsommer.
- Soc. 215. Community Studies (3). First semester. Hoffsommer.
- Soc. 221. Population and Society (3). Second semester. Hirzel.
- Soc. 224. Race and Culture (3). Second semester. Anderson.

Soc. 230.	Comparative Sociology (3). Second semester.	Melvin.
Soc. 241.	Personality and Social Structure (3). Second semester.	Staff.
Soc. 246.	Public Opinion and Propaganda (3). Second semester.	Motz.

Soc. 253. Advanced Criminology (3). First semester. Lejins.

Soc. 254. Seminar: Criminology (3). Second semester. Lejins.

Soc. 255. Seminar: Juvenile Delinquency (3). First semester. Leiins.

Soc. 256. Crime and Delinquency as a Community Problem (3). Second Lejins. semester.

Soc. 257. Social Change and Social Policy (3). First semester. Staff.

Soc. 262. Family Studies (3). Second semester. Shankweiler.

Soc. 264. The Sociology of Mental Health (3). First semester. Melvin.

Soc. 282. Sociological Methodology (3). Second semester. Staff.

Soc. 285. Seminar: Sociological Theory (3). First semester. Melvin.

Soc. 290. Research in Sociology. Credit to be determined. Staff.

Soc. 291. Special Social Problems. First and second semester. Credit to be determined. Staff.

SPEECH AND DRAMATIC ART

Associate Professor Strausbaugh; Assistant Professors Batka, Hendricks, Linkow, Niemeyer, Provensen; Instructors Bedwell, Craven, Pugliese; Lecturers Butler, Causey, Lore, Shutts.

The Department offers work leading to the Master of Arts degree in the field of Speech Pathology and Correction.

- Speech 102. Radio Production (3). Second semester. Admission by consent of instructor. Laboratory fee, \$2.00. Batka
- Speech 103, 104. Speech Composition and Rhetoric (3, 3). First and second Staff. semesters.
- Speech 105. Speech-Handicapped School Children (3). Second semester. Admission by consent of instructor. Craven and Staff.
- Speech 106. Clinical Practice (1-5 credits, up to 9). Each semester and summer. Prerequisite, Speech 105. Craven.

- Speech 107. Advanced Oral Interpretation (3). Second semester. Prerequisite,
 Speech 13. Provensen.
- Speech 109. Speech and Language Development of Children (3). Second semester. Admission by consent of instructor. An analysis of normal and abnormal processes of speech and language development in children.

Hendricks.

Speech 111. Seminar (3). First and second semesters.

Strausbaugh.

Speech 112. Phonetics (3). First semester.

Hendricks.

Speech 113. Play Production (3). Second semester.

Pugliese.

- Speech 115. Radio in Retailing (3). First semester. Limited to students in the College of Home Economics. Prerequisites, Speech 1, 2; English 1, 2. Laboratory fee, \$2.00.

 Batka.
- Speech 116. Radio Announcing (3). Second semester. Prerequisite, Speech 4. Laboratory fee, \$2.00. Batka.
- Speech 117. Radio Continuity Writing (3). First semester. Admission by consent of instructor.

 Bedwell.
- Speech 118. Advanced Radio Writing (3). Second semester. Prerequisites,
 Speech 117 and consent of instructor.

 Bedwell.
- Speech 119. Radio Acting (3). Second semester. Admission by consent of the instructor.

 Pugliese.
- Speech 120. Speech Pathology (3). First semester. Prerequisite, Speech 105.

 A continuation of Speech 105.

 Hendricks.
- Speech 122, 123. Radio Workshop (3, 3). First and second semesters. Admission by consent of instructor. Laboratory fee, \$2.00 per semester.

Batka.

- Speech 126. Semantic Aspects of Speech in Human Relations (3). Second semester. Hendricks.
- Speech 131. History of the Theatre (3). First semester. Niemeyer.
- Speech 132. History of the Theatre (3). Second semester. Niemeyer.
- Speech 133. Staff Reports, Briefings, and Visual Aids (3). Second semester.

 Limited to the students in the College of Military Science. Prerequisites,
 Speech 5 and 6.

 Linkow.
- Speech 135. Introduction to Audiology (3). Second semester. Study of the basic problems of deafness among children and adults. Craven and Staff.
- Speech 136. Principles of Speech Therapy (3). Prerequisite, Speech 120.

 Hendricks.
- Speech 137. Experimental Phonetics (3). Prerequisite, Speech 112.

 Hendricks.
- Speech 138. Methods and Materials in Speech Correction (3). Prerequisite,
 Speech 120 or the equivalent.

 Craven.

Speech 139. Theatre Workshop (3). Prerequisite, Speech 8 or Speech 14.
Strausbaugh.

Speech 140. Principles of TV Production (3). First semester. Prerequisite, Speech 22.

A study of the theory, methods, techniques and problems of television direction and production on a local and national level, including an examination of the TV camera, scenery, film and lighting.

Bedwell.

FOR GRADUATES

The Department maintains a reciprocal agreement with Walter Reed General Hospital whereby clinical practice may be obtained at the Army Audiology and Speech Correction Center, Forest Glen, Maryland, under the direction of James P. Albrite, M. D., Director.

Speech 200. Thesis (3-6). Credit in proportion to work done and results accomplished.

Hendricks.

Speech 201. Special Problems (2-4). Arranged. Hendricks.

Speech 210. Anatomy and Physiology of Speech and Hearing (3). Staff.

Speech 211. Advanced Clinical Practice (3). Staff.

Speech 212. Advanced Speech Pathology (3). Second semester. Lore.

Speech 213. Speech Problems of the Hard of Hearing (3). First semester.

Lore.

Speech 214. Clinical Audiometry (3). First semester. Shutts.

Speech 215. Auditory Training (3). Second semester. Causey.

Speech 216. Speech Reading (3). First semester. Causey.

Speech 217. Clinical Practice in the Selection of Prosthetic Appliances (3).

Second semester. Shutts.

Speech 218. Problems of Hearing and Deafness (3).

Butler.

Speech 219. Speech Disorders of the Brain-Injured (3). Hendricks.

VETERINARY SCIENCE

Professors Brueckner, DeVolt, Poelma, Hansen, Reagan; Associate Professor Sperry

- V. S. 101. Comparative Anatomy (3). Two lectures and one laboratory period a week, first semester. Sperry.
- V. S. 102. Animal Hygiene (3). Two lectures and one laboratory period a week, second semester. Sperry.
- V. S. 103. Regional Comparative Anatomy (3). One lecture and one laboratory period a week, first semester. Sperry.

- V. S. 104. Advanced Regional Comparative Anatomy (2). Two laboratory periods a week, second semester. Sperry.
- V. S. 107. Poultry Hygiene (3). Two lectures and one laboratory period a week, second semester.

 DeVolt.
- V. S. 108. Avian Anatomy (3). Two lectures and one laboratory period a week, first semester.

 DeVolt.

FOR GRADUATES

V. S. 201. Animal Disease Problems (2-6). Arranged

Poelma, DeVolt, Hansen, Brueckner.

V. S. 202. Animal Disease Research. Arranged.

Poelma, DeVolt, Hansen, Brueckner.

V. S. 203. Electron Microscopy (2). One lecture and one laboratory period a week, first semester. Reagan, Brueckner.

ZOOLOGY

Professors Burhoe, Wharton; Associate Professors Anastos, Littleford; Assistant Professors Allen, Brown, Grollman, Livingstone, Ramm, Winn.

The Department of Zoology offers work leading to the Master of Science and the Doctor of Philosophy degrees. The general academic requirements which must be fulfilled for these degrees are described earlier in the catalog.

The special fields which graduate students may emphasize in working toward these degrees are cytology, ecology, embryology, fisheries, genetics, parasitology, physiology and systematics. In some fields opportunities for training and summer employment in nearby research laboratories are available to qualified students and under certain circumstances graduate students may work, under supervision, with the unrivaled collections of the U. S. National Museum of the Smithsonian Institution, in Washington, D. C. Information concerning the specific requirements in each of these fields may be obtained from the department.

- Zool. 102. General Animal Physiology (4). Two lectures and two three-hour laboratory periods a week, second semester. Occasional summer school. Laboratory fee, \$8.00. Prerequisites, one year of zoology and one year of chemistry.

 Grollman.
- Zool. 104. Genetics (3). Three lecture periods a week, first semester. Summer school. Prerequisite, one course in zoology or botany. Burhoe.
- Zool. 108. Animal Histology (4). Two lectures and two three-hour laboratory periods a week, second semester. Occasional Summer school. Laboratory fee, \$8.00. Prerequisite, one year of zoology.

 Brown.
- Zool. 110. Parasitology (4). Two lectures and two two-hour laboratory periods a week, first semester. Occasional Summer School. Laboratory fee, \$8.00. Prerequisite, one year of zoology.

 Anastos.

- Zool. 111. Veterinary Parasitology (4). Two lectures and two two-hour laboratory periods a week, second semester. Laboratory fee, \$8.00. Prerequisite, one year of zoology or permission of the instructor. Alternate years. To be offered 1956-57.
- Zool. 112. Wildlife Parasitology (4). Two lectures and two-two hour laboratory periods a week, second semester. Laboratory fee, \$8.00. Prerequisite, one year of zoology, or permission of the instructor. Alternate years. Not offered 1956-57.
- Zool. 118. Invertebrate Zoology (4). Two lectures and two three-hour laboratory periods a week, first semester. Occasional Summer School. Laboratory fee, \$8.00. Prerequisite, one year of Zoology. Allen.
- Zool. 121. Principles of Animal Ecology (3). Two lectures and one three-hour laboratory period a week, second semester. Occasional Summer School. Laboratory fee, \$8.00. Prerequisites, one year of zoology and one year of chemistry.
- Zool. 125. Fisheries Biology and Management (3). Two lectures and one three-hour laboratory period a week, first semester. Laboratory fee, \$8.00. Alternate years. Not offered 1956-57.
- Zool. 126. Shell Fisheries (3). Two lectures and one three-hour laboratory period a week, second semester. Laboratory fee, \$8.00. Alternate years. Not offered 1956-57.
- Zool. 127. Ichthyology (3). One lecture and two three-hour laboratory periods a week, second semester. Laboratory fee, \$8.00. Prerequisites, Zool. 5 and 20. Alternate years. To be offered 1956-57.
- Zool. 128. Zoogeography (4). Two lectures and two two-hour laboratory periods a week, first semester. Laboratory fee, \$8.00. Prerequisite, one year of zoology, botany or geology. Alternate years. To be offered 1956-57.

 Livingstone.
- Zool. 181. Animal Behavior (3). (Same as Psych. 181). Three lectures a week, second semester. Prerequisite, permission of instructor. Alternate years. Not offered 1956-57.
 Ross.

For Graduates

- Zool. 200. Marine Zoology (4). Two lectures and two three-hour laboratory periods a week, first semester. Laboratory fee, \$8.00. Alternate years. Not offered 1956-57.

 Allen.
- Zool. 202. Animal Cytology (4). Two lectures and two three-hour laboratory periods a week, first semester. Laboratory fee, \$8.00. Prerequisite, Zoology 108. Alternate years. To be offered 1956-57.
- Zool. 203. Advanced Embryology (4). Two lectures and two three-hour laboratory periods a week, second semester. Laboratory fee, \$8.00. Prerequisite, Zoology 20. Alternate years. Not offered 1956-57. Ramm.
- Zool. 204. Advanced Animal Physiology (4). Two lectures and two three-hour

- laboratory periods a week, first semester. Laboratory fee, \$8.00. Prerequisite, Zoology 102. Grollman.
- Zool. 205. Limnology (4). Two lectures and two three-hour laboratory periods a week, first semester. Laboratory fee, \$8.00. Alternate years. Not offered 1956-57.
- Zool. 206. Research. Credit to be arranged. First and second semesters. Summer School. Work on thesis project only. A—Cytology; B—Embryology; C—Fisheries; D—Genetics; E—Parasitology; F—Physiology; G—Systematics; and H—Ecology. Laboratory fee, \$8.00.
- Zool. 207. Zoology Seminar. Credit to be arranged. One lecture a week, for each credit hour, first and second semesters. Summer School. A—Cytology; B—Embryology; C—Fisheries; D—Genetics; E—Parasitology; F—Physiology; G—Systematics; H—Ecology; and S—Recent Advances. Staff.
- Zool. 208. Special Problems in Zoology: A—Cytology; B—Embryology; C—Fisheries; D—Genetics; E—Parasitology; F—Physiology G—Systematics; and H—Ecology. Hours and credits arranged. First and second semester. Laboratory fee, \$8.00.
- Zool. 209. Advanced Parasitology (4). Three lectures and one three-hour laboratory period a week, first semester. Laboratory fee, \$8.00. Prerequisite, Zoology 100 or permission of instructor. Alternate years. To be offered 1956-57.

 Anastos.
- Zool. 210. Systematic Zoology (4). Three lectures and one three-hour laboratory period a week, second semester. Laboratory fee, \$8.00. Alternate years. To be offered 1956-57. Wharton.
- Zool. 211, 212. Lectures in Zoology (3, 3). Three lectures a week, first and second semesters.

 Visiting Lecturers.
- Zool. 215S. Fisheries Technology (4). Two lectures and two three-hour laboratory periods a week. Laboratory fee, \$8.00. Prerequisite, consent of instructor. Alternate years. To be offered as needed at Seafood Processing Laboratory, Crisfield, Maryland.

 Littleford.
- Zool. 216. Physiological Cytology (4). Two lectures and two three-hour laboratory periods a week, second semester. Laboratory fee, \$8.00. Prerequisites, Chemistry 161, 162, Physics 11, Zoology 102, or permission of the instructor. Alternate years. Not offered 1956-57.

 Brown.
- Zool. 220. Advanced Genetics (4). Two lectures and two three-hour laboratory periods a week, first semester. Laboratory fee, \$8.00. Prerequisite, Zool. 104. Alternate years. To be offered 1956-57.
- Zool. 223. Analysis of Animal Structures (4). Two lectures and two three-hour laboratory periods a week, second semester. Laboratory fee, \$8.00.

 Alternate years. To be offered 1956-57.
- Zool. 231S. Acarology (3). Lectures, recitations and laboratory daily. Laboratory fee, \$8.00.

- Zool. 232S. Medical and Veterinary Acarology (3). Lectures, recitations and laboratory daily. Laboratory fee, \$8.00. Strandtmann.
- Zool. 233S. Agricultural Acarology (3). Lectures, recitations and laboratory daily. Laboratory fee, \$8.00.
 Baker.

SCHOOL OF DENTISTRY

ANATOMY

Professor Hahn; Associate Professor Thompson; Dr. Lindenberg.

- Anatomy 111. Human Gross Anatomy (8). Two lectures and two laboratory periods per week throughout the year. Hahn, Thompson, Lindenberg.
- Anatomy 113. Human Neuroanatomy (2). Two lectures and two laboratory periods for eight weeks. Prerequisite, Anatomy 111.

Hahn, Thompson, Lindenberg.

FOR GRADUATES

- Anatomy 211. Human Gross Anatomy. Credits to be arranged. Same as course 111 but with additional instruction. Hahn, Thompson.
- Anatomy 213. Human Neuroanatomy. Credits to be arranged. Same as course 113 but with additional instruction. Hahn, Thompson, Lindenberg.
- Anatomy 214. The Anatomy of the Head and Neck (3). One lecture and two laboratory periods with conferences per week for one semester.

Hahn, Thompson.

Anatomy 216. Research. Time and credit by arrangement. Staff.

BACTERIOLOGY

See Bacteriology Courses listed under "School of Pharmacy."

BIOCHEMISTRY

Professor Vanden Bosche.

FOR GRADUATES AND ADVANCED UNDERGRADUATES

Biochemistry 111. Principles of Biochemistry (6). Two lectures, one conference and one laboratory period per week through the year.

Vanden Bosche.

- Biochemistry 211. Advanced Biochemistry. Time and credits by arrangement.

 Vanden Bosche.
- Biochemistry 212. Research in Biochemistry. Time and credits by arrangement. Prerequisite, 211.

HISTOLOGY AND EMBRYOLOGY

Professor McCrea and Associate Professor Provenza.

FOR GRADUATES AND ADVANCED UNDERGRADUATES

Histology 112. Mammalian Histology and Embryology (6). Two lectures and two laboratory periods per week throughout the year. McCrea, Provenza.

FOR GRADUATES

- Histology 212. Mammalian Histology and Embryology. Number of credits by arrangement. Same as course 112 but with additional instruction and collateral reading of a more advanced nature. McCrea, Provenza.
- Histology 213. Mammalian Oral Histology and Embryology. Number of credits by arrangement.

 McCrea, Provenza.
- Research in Histology 214. Number of hours and credit by arrangement. Prerequisite, 112 or 212. Staff.
- Research in Embryology 215. Number of hours and credit by arrangement.

 Prerequisites by arrangement.

 Staff.

ORAL PATHOLOGY

Professor Aisenberg.

- · FOR GRADUATES AND ADVANCED UNDERGRADUATES
- Oral Path. 111. General Pathology (4). Two lectures and two laboratory periods per week for one semester.

 Aisenberg.

FOR GRADUATES

- Oral Path. 211. Advanced Oral Pathology (8). Two lectures and two laboratory periods throughout the year. Aisenberg.
- Oral Path. 212. Research. Time and credits by arrangement. Aisenberg.

ORAL SURGERY

Professors Dorsey, Dodd; Assistant Professor Cappuccio.

- Oral Surgery 201. Clinical Anesthesiology (6). Forty hours per week for thirteen weeks.

 Dodd, Hackett.
- Oral Surgery 220. General Dental Oral Surgery (4). Two lectures and two laboratory periods per week for one semester.

 Dorsey and Staff.
- Oral Surgery 221. Advanced Oral Surgery (4). Two lectures and two laboratory periods per week for one semester.

 Dorsey and Staff.
- Oral Surgery 222. Research. Time and credit by arrangement. Staff.

PHYSIOLOGY

Professor Oster; Assistant Professors Shipley, Pollack.

This Department offers work leading toward the degree of Master of Science. The general requirements for this degree are set forth in the section of this catalog entitled "Requirements for the Degree of Master of Arts and Master of Science."

FOR GRADUATES AND ADVANCED UNDERGRADUATES

Physiology 111. Principles of Physiology (6). Sixty-six lectures and seventytwo hours of laboratory work throughout the year. For details of scheduling, consult the Dental School catalog. Oster, Shipley, Pollack.

FOR GRADUATES

- Physiology 211. Principles of Mammalian Physiology. Credits to be arranged. Same as course 111 but with additional instruction and collateral reading. Prerequisite, permission from the department. Oster, Shipley, Pollack.
- Physiology 212. Advanced Physiology. Lecture and seminar during the second semester. Hours and credit by arrangement. Oster, Shipley, Pollack.
- Physiology 213. Research. Credit and hours by arrangement.

Oster, Shipley, Pollack.

SCHOOL OF MEDICINE*

ANATOMY

Professors Figge, Nauta, Brantigan, and Uhlenhuth; Associate Professor Krahl; Assistant Professors Mack, Mech, Leveque, and Kuypers; Instructors McCafferty and Wadsworth.

The graduate degrees offered by the Department of Anatomy are the Master of Science and the Doctor of Philosophy.

A. Division of Gross Anatomy

For Graduates and Advanced Undergraduates

- Anat. 101. Human Gross Anatomy (8). Four conferences or lectures, 12 laboratory hours per week throughout the first semester. Laboratory fee, \$15.00.
 - Figge, Nauta, Krahl, Mack, Leveque, Mech, McCafferty, and Wadsworth.
- Anat. 102. Man and His Environment (2). One-hour lecture and one-hour panel discussion Saturday mornings from 9-11 a. m. throughout the year. Thirty-two weeks. Guest lecturers. Discussion panels selected from the medical school faculty.
- Anat. 103. Practical Anatomy (4). Two lectures and two two-hour laboratories per week for 16 weeks. Second semester. This course is designed to bridge the gap between abstract anatomy and clinical anatomy as applied to the study and practice of medicine and surgery. It will be required of all majors in Anatomy. The study of surface anatomy will be correlated with physical diagnosis.

 Brantigan and Staff.

For Graduates

- Anat. 201. General Anatomy of the Human Body (8). Same course as 101, but on a more advanced level. It can be taken by graduate as well as post-graduate students. Laboratory fee, \$15.00. Figge and Staff.
- Anat. 202. The Anatomy of the Human Pelvis (2). Fifteen periods of four hours each during the first semester, mornings by arrangement. This course is open to graduate students, medical students, and post-graduate students.

 Uhlenhuth.
- Anat. 203. Practical Anatomy (4). Same course as 103 but on a more advanced level.

 Brantigan and Staff.
- Anat. 204. Fetal and Infant Anatomy (2). Fifteen periods of three hours each, every Thursday from 2:00 to 5:00 p. m. for 15 weeks during the first semester. This course is open to graduate students and post-graduates interested in Pediatrics.

 Krahl.
- Anat. 205. Research in Anatomy. Maximum credits, 12 per semester. Research work may be taken in any one of the branches of Anatomy. Figge and Staff.

B. Division of Neuro-Anatomy

For Graduates and Advanced Undergraduates

Neuroanat. 101. Human Neuro-Anatomy (4). Two lectures and four laboratory hours per week for 16 weeks of the first semester. Laboratory fee, \$10.00. Figge, Nauta, Kuypers.

For Graduates

- Neuroanat. 201. Human Neuro-Anatomy (4). Same course as Neuroanat. 101, but with additional work of a more advanced nature. Laboratory fee, \$10.00.

 Figge, Nauta, Kuypers.
- Neuroanat. 202. Research in Neuro-Anatomy. Maximum credits, 12. Research work involving the central or peripheral nervous system.

Figge, Nauta, Kuypers, Leveque.

C. Division of Micro-Anatomy

For Graduates and Advanced Undergraduates

Microanat. 101. Mammalian Histology (6). Three lectures and six laboratory hours a week for 16 weeks during the first semester. Laboratory fee, \$10.00.

Figge, Mack, Leveque.

For Graduates

Micronant. 201. Mammalian Histology (6). Same course as Micro-Anatomy 101, but with additional work of a more advanced nature. Laboratory fee, \$10.00. Figge, Mack, Leveque.

- Microanat. 202. Normal and Atypical Growth. Lectures in Problems of Growth

 (2). Two hours per week, time to be arranged. Sixteen weeks, second semester.

 Figge.
- Microanat. 203. Research. Maximum credits, 12. Research work may be taken in any one of the branches which form the subject of Micro-Anatomy (including cancer research). Figge, Mack, Leveque.

For Graduates at Army Chemical Center Edgewood, Maryland

Instructors Innes, Light, McAdams, Wheelwright.

For Graduates and Advanced Undergraduates

- Microanat. 110. Mammalian Histology (2). One lecture and one laboratory period per week, first semester. Prerequisite, consent of the instructor. Offered only at Army Chemical Center.

 Innes and Staff.
- Microanat. 111. Mammalian Histology (2). One lecture and one laboratory period per week, second semester. This is a continuation of Micro-Anatomy 110. Offered only at the Army Chemical Center. Innes and Staff.

BIOLOGICAL CHEMISTRY

Professor Schmidt; Associate Professor Herbst; Associate Professor Vanderlinde; Assistant Professor Vasington; Lecturer Summerson; Instructor Brown.

Graduates degrees offered by the Department of Biological Chemistry are the Master of Science and Doctor of Philosophy.

FOR GRADUATES AND ADVANCED UNDERGRADUATES

Biochem. 101. Principles of Biochemistry (8). Seven lectures and conferences and two three-hour laboratory periods a week, second semester. Prerequisites, inorganic, organic and quantitative or physical chemistry. Laboratory fee, \$20.00. Schmidt, Herbst, Vanderlinde, Vasington, Brown.

FOR GRADUATES

- Biochem. 201. Principles of Biochemistry (8). Same course as Biochem. 101, but on a more advanced level for graduate students. Laboratory fee, \$20.00.

 Schmidt, Herbst, Vanderlinde, Vasington, Brown.
- Biochem, 202. Special Topics in Biochemistry (1, 1). Prerequisite, Biochem. 101 or 201. Schmidt.
- Biochem. 203. Research. Maximum credits, 12. Credit proportioned to extent and quality of work accomplished. Schmidt, Herbst, Vanderlinde, Vasington.
- Biochem. 204, 205. Seminar (1, 1). First and second semesters. Schmidt.
- Biochem. 206. Enzymes and Metabolism (2-3). First semester. Herbst.
- Biochem. 207. Biochemical Preparation (1-4). Credit according to work done.

 Schmidt, Herbst, Vanderlinde, Vasington.

- Biochem. 208. Chemistry and Metabolism of the Steroid Hormones (2-3).

 Vanderlinde.
 - For Graduates at Army Chemical Center, Edgewood, Maryland Instructors Summerson, Jandorf, Michel, Schaffer.
- Biochem. 221, 223. Principles of Biochemistry (2, 2). Two lectures a week, first and second semesters. Prerequisites, undergraduate courses in inorganic, organic, and quantitative or physical chemistry.

 Summerson.
- Biochem. 222, 224. Experimental Biochemistry (2, 2). One lecture and one three-hour laboratory period a week, first and second semesters. Prerequisite, Biochemistry 221 and 223, which may be taken concurrently, or equivalent preliminary training in biochemistry. Summerson, Jandorf, Michel, Schaffer.
- Biochem. 225. Chemistry of Amino Acids and Proteins (2). Two lectures a week, first semester. Prerequisite, Biochemistry 221 and 223, or adequate undergraduate training in organic chemistry, with the consent of the instructor.

 Summerson.
- Biochem. 227. Enzyme Chemistry (2). Two lectures a week, second semester.

 Prerequisites, Biochemistry 225 (Protein Chemistry), or equivalent training in biochemistry, with consent of instructor.

 Jandorf.
- Biochem. 228. Seminar (3).

Summerson.

Biochem. 229. Research. Maximum credits, 12. Credit according to extent and quality of work accomplished. Summerson, Jandorf.

LEGAL MEDICINE

- Professor Fisher; Associate Professor Guerin, and Assistant Professors Freimuth and Lovett.
- Leg. Med. 201. Legal Medicine (1). One hour of lecture for twelve weeks, 4 hours assigned reading, first semester. Fisher, Lovitt, Guerin, Freimuth.
- Leg. Med. 202. Toxicology (10). Two hours lecture, 8 laboratory hours per week for 1 year. Freimuth, Fisher.
- Leg. Med. 203. Gross Pathologic Anatomy as Related to Toxicology (2). Two hours per week for one year. Fisher, Lovitt, Guerin.
- Leg. Med. 204. Research in Toxicology leading to preparation of a Thesis for the M.S. (6). Minimum credits, six. Freimuth, Fisher.
- Leg. Med. 205. Research in Toxicology leading to preparation of a Thesis for the Ph.D. (30). Fisher, Freimuth.

The Department of Legal Medicine offers schedules leading to the degrees of Master of Science and Doctor of Philosophy in Toxicology. Candidates are expected to have completed undergraduate work as follows: Eight semester hours each in general chemistry, organic chemistry, analytical chemistry (qualitative and quantitative), physical chemistry, physics, biology and four semester hours in organic qualitative analysis.

Candidates for the Master's Degree must complete the following courses: Leg. Med. 201, 202, 203 and 204.

Pharm. 101, f. s. and Chem. 258.

Candidates for the doctorate must complete the following courses:

Leg. Med. 201, 202, 203, 205.

Pharm. 101, f.s., Physiol. 102, Bact. 101, Bact. 102, Biochem. 201, Chem. 206, 208, Chem. 221, 223, Chem. 148, Chem. 150, Pharm. Chem. 111, 113, Pharm. Chem. 112, 114.

Part of the above work is offered at College Park with the remainder to be done at the Baltimore Schools. Some of the course work in Legal Medicine and Toxicology will be given at the Laboratories of the Division of Legal Medicine located at the Office of the Chief Medical Examiner, 700 Fleet Street, Baltimore, Md.

MICROBIOLOGY

Professor Wisseman; Associate Professor Steers; Assistant Professors Smith, Snyder and Sweet.

The Department of Microbiology offers the degree of Doctor of Philosophy. While the degree of Master of Science may be offered in special instances, priority for research facilities will be given aspirants to the Ph.D. degree.

Copies of Departmental regulations covering prerequisites and procedures may be obtained from the Department of Microbiology.

For Graduates and Advanced Undergraduates

Microbiol. 101. Medical Microbiology and Immunology (8). Four lectures and eight laboratory hours per week for sixteen weeks, first semester. Laboratory fee, \$10.00.

Wisseman and Staff.

For Graduates

- Microbiol. 201. Medical Microbiology and Immunology (8). This course is built upon Microbiol. 102 by the addition of advanced supplementary reading and laboratory exercises. Laboratory fee, \$10.00. Wisseman and Staff.
- Microbiol. 203. Bacterial Physiology (3). Three lectures per week, but no laboratory, first semester.

 Steers.
- Microbiol. 204. Research. Maximum credits, 12 hours per semester.

 Wisseman, Steers, Smith.
- Microbiol. 205. Genetics of Microorganisms (1). One lecture per week, second semester.

 Steers.
- Microbiol. 206, 207. Seminar (1, 1). One session per week, first and second semesters. Wisseman and Staff.
- Microbiol. 208. Medical Mycology (2). One lecture and one laboratory per week, second semester. Laboratory fee, \$10.00. Registration by consent of instructor.

PHARMACOLOGY

Professor Krantz; Associate Professor Truitt; Assistant Professor Burgison; Instructor Musser: Lecturer Marrazzi.

All students majoring in the Department of Pharmacology with a view to obtaining the degree of Master of Science or Doctor of Philosophy should secure special training in anatomy, mammalian physiology, organic chemistry, and physical chemistry.

FOR GRADUATES AND ADVANCED UNDERGRADUATES

Pharmacol. 101, f.s., General Pharmacology (8). Three lectures and one laboratory. This course consists of 90 lectures and 30 laboratory periods of three hours each, offered each year. Laboratory fee, \$20.00.

Krantz, Truitt, Burgison, Musser, Marrazzi, Harne.

FOR GRADUATES

- Pharmacol. 201, f.s., General Pharmacology (8). Same as 101, for students majoring in pharmacology. Additional instruction and collateral reading are required. Laboratory fee, \$20.00. Krantz, Truitt, Burgison.
- Pharmacol. 205. Research. Maximum credits, 12. Credit in accordance with the amount of work accomplished. Krantz, Truitt.
- Pharmacol. 206. Anesthesia. Maximum credits, 2. Credit in accordance with the work accomplished. Krantz, Truitt.
- Pharmacol. 207, 208. Chemical Aspects of Pharmacodynamics (2-2). Burgison.

For Graduates at Army Chemical Center, Edgewood, Maryland

Instructors Marrazzi, Hart, Wills, Horton.

Graduate degrees offered at the Army Chemical Center are the Master of Science and Doctor of Philosophy.

- Pharmacol. 220, 222. Principles of Pharmacology (3, 3). Three lectures a week, first and second semesters. Prerequisites, Biochemistry 221-224 and Physiology 221 and 222, or their equivalents. To be taken concurrently with Pharmacology 221 and 223 except by special arrangement with the instructor.

 Marrazzi, Hart, Wills.
- Pharmacol. 221, 223. Experimental Pharmacology (1, 1). One three-hour laboratory period a week, first and second semesters. Prerequisites, Biochemistry 221-224 and Physiology 221 and 222, or their equivalents. To be taken concurrently with Pharmacology 220 and 222 except by special arrangement with the instructor.

 Marrazzi, Hart, Wills.
- Pharmacol. 225. Biometric Principles and Their Application (1). One lecture a week, first semester. Horton, Wills.
- Pharmacol. 226. Electropharmacology. Maximum credits, 2. Time to be arranged. Marrazzi, Hart.
- Pharmacol. 227. Advanced Biometry (2).

Pharmacol. 228. Seminar (1).

Hart, Wills.

Pharmacol. 229. Research. Maximum credits, 12.

Marrazzi, Wills.

PHYSIOLOGY

Professors Amberson, Smith, Ferguson; Assistant Professors White, Fox; Lecturer Wills.

The Department of Physiology prefers to accept students who have already had some graduate training elsewhere. Before admission to candidacy for the Doctor of Philosophy degree the Department gives a qualifying examination, both oral and written, which must be satisfactorily passed.

In the usual case a student majoring in Physiology will be expected to take Physiol. 101 and 102 before, or concurrently with, courses 201 to 206 below. Such a student will extend his major program by taking courses in other departments of this University, and by enrolling in the summer course in physiology at the Marine Biological Laboratory, Woods Hole, Massachusetts.

FOR GRADUATES AND ADVANCED UNDERGRADUATES

Physiol. 101. The Principles of Physiology (9). Five lectures, two conferences and two 4-hour laboratory periods per week for 15 weeks; second semester. Laboratory fee \$15.00.

Amberson and Staff.

FOR GRADUATES

- Physiol. 201. Experimental Mammalian Physiology. Time and credit by arrangement.

 Amberson and Staff.
- Physiol. 202. Blood and Tissue Proteins (2). Two lectures a week, for 15 weeks.

 Amberson and White.
- Physiol. 203. Physiology of Reproduction (2). Two hours a week, lectures, conferences and seminars, for 15 weeks.

 Smith.
- Physiol. 204. Physiological Techniques. Time and credit by arrangement.

 Amberson and Staff.
- Physiol. 205. Physiology of Kidney and Body Fluids (2). Two hours a week, lectures, seminars, and conferences, for 15 weeks. Ferguson.
- Physiol. 206. Seminar. Credit according to work done. Staff.
- Physiol. 207. Research. By arrangement with the head of the department.

 Staff.

For Graduates at Army Chemical Center, Maryland

Instructors Wills, Wilbur and Anderson.

Physiol. 221, 223. Principles of Physiology (3, 3). Three lectures and conferences, first and second semesters. Prerequisites, Biochem. 221-4, or equivalent.

Wills and Staff.

- Physiol. 222, 224. Experimental Physiology (1, 1). One three-hour laboratory per week, first and second semesters. Prerequisites, Physiol. 221, 223, which may be taken concurrently, or equivalent training in the principles of physiology.

 Wills and Staff.
- Physiol. 225. Cellular Physiology (2). Two hours a week, lectures, conferences, and seminars, for 15 weeks. Prerequisites, Biochem. 221-4 and Physiol. 221-4, or equivalents. Wilber.
- Physiol. 226. Physiology of Circulation and Respiration (2). Two hours a week, lectures, conferences and seminars, for 15 weeks. Biochem. 221-4 and Physiol. 221-4, or equivalents. Wills.
- Physiol. 227. Environmental Physiology (2). Two hours a week, lectures, conferences and seminars, for 15 weeks. Prerequisites, Biochem. 221-4 and Physiol. 221-4, or equivalents. Wilber.
- Physiol. 228. Comparative Physiology (2). Two hours a week, lectures, conferences and seminars, for 15 weeks. Prerequisites, Biochem. 221-4 and Physiol. 221-4, or equivalents. Wilber.
- Physiol. 229. Seminar (1). One hour per week for 15 weeks. Wills and Staff.
- Physiol. 230. Research. Maximum credit, 12. Credit according to extent and quality of work accomplished.

 Wills and Staff.
- Physiol. 231. Introduction to Microphysiology (1 or 2). One or two hours per week, as arranged, lectures, conferences and seminars, for 15 weeks. Prerequisites, Biochem. 221-4 and Physiol. 221-4, or equivalents. Anderson.
- Physiol. 232. Special Topics in Physiology (1 or 2). One or two hours per week, as arranged, lectures, conferences and seminars for 15 weeks. Prerequisites, Biochem. 221-4 and Physiol. 221-4. Wills.

PSYCHIATRIC NURSING AND MATERNAL AND CHILD NURSING

Professor Gipe, Associate Professors Carl and Grenell.

The Master of Science Degree in Nursing is designed primarily to prepare registered nurses in psychiatric nursing and maternal and child nursing for teaching and administrative positious in these clinical specialties.

Admission:

For admission to a graduate program in nursing, the applicant is required to be a registered nurse and must have completed an undergraduate degree program with academic standing which is recognized by the Graduate School, Psychiatric Nursing, and Public Health Nursing experience should have been received in the basic nursing curriculum.

Curriculum Requirements:

Requirements for the Master of Science Degree include the satisfactory completion of at least thirty semester hours of graduate work. The thirty hour

program includes twenty-four semester hours of course work and six semester hours for the thesis. At least twelve semester hours and not more than sixteen semester hours can be taken in the major field. At least eight semester hours must be taken in the minor field, namely, education or sociology. It is required that at least twelve semester hours of the twenty-four hours of course work be taken in courses numbered in the catalogue as 200 courses.

Thesis:

A thesis representing research in the major field must be approved by the student's advisor and presented to the Dean of the Graduate School as a partial requirement for the Master of Science degree. Final approval of the thesis is given by the examination committee appointed by the Dean of the Graduate School.

Admission to Candidacy:

The requirements in regard to advancement to candidacy, transfer of credits, and final oral examination are the same as described for the Master of Arts and Master of Science Degrees.

- Nurs. 201. Trends of Higher Education in Nursing (2). First Semester. One lecture or two hour conferences a week. Gipe and Staff.
- Nurs. 202. Interpersonal Interaction (2). First Semester. One lecture and one two-hour laboratory period a week.

Fernandez, Psychiatric Institute Staff.

- Nurs. 203. Nursing in the Somatic Therapies (2). First Semester. One lecture and one two-hour laboratory period a week. Carl, Grenell.
- Nurs. 204. Psychiatric Nursing (2). First Semester. One lecture and one three-hour laboratory period a week. Fernandez and others.
- Nurs. 205. Psychiatric Nursing (2). Second Semester. One lecture or conference and one four-hour laboratory period a week. Carl, Fernandez.
- Nurs. 206. Philosophical Concepts in Health (2). Second Semester. Two hour lecture a week.
- Nurs. 207. Nursing in Child Health Services (2). First Semester. One lecture and two three-hour laboratory periods a week.
- Nurs. 208. Nursing in Child Health Services (2). Second Semester. One lecture and two four-hour laboratory periods a week.
- Nurs. 209. Nursing in Maternal and Newborn Services (2). First Semester. One lecture and two three-hour laboratory periods a week.
- Nurs. 210. Nursing in Maternal and Newborn Services (2). Second Semester.

 One lecture and two four-hour laboratory periods a week.
- Nurs. 211. Seminar in Maternal and Child Health Services (2). Second Semester. One two-hour period a week.

Nurs. Ed. 286. Research Methods and Materials in Nursing Education (2). First Semester. One two-hour lecture or conference a week.

Carl and others.

Nurs. Ed. 287. Seminar in Problems in Nursing Education (2). Second Semester. One two-hour period a week. Gipe and others.

Nurs. 289. Research - Thesis (1-6).

SCHOOL OF PHARMACY

Professors Estabrook, Foss, Ichniowski, Purdum, Richeson, Shay, Slama;
Associate Professors Allen, Miller.

BACTERIOLOGY

This Department offers work leading toward the Master of Science and the Doctor of Philosophy degrees. Requirements for the doctoral degree are fulfilled by supplementing the courses offered in this Department with selected courses from the College Park curriculum.

FOR GRADUATES AND ADVANCED UNDERGRADUATES

Bact. 115. Serology and Immunology (4). Third year, two lectures and two laboratory periods a week, second semester.

Shay, Haubrick.

FOR GRADUATES

- Bact. 200, 201. Chemotherapy (1-2). One lecture a week. Offered in alternate years. Shay.
- Bact. 202, 203. Reagents and Media (1,). One lecture a week. Offered in alternate years.
- Bact. 210. Special Problems in Bacteriology. Laboratory course. Credit determined by amount and quality of work performed. Shay.
- Bact. 211. Public Health (1-2). One lecture a week. Prerequisites, Bacteriology 1, 115.
- Bact. 221. Research in Bacteriology. Credit determined by amount and quality of work performed. Shay.

BIOCHEMISTRY

FOR GRADUATES AND ADVANCED UNDERGRADUATES

Chem. 153. Biochemistry (5). Four lectures and conferences and one four-hour laboratory period a week, first semester. Prerequisites, Chem. 35, 36, 37, 38, 15.

Schmidt and Staff.

BOTANY AND PHARMACOGNOSY

FOR GRADUATES AND ADVANCED UNDERGRADUATES

Bot. 101, 102. Taxonomy of the Higher Plants (2, 2). One lecture and one

- laboratory period a week. Prerequisites, Botany 1, 21. Given in alternate years.
- Bot. 111, 113. Plant Anatomy (2, 2). Two lectures a week. Prerequisites, Bot. 1, 21, 22.
- Bot. 112, 114. Plant Anatomy (2, 2). Two laboratory periods a week. Prerequisites, Bot. 111, 113.

FOR GRADUATES

- Pharmacognosy 201, 202. Advanced Study of Vegetable Powders (4, 4). Two lectures and two laboratory periods a week. Prerequisites, Bot. 111, 113, 112, 114. Given in alternate years.
- Pharmacognosy 211, 212. Advanced Pharmacognosy (4, 4). Two lectures and two laboratory periods a week. Prerequisites, Bot. 111, 113, 112, 114. Slama.
- Pharmacognosy 220. Research. Credit according to amount and quality of work performed.

MATHEMATICS

Math. 152, 153. Mathematical Statistics (2, 2). Prerequisites, Math. 20, 21.
Richeson.

PHARMACEUTICAL CHEMISTRY

FOR GRADUATES AND ADVANCED UNDERGRADUATES

- Chem. 101. Advanced Inorganic Chemistry (2). Two lectures a week, first or second semester. Prerequisites, Chem. 15, Pharm. Chem. 53 or equivalent, and Chem. 37, 38.

 Miller.
- Pharm. Chem. 111, 113. Chemistry of Medicinal Products (2, 2). Two lectures a week, first and second semesters. Prerequisites, Chem. 35, 37, 53. Miller.
- Pharm. Chem. 112, 114. Chemistry of Medicinal Products (2, 2). Two laboratory periods a week, either or both semesters. Prerequisites, Pharm. Chem. 111, 113, or may be taken simultaneously with Pharm. Chem. 111, 113.

Miller.

- Chem. 141, 143. Advanced Organic Chemistry (2, 2). Two lectures a week, first and second semesters. Prerequisites, Chem. 37, 38. Miller.
- Chem. 142, 144. Advanced Organic Laboratory (2, 2). Two laboratory periods a week, any one or both semesters. Prerequisites, Chem. 19 or 23, and Chem. 37, 38.

 Miller.
- Chem. 146, 148. Identification of Organic Compounds (2, 2). One lecture and two laboratory periods a week, any one or both semesters. Prerequisites, Pharm. Chem. 111, 113, or Chem. 141, 143.

 Miller.

FOR GRADUATES

Pharm. Chem. 201, 203. Survey of Pharmaceutical Chemistry (2, 2). Two

- lectures a week, first and second semesters. Prerequisites, Pharm. Chem. 111, 113. Miller.
- Pharm. Chem. 211, 213. Chemistry of the Alkaloids (2, 2). Two lectures a week, first and second semesters. Prerequisites, Pharm. Chem. 111, 113.

 Miller
- Pharm. Chem. 220. Advanced Pharmaceutical Synthesis (2-6). Laboratory and conferences, either or both semesters. Prerequisites, Chem. 142, 144, or Pharm. Chem. 112, 114.

 Miller.
- Pharm. Chem. 222. Instrumental Methods of Pharmaceutical Analyses (1-4).

 Laboratory and conferences, either or both semesters. Prerequisites, Chem. 146, 148.

 Miller.
- Pharm. Chem. 230. Pharmaceutical Chemistry Seminar (1). Required of students majoring in pharmaceutical chemistry each semester. Miller.
- Pharm. Chem. 235. Research in Pharmaceutical Chemistry. Credit determined by amount and quality of work performed.

 Miller.
- Chem. 258. The Identification of Organic Compounds. An advanced course.

 Two to four laboratory periods a week, either semester. Prerequisites, Chem.

 146, 148, or equivalent. Miller.

PHARMACOLOGY

FOR GRADUATES AND ADVANCED UNDERGRADUATES

Pharmacology 111. Official Methods of Biological Assay (4). Two lectures and two laboratory periods a week, first semester. Prerequisite, Pharmacology 81, 82.

FOR GRADUATES

- Pharmacology 201, 202. Methods of Biological Assay (4, 4). Laboratory and conferences, first and second semesters. Prerequisite, Pharmacology 111.

 Offered in alternate years. Ichniowski.
- Pharmacology 211, 212. Special Studies in Pharmacodynamics (4, 4). Laboratory and conferences, first and second semesters. Prerequisite, Pharmacology 81 and 82 and the approval of the instructor. Offered in alternate years.
- Pharmacology 221, 222. Special Studies in Biological Assay Methods (2-4, 2-4).

 Credit according to amount of work undertaken after consultation with the instructor. Laboratory work and conferences, first and second semesters. Prerequisites, Pharmacology 111, 201, 202.

 Ichniowski.
- Pharmacology 250. Research in Pharmacology. Properly qualified students may arrange semester hours' credit with the instructor. Ichinowski.

PHARMACY

FOR GRADUATES AND ADVANCED UNDERGRADUATES

- Pharmacy 101, 102. Advanced Dispensing Pharmacy (3, 3). Two lectures and one laboratory a week. Prerequisites, Pharmacy 1, 2, 51, 52.
 - Allen and Staff.
- Pharmacy 121. Hospital Pharmacy Administration (2). First semester, two lectures a week. Purdum.
- Pharmacy 132. Cosmetics (3). Second semester, two lectures and one laboratory a week. Prerequisites, Pharmacy 1, 2, 51, 52.

Allen and Staff.

FOR GRADUATES

- Pharmacy 201, 202. Manufacturing Pharmacy (2, 2). Two lectures a week. Given in alternate years. Prerequisites, Pharmacy 101, 102.
 - Foss and Allen.
- Pharmacy 203, 204. Manufacturing Pharmacy (2, 2). Two laboratories a week. Prerequisites, Pharmacy 201, 202, or may be taken simultaneously with Pharmacy 201, 202. Foss and Allen.
- Pharmacy 205. Manufacturing Pharmacy Control (3). Three lectures a week. Given in alternate years. Foss.
- Pharmacy 211, 212. Survey of Pharmaceutical Literature (1, 1). One lecture a week. Given in alternate years.

 Allen and Purdum.
- Pharmacy 215, 216. Product Development (2, 2). Two laboratories a week. Prerequisites, Pharmacy 132, 201, 202, 203, 204. Allen.
- Pharmacy 221, 222. History of Pharmacy (2, 2). Two lectures a week. Given in alternate years.
- Pharmacy 230. Pharmaceutical Seminar (1). Each semester. Foss and Allen.
- Pharmacy 231, 232. Special Problems in Pharmaceutical Technology (2, 2).

 Two laboratories a week.

 Allen and Purdum.
- Pharmacy 235. Research in Pharmacy. Credit and hours to be arranged.

 Foss, Purdum, Allen.

PHYSICS AND PHYSICAL CHEMISTRY

FOR GRADUATES AND ADVANCED UNDERGRADUATES

- Chem. 187, 189. Physical Chemistry (3, 3). Three lectures a week, first and second semesters. Prerequisites, Phys. 11; Chem. 15, 35, 37. Math 20, 21.

 Estabrook.
- Chem. 188, 190. Physical Chemistry (2, 2). Two laboratory periods a week, first and second semesters. Prerequisite, Chem. 187, 189, or may be taken simultaneously with these courses.

 Estabrook.
- Phys. 104, 105. Electricity and Magnetism (3, 3). Two lectures and one laboratory period a week, first and second semesters. Given in alternate years. Prerequisites, Phys. 11; Math. 21.

 Estabrook.

Phys. 112, 113. Modern Physics (2, 2). Two lectures a week, first and second semesters. Prerequisites, Phys. Chem. 187, 189, 188, 190. Given according to demand.

Estabrook.

FOR GRADUATES

- Phys. 200, 201. Introduction to Theoretical Physics (5, 5). Five lectures a week, first and second semesters. Given according to demand.

 Estabrook.
- Phys. 208, 209. Thermodynamics (2, 2). Two lectures a week, first and second semesters. Prerequisites, Phys. Chem. 187, 188, 189, 190. Given in alternate years.

 Estabrook.
